

Anker A91C5

Anker MagGo Magnetic Charging Station (Model A91C5) User Manual

Qi2 Certified 15W Ultra-Fast Wireless Charger with 8-in-1 Power Strip

1. PRODUCT OVERVIEW

The Anker MagGo Magnetic Charging Station (Model A91C5) is a versatile 8-in-1 power solution designed to efficiently charge multiple devices simultaneously. It features Qi2 certified 15W ultra-fast magnetic wireless charging, three AC outlets, two USB-C ports, and two USB-A ports, all integrated into a compact, desktop-friendly design.

3. SETUP INSTRUCTIONS

1. **Connect to Power:** Plug the power cable into the designated port on the back of the Anker MagGo Charging Station, then connect it to a wall outlet. The flat head plug design allows for placement behind furniture.
2. **Position the Station:** Place the charging station on a flat, stable surface. Its compact design is ideal for desktops or nightstands.
3. **Magnetic Wireless Charging:** For Qi2 certified 15W wireless charging, simply place your compatible iPhone (12 series or newer) onto the magnetic pad on top of the station. Ensure proper alignment for optimal charging.
4. **Wired Charging:** Utilize the three AC outlets for larger devices, and the two USB-C or two USB-A ports for other electronic devices such as laptops, tablets, or other smartphones.

Neat and Nifty

4. OPERATING INSTRUCTIONS

4.1 Wireless Charging

The top magnetic pad provides 15W ultra-fast wireless charging for Qi2-compatible devices, such as iPhone 12 series and newer models. The magnetic connection ensures secure placement and efficient power transfer.

4.2 Wired Charging Ports

- **AC Outlets (3):** Standard 3-prong outlets for devices requiring AC power.
- **USB-C Ports (2):** These ports offer up to 67W full-speed charging when used individually, capable of boosting a MacBook Air's battery to 50% in approximately 26 minutes.
- **USB-A Ports (2):** These ports provide 12W charging for a wide range of USB-compatible devices.

4.3 Intelligent Power Distribution

The charging station intelligently adjusts power output to match your connected devices, ensuring optimal charging speeds and safety. The total wattage is distributed dynamically across all active ports.

Image: A diagram illustrating how power is distributed among the USB-C and USB-A ports when the magnetic pad is in use, showing varying wattage outputs.

Official Qi2 Certification	ActiveShield 2.0 Monitors Temperature 3,000,000+ Times Per Day

5. MAINTENANCE

To ensure optimal performance and longevity of your Anker MagGo Magnetic Charging Station, follow these maintenance guidelines:

- **Cleaning:** Disconnect the device from power before cleaning. Use a soft, dry cloth to wipe the exterior. Avoid liquid cleaners or abrasive materials.
- **Storage:** Store the charging station in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Management:** Ensure cables are not excessively bent or tangled to prevent damage.

6. TROUBLESHOOTING

If you encounter issues with your Anker MagGo Magnetic Charging Station, consider the following:

- **Device Not Charging:** Ensure the charging station is properly plugged into a live wall outlet. Check that your device is correctly aligned on the magnetic pad or securely connected to a USB port.
- **Slow Charging:** Verify that your device supports the charging speed provided by the port. If multiple devices are connected, the power output may be distributed, potentially reducing individual port speeds. Refer to the power distribution diagrams in Section 4.3.
- **Magnetic Connection Issues:** Remove any thick cases or metallic objects from your phone that might interfere with the magnetic connection.
- **Overheating:** The station features ActiveShield 2.0 technology for temperature monitoring. If the device feels excessively hot, disconnect it from power and allow it to cool down.

For further assistance, please contact Anker customer service.

7. SPECIFICATIONS

Feature	Detail
Brand	Anker
Model Number	A91C5
Wireless Charging Standard	Qi2 Certified (15W)
AC Outlets	3
USB-C Ports	2 (up to 67W individual output)
USB-A Ports	2 (12W output)
Total USB Ports	4
Input Voltage	125 Volts
Frequency Range	60 Hz
Safety Features	Qi2 Certification, ActiveShield 2.0, Surge Protection

Dimensions	Compact, comparable to a HomePod Mini (4.33-inch wide)
Material	Metal, Plastic
Item Weight	1.3 Pounds
UPC	194644149666

8. WARRANTY AND SUPPORT

Anker provides a **24-month warranty** for the MagGo Magnetic Charging Station. Additionally, it includes **alifetime* \$200,000 connected equipment warranty**. For the purpose of this connected equipment warranty, "lifetime" is defined as the lifetime of the product.

For customer service, technical support, or warranty claims, please visit the official Anker support website or contact their customer service team directly. Refer to the welcome guide included in your package for specific contact details.

**Please refer to the full warranty terms and conditions provided with your product for complete details.*
