Eacam QW33

Eacam Smart Sports Watch QW33 User Manual

Model: QW33 | Brand: Eacam

INTRODUCTION

This manual provides detailed instructions for the Eacam QW33 Smart Sports Watch. It covers essential information regarding product setup, operation, maintenance, and troubleshooting to ensure optimal performance and user experience. The QW33 is a versatile fitness tracker featuring a 1.28-inch high-resolution display, multiple sports modes, and IP67 water and dust resistance.

SETUP

1. Charging the Device

Before first use, fully charge your Eacam QW33 Smart Sports Watch.

- Connect the provided magnetic charging cable to the charging points on the back of the watch.
- Plug the USB end of the cable into a standard USB power adapter (5V/1A recommended) or a computer USB port.
- The watch display will indicate charging status. A full charge typically takes approximately 2 hours.

2. App Installation and Pairing

To unlock the full features of your smart watch, download and install the companion application on your smartphone.

1. Scan the QR code in the included user manual or search for the official Eacam app in your smartphone's app store (compatible with Android 5.0+ and iOS 10.0+).
2. Install and open the application. Follow the on-screen instructions to create an account or log in.
3. Enable Bluetooth on your smartphone.
4. Within the app, navigate to the device pairing section and select "Add Device" or similar.
5. Select "QW33" from the list of available devices. Confirm the pairing request on both your phone and the watch if prompted.
6. Once paired, the watch will synchronize data with your phone, including time and date.

OPERATING INSTRUCTIONS

1. Basic Navigation

The Eacam QW33 features a full touch screen and a rotatable knob for intuitive navigation.

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and notifications. Tap to select items.
- **Rotatable Knob:** Rotate the knob on the side of the watch to scroll through menus or switch watch faces without touching the screen. Press the knob to return to the previous screen or confirm a selection.

Rotatable knob

With a rotatable knob on the watch, the sport watch allows you to switch the user interface without accidentally touching the screen.

Figure 2: The rotatable knob allows for easy menu navigation.

2 menu style interfaces

Exquisite menu interface, which can be switched as you like.

Figure 3: The watch supports multiple menu styles for user preference.

2. Customizing Watch Faces

The Eacam QW33 offers over 100 customizable watch faces.

- Long-press the watch face to enter the watch face selection mode.
- Swipe left or right to browse through pre-installed watch faces.
- For more options, open the companion app on your smartphone and navigate to the "Dial Market" or "Watch Face" section to download and sync new designs.

Multiple creative dials Switch freely

100+ exquisite dials can be switched anytime and anywhere.

Connect the APP to view more dials every day.

Figure 4: Choose from over 100 creative dials to personalize your watch.

3. Sports Modes and Fitness Tracking

The watch supports multiple sports modes to track your physical activity accurately.

- Access the sports mode menu from the main interface.
- Select your desired activity (e.g., running, cycling, walking).
- The watch will begin tracking relevant metrics such as heart rate, steps, distance, and calories burned.

- End your workout by following the on-screen prompts. Data will be synchronized with the app.

Enrich your sports with adequate sports modes

Support a variety of professional sports modes, accurately monitor heart rate, record various sports data in real time, and ensure the efficient and safe completion of sports.

Figure 5: The watch supports a variety of professional sports modes.

4. Health Monitoring

The QW33 provides continuous health monitoring features.

- **Heart Rate Monitoring:** The watch intelligently monitors your heart rate 24 hours a day using an AI heart rate algorithm. View your current heart rate on the watch or detailed historical data in the app.
- **Sleep Monitoring:** Wear the watch to bed to track your sleep patterns, including deep sleep, light sleep, and awake times. Analyze your sleep quality in the companion app.

Intelligent Care

Adopting AI heart rate algorithm, intelligently monitoring heart rate for 24 hours a day.

Figure 6: The watch features an intelligent heart rate monitoring system.

5. Bluetooth Calls and Notifications

Once paired with your smartphone, the watch allows for convenient communication.

- **Making Calls:** You can make and receive phone calls directly from your watch using its built-in high-definition speakers and microphone. Access the dial pad or contact list on the watch.
- **Receiving Notifications:** The watch will display notifications for incoming calls, messages, and app alerts from your paired smartphone.

Making phone calls as you want

You can make phone calls directly on your watch, communicate with each other anytime and anywhere, and experience the convenient life brought by smart wear

Figure 7: Make and receive phone calls directly from your watch.

6. Additional Features

- **Weather Forecast:** View real-time weather updates and future forecasts directly on your watch.
- **NFC Access Control & QR Code Payment:** The watch supports NFC for access control and quick response code payment after linking your payment account (without internet connection).

Weather Forecast

Help to monitor the weather in future days

MAINTENANCE

1. Water and Dust Resistance (IP67)

The Eacam QW33 Smart Sports Watch is rated IP67 for water and dust resistance. This means it is protected against dust ingress and can withstand immersion in water up to 1 meter for 30 minutes.

- It is suitable for daily use, such as hand washing, rain, and accidental splashes.
- Avoid prolonged immersion, hot water, steam, or high-pressure water jets.
- Do not operate the watch buttons or touch the screen while submerged in water.
- After contact with water, wipe the watch dry with a soft cloth.

IP67 Waterproof

Efficient to prevent from rain and sweat which guarantees you the high-level of waterproof-resistance.

Figure 9: The watch is designed with IP67 water resistance.

2. Cleaning and Care

- Regularly clean the watch and strap with a soft, dry cloth.
- If necessary, use a slightly damp cloth with mild soap, then wipe dry.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the watch's finish and seals.
- Keep the charging contacts clean and free of debris to ensure proper charging.

TROUBLESHOOTING

If you encounter issues with your Eacam QW33 Smart Sports Watch, refer to the following common solutions.

Problem	Possible Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes. If it still doesn't turn on, perform a hard reset by pressing and holding the side button for 10-15 seconds.

Problem	Possible Solution
Cannot pair with smartphone.	<p>Ensure Bluetooth is enabled on your phone and the watch.</p> <p>Make sure the watch is within the Bluetooth range of your phone.</p> <p>Restart both the watch and your smartphone.</p> <p>Clear the Bluetooth cache on your phone or "forget" the device in your phone's Bluetooth settings, then try pairing again.</p> <p>Ensure the companion app is updated to the latest version.</p>
Inaccurate health data (e.g., heart rate).	Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Clean the sensor on the back of the watch. Avoid excessive movement during measurements.
Notifications not appearing.	<p>Check notification permissions for the app in your phone's settings.</p> <p>Ensure the watch is connected via Bluetooth.</p> <p>Verify that notification alerts are enabled within the watch's settings and the companion app.</p>
