

Sanitaire SC5713D

Sanitaire Force Upright Commercial Vacuum SC5713D User Manual

Model: SC5713D | Brand: Sanitaire

1. INTRODUCTION AND OVERVIEW

The Sanitaire Force Upright Commercial Vacuum SC5713D is engineered for exceptional cleaning performance in commercial environments. This powerful upright vacuum is certified with the CRI Bronze Seal of Approval, ensuring high efficiency and cost savings. Its QuietClean technology allows for low sound levels, making it suitable for daytime cleaning and LEED qualified. Designed for durability and ease of use, it features a large-capacity disposable bag, a washable HEPA filter, and versatile on-board tools for comprehensive cleaning.

2. SETUP AND ASSEMBLY

Your Sanitaire Force vacuum requires minimal assembly to get started. Follow these steps:

1. **Handle Assembly:** Insert the handle into the main vacuum body. Secure it with the provided screws or bolts. The handle is designed for a solid and durable connection.
2. **Bag Installation:** Open the front cover of the vacuum to access the bag compartment. Insert the 4.5-quart disposable bag, ensuring it is properly seated. Close the cover securely.
3. **Hose and Tool Attachment:** Attach the flexible hose to the designated port on the vacuum. The hose is made of durable, substantial plastic. Store the two-piece wand, crevice tool, and dusting brush on the integrated holders for easy access.
4. **Power Cord Connection:** Connect the 40-foot detachable power cord to the vacuum's power input. Ensure

the connection is secure. The cord is a two-prong design and does not require a grounding cord.

Video 1: Detailed overview of the Sanitaire Force vacuum, including assembly of the handle, inspection of the durable hose and attachments, and demonstration of the 40-foot detachable power cord. The video also shows the bag compartment and the quiet operation of the vacuum.

3. OPERATING INSTRUCTIONS

Operating your Sanitaire Force vacuum is straightforward. Follow these guidelines for optimal cleaning:

1. **Power On/Off:** Locate the power switch on the side of the vacuum. Press to turn the unit on or off.
2. **Carpet Height Adjustment:** The vacuum features multiple carpet height settings (Low Carpet to High Carpet) to accommodate various carpet pile heights. To adjust, ensure the vacuum is in the operating position (handle lowered) to activate the detents. Rotate the red lever on the front of the powerhead to select the appropriate height.
3. **Using the Hose and Attachments:** For above-floor cleaning or hard-to-reach areas, detach the hose from its storage position. Connect the desired attachment (two-piece wand, crevice tool, or dusting brush) to the end of the hose. The hose is designed to be robust and flexible.
4. **Suction Power:** The Sanitaire Force provides strong suction power for deep cleaning. You can test the suction by placing your hand over the hose opening; it should create a noticeable pull.

Video 2: This video provides a point of view on the Sanitaire Force Commercial Vacuum, highlighting its strong suction, quiet operation, and adjustable carpet height settings. It also demonstrates the easy removal of the dustbin and the convenient storage of accessories.

