Please read this manual thoroughly before operation to ensure safe and optimal performance.
This manual provides essential information on setup, operation, maintenance, and troubleshooting to help you get the most out of your Silonn Air Fryer Oven.

Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions before using the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.

- Oversized foods or metal utensils must not be inserted in a toaster oven as they may create a fire or risk of electric shock.
- A fire may occur if the toaster oven is covered or touching flammable material, including curtains, drapes, walls, and the like, when in operation.
- Do not place any of the following materials in the oven: paper, cardboard, plastic, or any other materials not specifically designed for oven use.
- Do not store any materials, other than manufacturer's recommended accessories, in this oven when not in use.
- Do not cover crumb tray or any part of the oven with metal foil. This will cause overheating of the oven.

Setup

Unpacking and Initial Preparation:

1. Carefully remove the Silonn Air Fryer Oven and all accessories from the packaging.
2. Remove any packaging materials, stickers, or labels from the appliance.
3. Wipe the exterior of the oven with a damp cloth. Clean all accessories (air fry basket, roast tray, crumb tray, tray handle) with warm, soapy water. Rinse thoroughly and dry completely before first use.
4. Place the appliance on a stable, heat-resistant, and level surface, ensuring adequate clearance (at least 4 inches) on all sides for proper ventilation. Do not place it directly against a wall or under cabinets.
5. Ensure the crumb tray is properly inserted at the bottom of the oven.

Basic Operation:

1. **Plug In:** Connect the power cord to a grounded electrical outlet. The display will light up.
2. **Select Function:** Use the "FUNCTION" dial or dedicated buttons (e.g., "AIR FRY", "OVEN") to choose your desired cooking mode. The display will show the default time and temperature for that function.
3. **Adjust Time/Temperature:** Rotate the "TIME/TEMP" dial to adjust the cooking time and temperature as needed. Press the dial to switch between time and temperature adjustment.
4. **Preheat (Optional):** For some functions, you may press the "PREHEAT" button. The oven will preheat to the set temperature.
5. **Place Food:** Once preheated (if applicable) or ready, carefully place your food on the appropriate accessory (air fry basket, roast tray) inside the oven. Use the tray handle for safety.

6. **Start Cooking:** Press the "START/STOP" button to begin the cooking process.
7. **Monitor Cooking:** The internal light allows you to monitor food progress. You can press the light button to turn it on/off.
8. **Reheat (Optional):** Use the "REHEAT" button for quick reheating of cooked food.
9. **End Cooking:** The oven will beep when cooking is complete. Carefully remove food using oven mitts and the tray handle.

Cooking Tips:

- For best air frying results, shake or flip food halfway through cooking to ensure even crisping.
- Do not overcrowd the basket or tray; cook in batches if necessary to allow for proper air circulation.
- Refer to the included recipe book for recommended cooking times and temperatures for various foods.
- Always use oven mitts when handling hot accessories or food.

Maintenance and Cleaning

Regular cleaning and maintenance will ensure the longevity and optimal performance of your Silonn Air Fryer Oven.

Cleaning Instructions:

1. **Unplug and Cool:** Always unplug the appliance from the power outlet and allow it to cool completely before cleaning.
2. **Crumb Tray:** Remove the slide-out crumb tray and discard any crumbs. Wash the crumb tray with warm, soapy water.
3. **Accessories:** The air fry basket, roast tray, and crumb tray are dishwasher safe. Alternatively, wash them by hand with warm, soapy water and a non-abrasive sponge. Rinse thoroughly and dry completely.
4. **Interior:** Wipe the interior walls of the oven with a damp cloth and mild detergent. For stubborn stains, a non-abrasive cleaner designed for oven interiors can be used. Avoid abrasive pads or metal brushes.
5. **Exterior:** Clean the exterior of the oven with a soft, damp cloth. Do not use abrasive cleaners or scourers as they may damage the finish.
6. **Heating Elements:** Do not attempt to clean the heating elements directly. Any food residue on the elements will burn off during operation.

Storage:

Ensure the appliance is clean and dry before storing. Store the oven and its accessories in a cool, dry place.

Troubleshooting

If you encounter issues with your Silonn Air Fryer Oven, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outlet issue; appliance malfunction.	Ensure the power cord is securely plugged into a working outlet. Try a different outlet. If the issue persists, contact customer support.
Food is not cooking evenly.	Overcrowding; incorrect temperature/time; food not flipped/shaken.	Do not overcrowd the basket/tray. Adjust temperature and time according to recipe. For air frying, shake or flip food halfway through.
White smoke coming from the oven.	Grease/food residue on heating elements or crumb tray.	This is normal for fatty foods. Ensure crumb tray is clean. If excessive, unplug and let cool, then clean the crumb tray and interior.
Appliance emits a burning smell.	New appliance odor; food residue burning.	A slight odor is normal during first few uses. Ensure the oven and accessories are clean. If smell persists or is strong, unplug and contact support.
Digital display not working.	Power interruption; internal error.	Unplug the unit for a few minutes, then plug it back in. If the display remains blank or faulty, contact customer support.

If the problem persists after trying these solutions, please contact Silonn Customer Support.
