Maintenance

To ensure the longevity and appearance of your MISTBUY tank models, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust and debris. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled models and any unbuilt pieces in a cool, dry place away from direct sunlight to prevent discoloration or warping. Keep small parts in a sealed container to avoid loss.
- **Handling:** Handle the models with care, especially when moving or playing, to prevent pieces from detaching.

Troubleshooting

If you encounter any issues during assembly or play, refer to the following common solutions:

- **Missing Pieces:** If you find any pieces missing, carefully re-check all packaging and sorting areas. If pieces are still missing, please contact MISTBUY customer support for assistance.
- **Difficulty with Instructions:** Some steps in the instruction manual may require close attention. Review the diagrams carefully and ensure all pieces are oriented correctly. Online communities or video tutorials may also offer additional visual guidance.
- **Parts Not Staying Together:** Ensure that all connecting studs are fully engaged. If a piece consistently detaches, check for any deformities in the piece itself.
- **Tracks Not Rolling Smoothly:** Verify that the track links are correctly assembled and not obstructed by other parts of the tank body. Ensure no small debris is caught in the track mechanism.
