### MAINTENANCE

#### Cleaning Your Device

To clean your Motorola Edge 2023, use a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or compressed air, as these can damage the screen or finish.

#### Water and Dust Resistance

The Motorola Edge 2023 is rated IP68 for dust and water resistance. This means it can withstand immersion in up to 1.5 meters of fresh water for up to 30 minutes. While designed to be resistant, it is not waterproof. Avoid intentional submersion, exposure to pressurized water, or liquids other than fresh water. If the device gets wet, dry it thoroughly before charging or use.

## TROUBLESHOOTING

- **Device Not Responding:** If your device is frozen or unresponsive, press and hold the Power button for about 10-15 seconds to force a restart.
- **Battery Draining Quickly:** Check for apps running in the background, reduce screen brightness, or disable unnecessary features like GPS or Bluetooth when not in use.
- **Connectivity Issues:** For Wi-Fi or cellular network problems, try toggling Airplane Mode on and off. If the issue persists, restart your device or contact your carrier.
- **Camera Not Working:** Ensure the camera app has necessary permissions. Clear the camera app's cache and data, or restart the phone.

For further assistance, refer to the official Motorola support website or contact customer service.