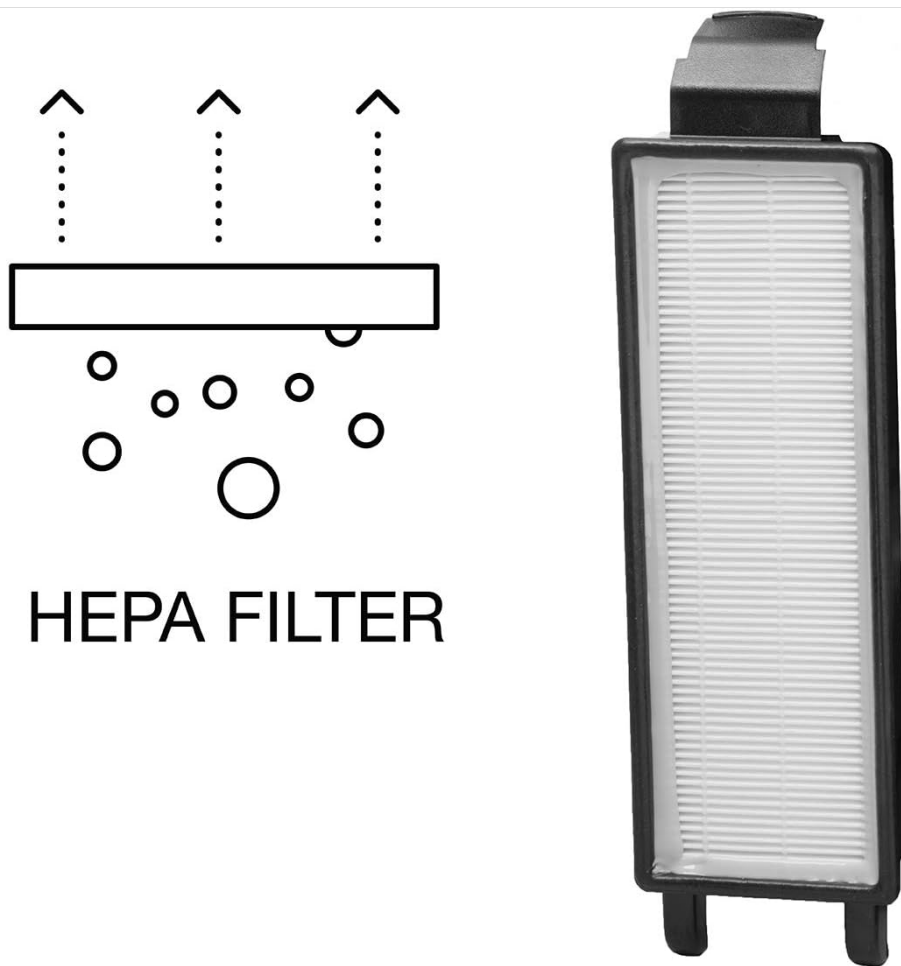

Figure 5: The vacuum comes with convenient on-board tools for versatile cleaning.

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Sanitaire Force vacuum.

1. **Bag Replacement:** The vacuum uses a 4.5-quart disposable bag. Replace the bag when it is full to maintain suction power and prevent motor strain. Refer to the bag compartment for specific replacement instructions.
2. **HEPA Filter Cleaning:** The exhaust features a washable HEPA filter. Periodically remove and clean the filter by hand with water. Allow it to air dry completely before reinserting. This maintains superior air filtration.
3. **Brush Roll Inspection:** Regularly check the brush roll for tangled hair, strings, or debris. Clear any obstructions to ensure effective agitation and cleaning.
4. **Cord Inspection:** Inspect the 40-foot power cord for any signs of damage, fraying, or cuts. The detachable design allows for easy replacement if necessary.

WASHABLE HEPA FILTER

Figure 6: The vacuum is equipped with a washable HEPA filter for improved air quality.

5. TROUBLESHOOTING

If you encounter issues with your Sanitaire Force vacuum, refer to the following common troubleshooting tips:

- **Loss of Suction:**

- Check if the disposable bag is full and needs replacement.
- Inspect the hose for clogs or blockages.
- Ensure the HEPA filter is clean and properly installed.
- Verify that the hose is securely attached to the vacuum.

- **Vacuum Not Turning On:**

- Ensure the power cord is securely plugged into a working outlet.
- Check the power switch for proper engagement.

- Inspect the power cord for any visible damage.

- **Unusual Noises or Burning Smell:**

- Immediately turn off and unplug the vacuum.
- Check the brush roll for any obstructions that might be causing strain on the motor.
- Inspect the belt for damage or misalignment.
- If the issue persists, contact customer support.

- **Poor Carpet Cleaning:**

- Adjust the carpet height setting to match your carpet pile.
- Ensure the brush roll is spinning freely and is not obstructed.
