TROUBLESHOOTING

Common Issues and Solutions

Watch Not Turning On

Ensure the watch is fully charged. If the issue persists, try a soft reset by pressing and holding the side button for 10-15 seconds.

Connection Issues

- Verify Bluetooth is enabled on your smartphone and the watch is within range.
- Restart both your smartphone and the smartwatch.
- Re-pair the watch through the companion application.

Inaccurate Health Readings

Ensure the watch is worn snugly on your wrist, not too tight or too loose. Avoid excessive movement during measurements. Remember, these readings are for general wellness and not medical diagnosis.

Display Not Responding

Try restarting the watch. If the screen remains unresponsive, contact customer support.
