Ceeniu CF8 Car Aroma Diffuser Refill: Sandalwood Cologne Scent User Manual

Model: CF8 | Brand: Ceeniu

INTRODUCTION

Thank you for choosing the Ceeniu CF8 Car Aroma Diffuser Refill in Sandalwood Cologne scent. This refill is designed to provide a long-lasting, natural fragrance experience for your vehicle when used with the Ceeniu CF8 Car Aroma Diffuser. This manual provides essential information for the proper use, maintenance, and troubleshooting of your refill.

KEY FEATURES

- **Sandalwood Cologne Scent:** A refreshing woody aroma with top notes of Mint Coriander, middle notes of Iris Juniper, and base notes of Ambergis Cedar.
- **Long-lasting Fragrance:** Each refill provides approximately 1200 sprays, designed for extended use.
- **Natural Ingredients:** Made with 100% pure natural ingredients sourced from Robertet, France, and certified non-toxic by SGS.
- **6X Concentrated Formula:** Rich in active ingredients for a potent and enduring scent experience.
- **Efficient Usage:** Offers up to 6000 minutes in strong mode or 8400 minutes in weak mode, ensuring prolonged freshness.

To install the Ceeniu CF8 Car Aroma Diffuser Refill, follow these steps:

1. Ensure your Ceeniu CF8 Car Aroma Diffuser unit is turned off and disconnected from any power source.
2. Locate the refill compartment on your diffuser unit. This is typically accessed by twisting or lifting a cover.
3. Carefully remove the old aroma box, if present.
4. Unpack your new Ceeniu CF8 Sandalwood Cologne refill.
5. Insert the new refill into the compartment, ensuring it is seated correctly and securely.
6. Close the refill compartment cover.
7. Reconnect your diffuser unit to its power source and turn it on.

Important: A yellow light on the diffuser unit may indicate an abnormal installation or an exhausted aroma box. If you encounter a yellow light after installing a new refill, re-check the installation to ensure the refill is properly seated.

OPERATING INSTRUCTIONS

The Ceeniu CF8 Car Aroma Diffuser, when equipped with this refill, operates intelligently to enhance your driving experience:

- **Automatic Activation:** The diffuser features a movement sensor. It will automatically begin its fragrance diffusion process when it detects movement, typically when the car is in operation.
- **Diffusion Cycle:** The diffuser releases fragrance every 5 to 7 minutes, ensuring a consistent and pleasant aroma in your car.
- **Scent Modes:** The diffuser offers two modes for scent intensity:
 - **Strong Mode:** Provides approximately 6000 minutes of fragrance.
 - **Weak Mode:** Provides approximately 8400 minutes of fragrance.

Refer to your main diffuser unit's manual for instructions on how to switch between these modes.

- **Night Glow:** The diffuser unit glows blue at night, adding to the ambiance of your car's interior.

MAINTENANCE

The Ceeniu CF8 Car Aroma Diffuser Refill requires minimal maintenance. To ensure optimal performance and longevity:

- Replace the refill when the fragrance diminishes or when indicated by a yellow light on your diffuser unit.
- Store unused refills in a cool, dry place away from direct sunlight to preserve their scent quality.
- Keep the refill and diffuser unit clean by wiping them with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

TROUBLESHOOTING

If you experience issues with your Ceeniu CF8 Car Aroma Diffuser Refill or the diffuser unit, consider the following:

- **No Fragrance or Weak Scent:**
 - Check if the refill is empty. A yellow light on the diffuser unit often indicates an exhausted aroma box.
 - Ensure the refill is correctly installed and seated firmly in the diffuser unit.
 - Verify the diffuser unit is powered on and functioning.
 - Adjust the scent intensity mode on your diffuser unit to a stronger setting if desired.
- **Yellow Light Indication:**
 - A yellow light typically signals an abnormal installation of the aroma box or that the current aroma box is exhausted.

- Remove and re-insert the refill to ensure proper seating.
- If the light persists after re-installation, replace the refill with a new one.

- **Diffuser Not Activating:**

- Ensure the diffuser unit is fully charged or connected to a power source.
- Confirm that the diffuser unit is turned on.
- Verify that the car is in motion or that sufficient movement is detected for the sensor to activate.

If these steps do not resolve the issue, please refer to the warranty and support section for further assistance.
