NUSVAN 5040W

NUSVAN Vanity Mirror with Lights User Manual

Model: 5040W

1. INTRODUCTION

Thank you for choosing the NUSVAN Vanity Mirror with Lights. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new mirror. Please read this manual thoroughly before use and retain it for future reference.

Product Overview

The NUSVAN Vanity Mirror is designed to provide optimal lighting for makeup application and grooming. It features dimmable LED bulbs, three color lighting modes, a touch control interface, and a convenient USB charging port. Its sturdy metal frame ensures durability and stability.

2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Do not expose the mirror to water or excessive humidity.
- Use only the provided power adapter or a compatible power source.
- Keep the mirror away from heat sources and direct sunlight.
- Do not attempt to disassemble or repair the mirror yourself. Contact customer support for assistance.
- Ensure the mirror is placed on a stable, flat surface or securely mounted to a wall.
- Unplug the mirror from the power outlet before cleaning or when not in use for extended periods.
- Avoid direct current connection to the USB charging port. It is designed for charging other devices, not for powering the mirror itself.

USB Charging Port

It can charge your phone, laptop, facial steam, etc. with the USB charger port

3. SETUP AND INSTALLATION

Your NUSVAN Vanity Mirror offers flexible installation options: freestanding or wall-mounted.

Freestanding Setup

1. Carefully remove the mirror and its base from the packaging.
2. Attach the mirror to the sturdy metal base, ensuring it is securely fastened.
3. Place the assembled mirror on a flat, stable surface, such as a vanity table or dresser.
4. Connect the power adapter to the mirror's power input port and then plug it into a standard electrical outlet.

Four major selling points of the product

Wall-Mounted Installation

For wall-mounting, ensure you have appropriate wall anchors and screws (not included) suitable for your wall type. It is recommended to seek professional assistance for wall installation.

1. Identify a suitable location on the wall, ensuring it is sturdy enough to support the mirror's weight.
2. Mark the drilling points on the wall according to the mirror's mounting holes.
3. Drill holes and insert appropriate wall anchors.
4. Securely attach the mirror to the wall using screws.
5. Connect the power adapter to the mirror's power input port and then plug it into a standard electrical outlet.

4. OPERATING INSTRUCTIONS

The NUSVAN Vanity Mirror features intuitive touch controls located on the mirror surface.

Control Buttons

Power Button (On/Off): Short press to turn the mirror lights on or off.

"M" Button (Mode): Short press to cycle through the three color lighting modes.

"P" Button (Brightness): Long press to adjust the brightness level of the LED lights.

- M** Short press to change color mode
- ⏻** On/Off
- P** Long press to adjust LED brightness

Adjusting Light Color Modes

The mirror offers three distinct lighting modes to suit various makeup needs:

- **Cool Lights:** Ideal for precise makeup application, providing a bright, clear illumination.
- **Neutral Lights:** Mimics natural sunlight, perfect for everyday makeup.
- **Warm Lights:** Creates an inviting glow, suitable for evening or party makeup.

To switch between modes, short press the **"M"** button.

Adjustable light color

Touch (M) to adjust the light color

Cool Lights

Ideal for precise makeup, our vanity mirror illuminates beautifully.

Neutral Lights

Crafted for midday makeup, mimicking natural sunlight seamlessly

Warm Lights

Perfect for party makeup, our vanity mirror creates an inviting glow.

Image: Visual representation of the three light color modes: Cool, Neutral, and Warm, demonstrating their appearance on a user's face.

Adjusting Brightness

The LED brightness can be adjusted to your preference. Long press the "P" button to increase or decrease the brightness. The mirror has a smart memory function that will recall the last brightness setting used.

Adjustable brightness

Press and hold (P) to adjust the brightness

80%-100%

High Brightness

Detailed care for spots on the face

50%-70%

Medium Brightness

For full-face skincare use

10%-40%

Low Brightness

For daily skincare use

5. MAINTENANCE AND CARE

Proper care will extend the life and maintain the performance of your NUSVAN Vanity Mirror.

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, then wipe gently.
- **Cleaning the Frame:** Wipe the metal frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **LED Bulbs:** The integrated LED bulbs have a lifespan of approximately 50,000 hours and do not require replacement.
- **Storage:** When not in use for extended periods, unplug the mirror and store it in a dry, cool place, protected from dust.

6. TROUBLESHOOTING

If you encounter any issues with your mirror, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mirror lights do not turn on.	Not plugged in; power outlet issue; power adapter fault.	Ensure the power adapter is securely plugged into both the mirror and a working electrical outlet. Try a different outlet.
Lights flicker or are dim.	Low power; faulty connection.	Check power connections. Ensure the power adapter is fully inserted.
Touch controls are unresponsive.	Dirty surface; temporary software glitch.	Clean the touch control area with a soft, dry cloth. Unplug the mirror for 30 seconds and then plug it back in to reset.
USB charging port not working.	Cable issue; device compatibility.	Try a different USB cable and another device. Ensure the mirror is powered on.

If the problem persists after trying these solutions, please contact NUSVAN customer support.
