## Blusafe Breeze

# Blusafe Breeze Fingerprint Door Lock User Manual

Model: Breeze

## INTRODUCTION

The Blusafe Breeze Fingerprint Door Lock provides a secure and convenient keyless entry solution for internal doors. This biometric door handle allows access using your unique fingerprint, eliminating the need for traditional keys or complex codes. It is designed for ease of use and installation, suitable for various settings including homes, offices, and shared accommodations.

**BREEZE**  
FINGERPRINT INTERNAL DOOR HANDLE

Ensure privacy  
More secure  
Extremely convenient  
Unique fingerprint  
Simple to install for DIY  
Keyless fire exit  
No replacing locks for lost keys

**FEATURES**

- Up to 50
- 2 Backup
- Up to 6 months
- Micro-USB emergency

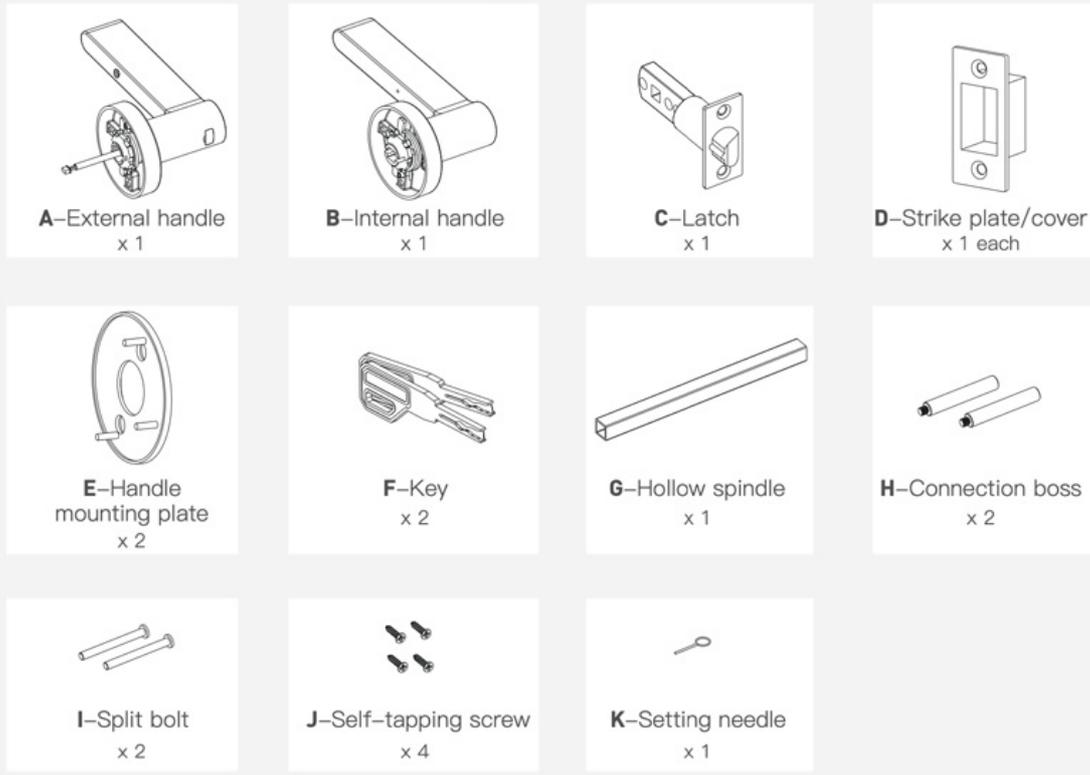

The image is a promotional graphic for the Blusafe Breeze fingerprint door handle. It features a close-up of the black door handle with a green fingerprint sensor. The background shows a bedroom with a bed and a bedside table with a lamp. The text 'BREEZE FINGERPRINT INTERNAL DOOR HANDLE' is at the top right. Below it are seven blue callout boxes listing features: 'Ensure privacy', 'More secure', 'Extremely convenient', 'Unique fingerprint', 'Simple to install for DIY', 'Keyless fire exit', and 'No replacing locks for lost keys'. At the bottom, under the heading 'FEATURES', are four icons with corresponding text: a fingerprint icon for 'Up to 50', a key icon for '2 Backup', a clock icon for 'Up to 6 months', and a battery icon for 'Micro-USB emergency'.

