Blitzshark SRK-311L

Blitzshark 24V 2-Seater Kids Ride-On Car (Model SRK-311L) Instruction Manual

Important safety, assembly, operation, and maintenance information for your Blitzshark ride-on car.

1. SAFETY INFORMATION

Please read and understand all instructions before operating the Blitzshark 24V 2-Seater Kids Ride-On Car. Failure to follow these safety guidelines may result in serious injury or property damage. This product is designed for children aged 3-8 years.

- **Adult Supervision Required:** Always supervise children when they are operating the ride-on car.
- **Weight Limit:** Do not exceed the maximum load capacity of 130 lbs (59 kg).
- **Age Range:** Suitable for children aged 3 to 8 years. For two children, ensure they are under 4 years old and their combined height is less than 42 inches.
- **Protective Gear:** Ensure children wear appropriate safety gear, such as helmets and knee pads, especially when learning to drive.
- **Safe Driving Environment:** Operate the car on flat, dry surfaces away from traffic, swimming pools, or other hazards. Avoid steep inclines.
- **Seat Belts:** Always ensure children are securely fastened with the provided seat belts.
- **Emergency Brake:** The parental remote control includes an emergency brake button to stop the vehicle immediately if needed.
- **Charging:** Only use the provided charger. Do not overcharge the battery. Keep the charger away from water.

2. PACKAGE CONTENTS

Before assembly, please ensure all parts are present and undamaged. Refer to the packing list in your product box

for a complete inventory. Typically, the package includes:

- Main Car Body
- Wheels (4)
- Steering Wheel
- Seat(s)
- Rear Spoiler
- Charger
- Remote Control
- Assembly Hardware (screws, washers, etc.)
- Instruction Manual

3. ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your Blitzshark ride-on car. It is recommended to have two adults for assembly.

1. **Wheel Installation:** Attach the wheels to the axles, securing them with the provided washers and nuts. Ensure they spin freely but are firmly attached.
2. **Steering Wheel Attachment:** Connect the steering column to the car's main body and then attach the steering wheel, ensuring all electrical connections for horn and music are secure.
3. **Seat Installation:** Place the seat(s) into position and secure them with the designated screws. Ensure seat belts are accessible and functional.
4. **Battery Connection:** Locate the battery compartment (usually under the seat or hood). Connect the battery terminals (red to red, black to black).
5. **Rear Spoiler:** Attach the rear spoiler to the back of the car using the provided screws.
6. **Final Checks:** Before first use, ensure all screws are tightened, all connections are secure, and the car's functions (lights, music, horn) are working.

4. CHARGING THE BATTERY

The vehicle is powered by a 24V 7AH battery. For optimal performance and battery life, follow these charging instructions:

- **Initial Charge:** Before first use, charge the battery for 8-12 hours. Do not exceed 18 hours.
- **Regular Charging:** Recharge the battery after each use for 8-12 hours.
- **Charging Port:** Locate the charging port on the vehicle (refer to your specific model's diagram if unsure). Plug the charger into the port, then into a standard wall outlet.
- **Indicator Light:** The charger typically has an indicator light that changes color when charging is complete.
- **Storage:** If storing the vehicle for an extended period, charge the battery fully every 30 days to prevent damage.

5. OPERATING INSTRUCTIONS

Your Blitzshark ride-on car offers dual driving modes for flexibility and fun.

5.1 Parental Remote Control

The 2.4G remote control allows parents to guide the vehicle, especially for younger children or for safety interventions.

- **Pairing:** Refer to the remote control's specific instructions for pairing with the vehicle.
- **Controls:** The remote typically features buttons for forward/backward movement, left/right steering, speed selection (3-speeds switchable), and an emergency brake.
- **Priority:** The remote control generally overrides manual operation for safety.

DUAL DRIVING MODES

Dual Control, Double the Fun.

Parental 2.4G Remote Control

- Emergency Brake
- 3-Speeds Switchable

Kids Manual Operation

- High/ Low Speed Switchable

5.2 Kids Manual Operation

Older children can operate the car independently using the steering wheel and foot pedal.

- **Start/Stop:** Use the power button to turn the vehicle on or off.
- **Acceleration:** Press the foot pedal to accelerate. Release to brake.
- **Steering:** Use the steering wheel to control direction.
- **Gear Shift:** Select forward or reverse using the gear lever.
- **Speed Selection:** Some models allow children to select high or low speed.

5.3 Multifunction Features

The central control panel offers various entertainment and informational features:

- **Power Display:** Indicates the remaining battery level, allowing for timely recharging.
- **Music/FM Radio:** Enjoy pre-loaded music or tune into FM radio stations.
- **Bright Headlights & Taillights:** Functional lights enhance realism and visibility.
- **Horn:** A working horn for added fun.

6. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your ride-on car.

- **Cleaning:** Wipe the car with a soft, damp cloth. Do not use abrasive cleaners or solvents. Avoid spraying water directly onto electrical components.
- **Battery Care:** Always recharge the battery after each use. If the car is not used for a long period, charge the battery fully every 30 days. Do not store the battery in extreme temperatures.

- **Tire Inspection:** Regularly check the tires for wear and tear. Ensure they are free from debris.
- **Electrical Connections:** Periodically check all electrical connections to ensure they are secure and free from corrosion.
- **Storage:** Store the vehicle in a dry, covered area away from direct sunlight and moisture.

7. TROUBLESHOOTING

If you encounter issues with your Blitzshark ride-on car, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not move	Battery is low or not connected; Power switch is off; Loose wire connection; Motor malfunction.	Charge the battery; Turn on the power switch; Check and secure all wire connections; Contact customer support if motor is faulty.
Car moves slowly	Low battery; Overload (exceeding weight limit); Operating on rough terrain.	Recharge the battery fully; Reduce load; Operate on flat, smooth surfaces.
Remote control not working	Remote not paired; Remote batteries are dead; Interference.	Re-pair the remote control; Replace remote batteries; Move to an area with less interference.
No sound/lights	Loose wire connection; Speaker/light malfunction.	Check and secure wire connections to speakers/lights; Contact customer support.

If these solutions do not resolve the issue, please contact Blitzshark customer support for further assistance.
