GAESHOW B0C9MBG7RV

GAESHOW Automatic Plant-Based Milk Maker Instruction Manual

Model: B0C9MBG7RV

1. INTRODUCTION

Thank you for choosing the GAESHOW Automatic Plant-Based Milk Maker. This appliance is designed to simplify the process of creating fresh, nutritious plant-based beverages such as soy milk, nut milk, rice paste, and fruit juices. Please read this instruction manual thoroughly before first use to ensure safe operation and optimal performance. Keep this manual for future reference.

The GAESHOW Automatic Plant-Based Milk Maker, shown in white, alongside a glass of freshly made plant milk and ingredients like soybeans, walnuts, and almonds.

2. SAFETY INSTRUCTIONS

- Always ensure the appliance is placed on a stable, flat, and dry surface.
- Do not immerse the main unit or power cord in water or other liquids.
- Keep out of reach of children. Close supervision is necessary when the appliance is used near children.
- Unplug the appliance from the power outlet when not in use, before cleaning, and before assembling or disassembling parts.
- Do not operate the appliance if the power cord or plug is damaged, or if the appliance malfunctions or has been damaged in any manner.
- Avoid contact with moving parts.
- Do not use accessories not recommended or sold by the manufacturer.
- Do not use outdoors.
- Do not place on or near a hot gas or electric burner, or in a heated oven.

- Always ensure the lid is properly secured before operating.
- Exercise extreme caution when moving an appliance containing hot liquid.
- Do not open the lid during operation. The magnetic induction lid will stop operation if opened.

3. PRODUCT OVERVIEW AND COMPONENTS

Familiarize yourself with the various parts of your GAESHOW Plant-Based Milk Maker:

This diagram illustrates the key components of the GAESHOW Plant-Based Milk Maker, including the magnetic induction lid, double-layer body for insulation, anti-scald handle, stainless steel inner lining, high-speed rotating blade, and anti-slip base.

Key Features:

- **Smart LED Screen:** Provides accurate control over timing and temperature.
- **Automatic Cleaning Function:** Simplifies post-use cleanup.
- **Delay Start Function:** Up to 12 hours for convenient preparation.
- **10 Powerful Stainless Steel Blades:** Ensures smooth blending without pre-soaking.
- **Magnetic Induction Lid:** Ensures safety by stopping operation if the lid is opened.
- **Double Silicone Seal:** Prevents spills and splashes.
- **Frosted Comfort Handle:** Designed for easy and secure carrying.
- **Anti-slip Foot Pad:** Provides stability during operation.

4. SETUP

Before first use, wash all removable parts with warm soapy water, rinse thoroughly, and dry. Wipe the main unit with a damp cloth. Ensure all parts are completely dry before assembly.

Initial Preparation:

1. Place the appliance on a stable, flat, and dry surface.
2. Ensure the power cord is not plugged in.
3. Remove the lid.

SIMPLE ONE-TOUCH OPERATION

This image displays the dimensions of the GAESHOW Plant-Based Milk Maker, measuring 27cm (10.62in) in height and 12.5cm (4.92in) in width, along with a measuring cup.

5. OPERATING INSTRUCTIONS

The GAESHOW Plant-Based Milk Maker offers a simple one-touch operation for various beverages.

General Operation Steps:

1. **Add Ingredients:** Place your desired ingredients (e.g., soybeans, nuts, rice, fruits) into the inner pot. No pre-soaking is required for most ingredients.
2. **Add Water:** Pour water into the pot, ensuring it does not exceed the maximum fill line indicated inside the pot.
3. **Secure Lid:** Place the lid firmly onto the main unit.
4. **Plug In:** Connect the power cord to a suitable electrical outlet.
5. **Select Function:** Press the corresponding function button on the LED screen for your desired beverage (e.g., Soya Milk, Rice Paste, Juice).
6. **Start:** The machine will begin operation. The LED screen will display the remaining time.

7. **Completion:** Once the process is complete, the machine will emit three beeps, and the display will indicate completion. Unplug the appliance and carefully pour out your fresh beverage.

A step-by-step visual guide showing the six phases of using the milk maker: 1. Add ingredients, 2. Add water (below warning line), 3. Select function, 4. Wait for operation, 5. Complete milk production, 6. Add clean water for auto-cleaning.

Beverage Options:

The machine is capable of making a variety of plant-based drinks and other preparations:

- Soy Milk
- Nut Milk (Cashew, Coconut, Walnut, Almond, etc.)
- Rice Paste
- Corn Juice
- Fruit Juice
- Flower Tea
- Boil Water

The GAESHOW Plant-Based Milk Maker (green model) is shown with examples of beverages it can prepare: Soy Milk, Rice Paste, Juice, Flower Tea, and Nut Milk.

Delay Start Function:

The delay start function allows you to set a timer for up to 12 hours, so your beverage can be ready exactly when you need it.

1. Add ingredients and water as per the general operation steps.
2. Press the 'Function' button to select your desired program.
3. Press the 'Preset' button and adjust the time using the controls to set the desired delay (e.g., 8 hours for morning preparation).
4. The machine will start automatically after the set delay and prepare your beverage.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygiene of your appliance.

Automatic Cleaning:

The machine features an automatic cleaning function for convenience.

1. After use, empty any remaining beverage from the pot.
2. Add clean water to the pot, ensuring it is below the maximum fill line.
3. Select the 'Clean' function on the control panel.
4. The machine will perform a cleaning cycle.
5. Once complete, unplug the machine and rinse the interior thoroughly.

SIMPLE STEPS TO USE

STEP 01 Add the ingredients

STEP 02 Add water

STEP 03 Select corresponding button

STEP 04 Emits 3 beeps to indicate the end of operation, or you can look at the time display

A visual guide demonstrating four simple steps for operation, with the fourth step showing the machine emitting 3 beeps to indicate completion, followed by cleaning.

Manual Cleaning:

- Always unplug the appliance before cleaning.
- Use the provided cleaning brush to remove any residue from the blades and inner pot.
- Wash the inner pot and lid with warm, soapy water. Rinse thoroughly.
- Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
- Ensure all parts are completely dry before storing or next use.

7. TROUBLESHOOTING

If you encounter issues with your GAESHOW Plant-Based Milk Maker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not start	Not plugged in; Lid not properly secured; Power outage.	Ensure power cord is securely plugged in; Check if the lid is correctly aligned and closed; Verify power supply.
Error Code E2 displayed	Overheating or dry burning detected.	Unplug the machine and allow it to cool down. Ensure sufficient water and ingredients are added for the selected program. Do not operate without liquid.
Beverage is not smooth	Insufficient blending time; Too many ingredients; Blades are dirty.	Ensure the correct program is selected for adequate blending; Do not exceed maximum ingredient capacity; Clean blades thoroughly.
Burning smell during operation	Ingredients stuck to the bottom; Overheating.	Immediately unplug the machine. Allow to cool. Clean the bottom of the pot thoroughly. Ensure proper water levels.

If the problem persists after attempting these solutions, please contact customer support.