# Package Contents

*Image: Detailed diagram illustrating all parts included in the Blusafe Breeze Fingerprint Door Lock package.*

- External Handle (x1)
- Internal Handle (x1)
- Latch (x1)
- Strike Plate/Cover (x1 each)
- Handle Mounting Plate (x2)
- Keys (x2)
- Hollow Spindle (x1)
- Connection Boss (x2)
- Split Bolt (x2)
- Self-tapping Screw (x4)
- Setting Needle (x1)
- Installation Manual and Fitting Templates

## SETUP AND INSTALLATION

The Blusafe Breeze is designed for straightforward installation. Refer to the included fitting templates for precise measurements and drilling instructions. Ensure the door is prepared according to the template before proceeding with assembly.

1. **Prepare the Door:** Use the provided fitting templates to mark and drill necessary holes on your door.
2. **Install the Latch:** Insert the latch mechanism into the edge of the door and secure it with screws.
3. **Assemble Handles:** Connect the external and internal handles using the hollow spindle and connection bosses. Ensure the fingerprint sensor on the external handle is correctly oriented.
4. **Secure the Handles:** Attach the handle mounting plates and secure the entire assembly to the door using the split bolts and self-tapping screws.
5. **Install Batteries:** Insert 4 AAA batteries into the designated compartment in the internal handle.

6. **Test Operation:** After installation, test the mechanical operation of the handle and latch before programming fingerprints.

## Smart Security for Your Home

Breeze can be used on a plethora of internal doors to add extra security or privacy.

Maybe you need to secure your office, or even just want to ensure your bedroom is private, either way it is a great addition to ensure children can only go where you want them to!

## Styles and Colours

We designed Breeze in two different styles to suit all doors. Whether you are retro-fitting to an older door and want to cover up the holes from the previous handle, or fitting to a brand new door and looking for a modern circular design.

Both styles come in Chrome, Satin Chrome and Black colours!

## OPERATING INSTRUCTIONS

---

### Fingerprint Registration

The Blusafe Breeze allows registration of up to 50 unique fingerprints, including 3 administrator fingerprints. Refer to the detailed instructions in the physical manual for the exact steps to register fingerprints. It is recommended to register each finger from multiple angles to improve recognition accuracy.

### Unlocking the Door

- **Fingerprint Unlock:** Place a registered finger on the biometric sensor. The lock will disengage, allowing you to turn the handle and open the door.
- **Key Unlock:** In case of emergency or battery depletion, use one of the two provided mechanical backup keys to unlock the door. Insert the key into the keyhole and turn to unlock.

Your browser does not support the video tag.

## Simple and Elegant

Blusafe Breeze provides aesthetically pleasing smart door lock functionality, as well as both smart security and convenience for your internal doors.

Unlock the internal door lock via your fingerprint or use the backup key to ensure privacy is achieved across the whole house. Register up to 50 fingerprints!

## Easy To Use

Our smart internal door locks are designed to be simple but effective. It operates like any other handle from the inside of the room, but requires activation to be used from outside.

Installation is also simple and intended to be easy to install for a competent DIY'er.

## MAINTENANCE

---

### Battery Replacement

The Blusafe Breeze operates on 4 AAA batteries, providing approximately 6 months of use depending on frequency and battery quality. The lock will provide low battery warnings for about 200 uses before complete depletion. Replace batteries promptly when warnings appear.

### Emergency Power

In the event of complete battery depletion, the lock can be temporarily powered via a micro-USB port for emergency access. Fingerprint data is retained even without power. Always keep the backup mechanical keys accessible for alternative entry.

## TROUBLESHOOTING

---

#### • Fingerprint Not Recognized:

- Ensure your finger is clean and dry. Moisture or wrinkles can affect recognition.
- Try placing your finger on the sensor from different angles. It is crucial to register your fingerprints from various positions during setup.
- If recognition issues persist, re-register your fingerprint.

#### • Lock Not Responding:

- Check battery levels. If low battery warnings have been ignored, replace the AAA batteries.
- If batteries are completely depleted, use the micro-USB port for emergency power or the mechanical backup key.

#### • Handle Feels Loose:

- Check all mounting screws and bolts for tightness. Tighten if necessary.
