Coolfiqu LP-2113

Coolfiqu 5.2L Cool & Warm Mist Humidifier Instruction Manual

Model: LP-2113

INTRODUCTION

Thank you for choosing the Coolfiqu 5.2L Cool & Warm Mist Humidifier, Model LP-2113. This manual provides important information regarding the setup, operation, maintenance, and troubleshooting of your new humidifier. Please read it thoroughly before use and retain it for future reference.

This humidifier is designed to improve air quality and comfort in your home or office by adding moisture to the air. It features a large 5.2-liter capacity, both cool and warm mist options, an essential oil diffuser, and a convenient top-fill design.

SETUP INSTRUCTIONS

Follow these steps to set up your humidifier for first use:

1. **Unpack the Humidifier:** Carefully remove all components from the packaging.
2. **Remove Protective Materials:**
Locate and tear off any protective tape from the humidifier unit. Remove the foam packaging from the base of the humidifier.

Installation Steps for Warm and Cool Mist Humidifiers

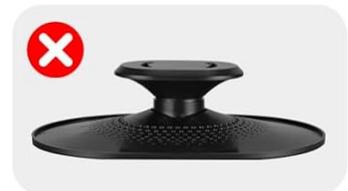

① Tear off the tape

② Remove foam from the base

Align the nozzle cap with the humidifier cup lid, and then press them to assemble

Nozzle cap aligned with opposite side of humidifier cup lid

After that, place the assembled cup lid on the water tank

Wrong way of assembly

4. **Place Assembled Lid:** After assembling, place the lid onto the water tank.

5. **Install Filters and Purification Device:**

Ensure the filtering component (for impurities) and the water purification device (to inhibit bacterial growth) are correctly placed in the top water tank. Refer to the diagram for proper placement.

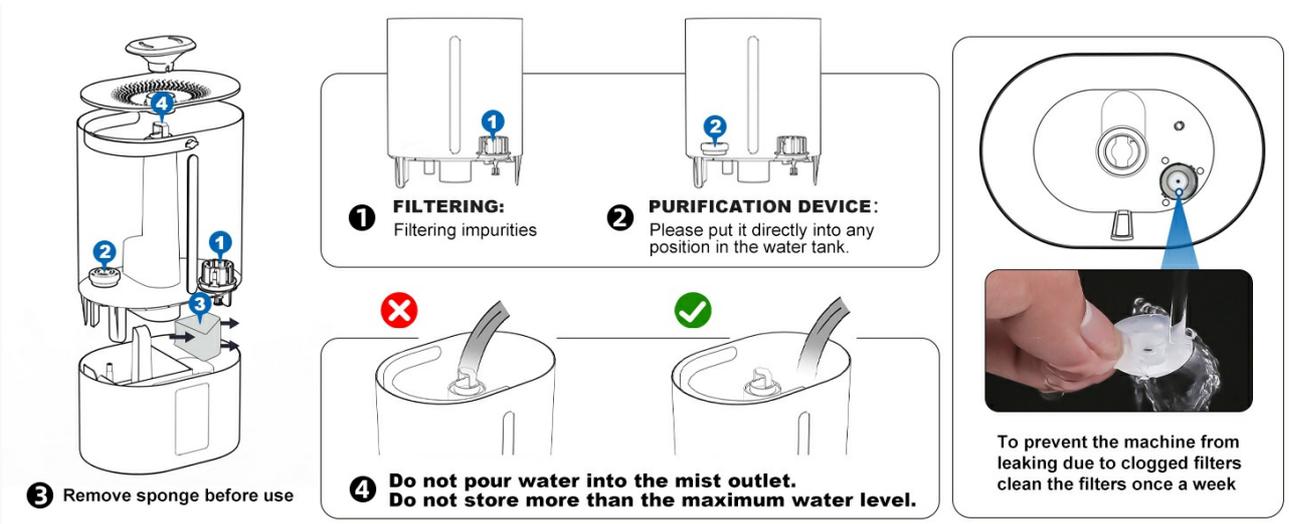

Image: Detailed view of the top water tank components, including the filter and water purification device.

6. Fill the Water Tank:

Open the top lid and pour clean, cool tap water directly into the water tank. Do not exceed the maximum water level indicated on the tank. Do not pour water into the mist outlet.

7. Connect Power: Plug the power cord into a suitable electrical outlet.

OPERATING INSTRUCTIONS

Your Coolfiqu humidifier offers various features for optimal comfort:

- **Power On/Off:** Press the power button on the control panel to turn the humidifier on or off.
- **Mist Mode Selection (Cool/Warm):** Use the dedicated button on the control panel to switch between cool mist and warm mist modes.
- **Adjust Mist Level:** Adjust the mist output intensity using the control panel buttons. The 360° rotatable nozzle allows you to direct the mist as desired.
- **Sleep Mode:** Activate sleep mode for quiet operation and dimmed display lights, ideal for nighttime use. The humidifier operates at approximately 28 dB in this mode.
- **Essential Oil Diffuser:**

Locate the essential oil tray, typically a small compartment separate from the water tank. Add a few drops of your preferred essential oil to the pad in this tray. Do not add essential oils directly into the water tank.

MAINTENANCE

Regular cleaning and maintenance ensure optimal performance and longevity of your humidifier:

- **Daily Cleaning:**

Empty and rinse the water tank and base daily. Wipe down all surfaces with a clean cloth. Allow to air dry before refilling.

- **Weekly Cleaning (Filters and Nebulizer):**

To prevent issues like reduced mist output or leaking due to clogged filters, clean the water filters once a week. Use a soft brush to gently wipe the nebulizer tablets in the lower base to prevent damage to the atomization function.

• Descaling:

If mineral deposits accumulate, fill the base with a mixture of equal parts white vinegar and water. Let it soak for 30 minutes, then scrub with a soft brush and rinse thoroughly. Do not immerse the electrical components in water.

- **Storage:**

When not in use for an extended period, clean and dry the humidifier completely. Store it in a cool, dry place.
