ZOHAN 030

ZOHAN 030 Kids Noise Cancelling Headphones Instruction Manual

Model: 030

1. Introduction

The ZOHAN 030 Kids Noise Cancelling Headphones are designed to provide effective hearing protection for children in various noisy environments. These earmuffs feature a Noise Reduction Rating (NRR) of 22dB and a Single Number Rating (SNR) of 26dB, helping to safeguard sensitive young ears from potentially harmful sound levels while maintaining awareness of important auditory cues like parental instructions.

Crafted with safety and comfort in mind, the headphones utilize durable ABS plastic frames to prevent hair from getting caught, a common issue with traditional metal designs. Their lightweight and adjustable structure ensures a comfortable fit for a wide range of ages, from toddlers to young adults. The foldable design enhances portability, making them an ideal companion for events, travel, or focused activities.

2. Product Features

- **Effective Noise Reduction:** Provides an NRR of 22dB and SNR of 26dB, significantly reducing ambient noise.

- **Hair-Friendly Design:** Constructed with ABS plastic frames to prevent hair from snagging, ensuring a safer and more comfortable experience.
- **Comfortable Fit:** Features high-density, skin-friendly ear cushions and a soft, PU cushioned headband for extended wear comfort.
- **Adjustable Headband:** Easily adjustable to fit various head sizes, suitable for children from 6 months to young adults.
- **Portable and Foldable:** Designed to fold compactly for easy storage and transport, making them ideal for travel.
- **Lightweight Construction:** Ensures the headphones are not too tight or heavy, reducing fatigue during use.

3. Setup

1. **Unpack:** Carefully remove the headphones from their packaging.
2. **Adjust Headband:** Hold the earcups and gently slide the headband up or down to adjust its length. Ensure the headband rests comfortably over the top of the head.
3. **Position Earcups:** Place the earcups over the ears, ensuring they fully cover the ears and create a snug seal around them. There should be no gaps between the ear cushions and the head.
4. **Check Fit:** The headphones should feel secure but not overly tight. A proper fit is crucial for effective noise reduction.

4. Operating Instructions

The ZOHAN 030 headphones are passive noise-cancelling earmuffs, meaning they do not require batteries or electronic components for operation. Their function is purely mechanical, relying on the design and materials to block sound.

When to Use:

- **Loud Events:** Concerts, sporting events, fireworks displays, parades.
- **Travel:** Airports, train stations, bus rides, car trips with excessive noise.
- **Concentration:** Studying, reading, or other activities requiring focus in noisy environments.
- **Sensory Sensitivity:** For children with autism or other sensory processing sensitivities who are overwhelmed by noise.

5. Maintenance

Proper care and maintenance will extend the lifespan and effectiveness of your ZOHAN 030 headphones.

- **Cleaning:** Wipe the exterior of the earcups and headband with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, fold the headphones into their compact form and store them in a clean, dry place, preferably in the included storage bag.
- **Inspection:** Periodically check the ear cushions and headband for any signs of wear, tears, or damage. Damaged components may reduce noise reduction effectiveness.
- **Avoid Extreme Conditions:** Do not expose the headphones to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

6. Troubleshooting

If you experience issues with your ZOHAN 030 headphones, consider the following:

- **Insufficient Noise Reduction:**
  - Ensure the earcups fully cover the ears and create a tight seal. Adjust the headband for a snug fit.
  - Check the ear cushions for any damage or flattening that might compromise the seal.
- **Discomfort During Wear:**
  - Adjust the headband to relieve pressure. The headphones should be comfortable for extended periods.
  - Ensure no hair or clothing is caught under the ear cushions.
- **Difficulty Folding:**
  - Gently manipulate the earcups inward towards the headband until they fold flat. Do not force the mechanism.

7. Specifications

Feature	Detail
Model	ZOHAN 030
Noise Reduction Rating (NRR)	22 dB
