IFB DIVA AQUA GBS 6010

IFB 6 Kg 5 Star AI Powered Front Load Washing Machine DIVA AQUA GBS 6010 Instruction Manual

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your new IFB 6 Kg 5 Star AI Powered Front Load Washing Machine, model DIVA AQUA GBS 6010. Please read these instructions carefully before using the appliance and retain them for future reference.

2. SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons. This appliance is intended for household use only.

- Ensure the washing machine is properly earthed.
- Do not allow children to play on or in the appliance.
- Keep packaging materials out of reach of children.
- Do not operate the machine if the power cord or plug is damaged.
- Never force the door open during operation.
- Unplug the appliance before cleaning or performing maintenance.

3. SETUP AND INSTALLATION

3.1 Unpacking

Carefully remove all packaging materials. It is crucial to remove the transit bolts located at the rear of the machine before operation. Failure to do so can cause severe damage to the appliance.

3.2 Location

Place the washing machine on a firm, level surface. Avoid direct sunlight, excessive moisture, or extreme temperatures. Ensure adequate ventilation around the appliance.

3.3 Water Connection

Connect the inlet pipe to a cold water tap with a 3/4-inch thread. Ensure all connections are tight to prevent leaks. Position the drain hose correctly to allow for proper water drainage. Note that a rigid bend for the drain hose may not be included and might need to be sourced separately for optimal placement in a wash basin.

3.4 Electrical Connection

Connect the power cord to a properly earthed electrical outlet. The machine operates on 220 Volts. Do not use extension cords or adapters.

3.5 Leveling

Adjust the leveling feet at the bottom of the machine to ensure it is perfectly stable and level. An unbalanced machine can cause excessive vibration and noise during operation.

POWERED BY

Smart Motion, Lasting Care

A neural network-based algorithm detects fabric type and weight. It then optimises the wash-duration, water level, wash action and the level of gentleness needed.

4. OPERATING INSTRUCTIONS

4.1 Control Panel Overview

The IFB DIVA AQUA GBS 6010 features a user-friendly control panel with a central knob for program selection and various buttons for additional functions. Refer to the diagram on your machine for specific button layouts.

Built to Last

Close-up of the control panel, highlighting features like Laundry Add, Time Saver, and Auto Diagnosis.

4.2 Loading Laundry

Open the door and load clothes loosely into the drum. Do not overload the machine; the maximum capacity is 6 Kg. Ensure no items are caught in the door seal before closing.

4.3 Detergent and Fabric Softener

Add the appropriate amount of detergent to the main wash compartment and fabric softener to its designated compartment in the dispenser drawer. Consult your detergent packaging for recommended dosages.

4.4 Selecting a Wash Program

Turn the program selection knob to choose from the available wash cycles. The machine offers 8 wash programs, including:

- Mixed/Daily
- Cotton Normal
- Cradle Wash For Delicates
- Woollens
- Cotton Eco Plus

- Express Wash/ Express 15
- Rinse+Spin
- Spin Dry/Drain

4.5 Special Features

- **AI Powered:** A neural network-based algorithm detects fabric type and weight, optimizing wash duration, water level, wash actions, and gentleness.

- **Inbuilt Heater:** Allows for hot, warm, or cold water washes, with temperature options up to 95°C for germ removal.
- **Laundry Add:** Allows you to pause the cycle and add forgotten laundry at the beginning of the wash cycle.
- **Quick Express Wash:** Ideal for lightly soiled clothes, saving time and energy.

4.6 Starting a Cycle

After selecting your desired program and options, press the Start/Pause button to begin the wash cycle.

4.7 Pausing/Canceling a Cycle

Press the Start/Pause button to temporarily stop a cycle. To cancel a cycle, press and hold the Start/Pause button for a few seconds, or refer to the specific instructions on your control panel.

5. MAINTENANCE

5.1 Cleaning the Exterior

Wipe the exterior of the machine with a soft, damp cloth. Avoid abrasive cleaners or solvents.

5.2 Cleaning the Drum (Auto Tub Clean)

The machine features an Auto Tub Clean function. After approximately 40 wash cycles, the machine will remind you to run the Tub Clean program to maintain hygiene and prevent odor buildup.

5.3 Cleaning the Detergent Dispenser

Regularly remove and clean the detergent dispenser drawer to prevent residue buildup. Rinse it under running water and dry before reinserting.

5.4 Cleaning the Filter

Periodically check and clean the drain pump filter, usually located at the bottom front of the machine. This helps prevent blockages and ensures efficient drainage.

5.5 Care During Non-Use

If the machine will not be used for an extended period, unplug it, turn off the water supply, and leave the door slightly ajar to allow air circulation and prevent odors.

6. TROUBLESHOOTING

This section addresses common issues you might encounter. For more complex problems, contact customer support.

- **Machine not starting:** Check power supply, door closure, and water inlet.
- **Excessive vibration/noise:** Ensure the machine is level and transit bolts are removed.
- **Water not draining:** Check drain hose for kinks and clean the drain pump filter.
- **Error codes:** The machine features Self Diagnosis. If an error code appears on the display, consult the specific error code section in the full user manual or contact service.
- **Unbalanced load:** The machine has Auto Imbalance Control to redistribute laundry. If an imbalance persists, manually adjust the load.
- **Power fluctuations:** High-Low Voltage Protection helps safeguard the machine. Auto Restart will resume the cycle after a power interruption.
- **Excessive foam:** Foam Detection helps manage detergent levels. Reduce detergent quantity if excessive foam is observed.

7. SPECIFICATIONS

Feature	Specification
Model	DIVA AQUA GBS 6010
Capacity	6 Kilograms
Energy Efficiency	5 Star BEE Rating
Maximum Rotational Speed	1000 RPM
Noise Level	42 Decibels
Item Weight	65 kg

Feature	Specification
Product Dimensions (DxWxH)	51.3 x 59.8 x 87.5 Centimeters
Material	Stainless Steel (Drum)
Voltage	220 Volts
Control Type	Knob
Included Components	1 Washing Machine Unit, User Manual, Warranty Card

8. WARRANTY AND SUPPORT

Your IFB DIVA AQUA GBS 6010 washing machine comes with comprehensive warranty coverage:

- **4 Years Machine Warranty**
- **10 Years Motor Warranty**
- **10 Years Spares Support**

Information on the 4-year machine warranty, 10-year motor warranty, and 10-year spares support.

For service requests, technical assistance, or to inquire about spare parts, please contact IFB customer support. Refer to the warranty card included with your product for specific contact details and terms and conditions.
