Atyhao Soybean Milk Machine User Manual

Model: Atyhao3uhifed601-12

INTRODUCTION

Thank you for choosing the Atyhao Portable Automatic Soybean Milk Machine. This appliance is designed to simplify the preparation of various beverages and foods, including soybean milk, juices, purees, and congee. Its compact size and automatic functions make it ideal for small households and daily use. Please read this manual thoroughly before operating the machine to ensure safe and efficient use.

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, basic safety precautions should always be followed, including:

- Read all instructions before using the appliance.
- Do not immerse the main unit, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Exercise extreme caution when moving an appliance containing hot oil or other hot liquids.
- The appliance is for household use only.

PRODUCT OVERVIEW

Components Included:

- Soybean Milk Machine (Main Unit)
- Cleaning Brush
- Measuring Glass
- Power Cord (US Plug)
- User Manual (This document)

Figure 1: The Atyhao Soybean Milk Machine shown alongside its essential accessories: the power cord, a small cleaning brush, and a measuring glass, all designed to facilitate easy use and maintenance.

Key Features:

- **No Filtration Required:** Automatically processes ingredients without the need for filter bags, producing smooth beverages.
- **Multipurpose Functionality:** Capable of making soybean milk, juice, puree, congee, and boiling water. Suitable for

cereals, nuts, seeds, and fruits.

- **Efficient Automatic Operation:** Simply add pre-soaked ingredients and water, then press the start button.
- **Food Grade Material:** Constructed with a 304 stainless steel inner liner for safety and durability.
- **Compact and Portable:** Designed for small households with a 350ml capacity, suitable for 1-2 people.
- **Easy to Clean:** One-piece design simplifies the cleaning process.

Figure 3: This image illustrates the compact dimensions of the Atyhao Soybean Milk Machine, with a height of 200mm (approximately 7.8 inches) and a width of 110mm (approximately 4.3 inches), emphasizing its space-saving design.

One Piece Design Easy to clean

350ML Capacity
Satisfy 1-2 people

Figure 4: The machine is shown on a table with two servings of soy milk, demonstrating its 350ml capacity, which is ideal for 1-2 users. The image also highlights its seamless, one-piece design for easy handling and cleaning.

SETUP

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Initial Cleaning:** Before first use, clean the inner stainless steel liner and lid with warm soapy water. Rinse thoroughly and dry. Use the provided cleaning brush for hard-to-reach areas.
3. **Placement:** Place the machine on a stable, flat, and dry surface, away from heat sources and direct sunlight. Ensure there is adequate ventilation around the unit.
4. **Power Connection:** Connect the power cord to the machine's power inlet, then plug the other end into a standard 110V US electrical outlet.

OPERATING INSTRUCTIONS

The Atyhao Soybean Milk Machine features a simple control panel with dedicated functions. Always ensure the machine is properly assembled and plugged in before operation.

Figure 5: This image shows the machine ready for operation, with a glass of milk and a bowl of soybeans nearby, visually representing the simple step of adding pre-soaked nuts, seeds, or grains and water before starting the process.

General Operation Steps:

1. **Prepare Ingredients:** Measure your desired ingredients (e.g., pre-soaked soybeans, nuts, fruits) using the provided measuring glass.
2. **Add Ingredients and Water:** Open the lid and carefully place the ingredients into the stainless steel inner liner. Add water up to the indicated maximum fill line (350ml capacity). The clear scale inside helps control the amount of water.
3. **Secure Lid:** Close the lid firmly.
4. **Select Function:** Press the desired function button on the control panel (e.g., "Soy Milk", "Juice", "Puree", "Congee", "Boil water"). The machine will typically indicate selection with a light or sound.

5. **Start Process:** Press the "Start" button (often represented by a play triangle symbol) to begin the automatic process.
6. **Completion:** The machine will automatically stop when the process is complete. Unplug the machine before carefully pouring out the contents.

Specific Functions:

- **Soy Milk:** Ideal for making fresh soybean milk from pre-soaked soybeans. The machine grinds and heats the mixture to produce smooth, ready-to-drink soy milk without the need for straining.

No need for filter bags
Make delicious milk from grains, seeds, soy and nuts
Easy to make at home, clean and healthy

Figure 6: This image highlights the machine's ability to produce delicious milk from grains, seeds, soy, and nuts without the need for filter bags, ensuring a clean and healthy beverage.

- **Juice:** For blending fruits and vegetables into fresh juices. Ensure ingredients are cut into small pieces.
- **Puree:** Suitable for making smooth purees from cooked vegetables or fruits, ideal for baby food or sauces.
- **Congee:** Prepares congee (rice porridge) by cooking and blending rice with water.
- **Boil Water:** Heats water to boiling point. Use this function for hot water needs.

Multifunctional Soy Milk Maker

Can be used in cereals, cooking, baking, coffee, tea, lattes, protein shakes
Or enjoy a delicious drink

Figure 7: The machine is depicted amidst a variety of prepared items, including a cocktail, a glass of juice, and a cup of tea, illustrating its versatility for making cereals, coffee, lattes, protein shakes, and other delicious drinks.

MAINTENANCE AND CLEANING

Regular cleaning and maintenance will prolong the life of your Atyhao Soybean Milk Machine and ensure optimal performance.

1. **Immediate Cleaning:** After each use, unplug the machine and allow it to cool down. Rinse the inner liner and lid immediately to prevent food residue from drying and sticking.
2. **Washing:** Use warm soapy water and the provided cleaning brush to thoroughly clean the stainless steel inner liner and the underside of the lid. Pay attention to the blade area.
3. **Exterior Cleaning:** Wipe the exterior of the machine with a damp cloth. Do not immerse the main unit in water.
4. **Drying:** Ensure all parts are completely dry before storing the machine.
5. **Storage:** Store the machine in a cool, dry place, away from direct sunlight and out of reach of children.

Note: The machine has a "Clean" function on its control panel. This function can be used for preliminary rinsing or light cleaning. Add a small amount of water and select the "Clean" function to assist in loosening residue before manual cleaning.

TROUBLESHOOTING

If you encounter any issues with your Atyhao Soybean Milk Machine, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outlet malfunction; power cord damaged.	Ensure power cord is securely plugged into both the machine and a working 110V outlet. Check the outlet with another appliance. If cord is damaged, contact support.
Machine stops unexpectedly during operation.	Overheating; insufficient water; lid not properly closed.	Unplug and let cool for 30 minutes. Ensure water level is between min/max lines. Verify lid is securely closed.
Soy milk/juice is not smooth.	Ingredients not pre-soaked (for soy/nuts); too many ingredients; insufficient water.	Ensure soybeans/nuts are pre-soaked as recommended. Do not exceed max fill line for ingredients. Add sufficient water. Run the cycle again if needed.
Unusual noise during operation.	Foreign object inside; machine not stable; motor issue.	Unplug and check for any foreign objects. Ensure machine is on a flat, stable surface. If noise persists, contact customer support.

If the problem persists after trying these solutions, please contact Atyhao customer support.
