3. COMPATIBILITY

Compatible Countries (Type I Plug)

- Australia, Argentina, New Zealand, China, Fiji, Cook Islands, Samoa, Kiribati, Nauru, Papua New Guinea, Saint Vincent and the Grenadines, Solomon Islands, Tajikistan, Timor-Leste, Tonga, Tuvalu, Uruguay, Uzbekistan, Vanuatu.

Compatible Devices

- Cellphones, tablets, earphones, laptops, cameras, and other devices requiring USB-A, USB-C, or standard US Type B outlets.

4. IMPORTANT SAFETY INFORMATION & WARNINGS

NOT A VOLTAGE CONVERTER

This adapter does NOT convert voltage. Ensure your electronic devices (especially high-power items like hair dryers, straighteners, curling irons, electric toothbrushes, etc.) support dual voltage (100V-250V). Using a 110V/125V-only device with this adapter in a 220V-250V country will damage the device and potentially cause fire. Always check the voltage requirements of your device on its surface or label before plugging it in.

- For indoor use only.
- Do not exceed maximum load of 2500W.
- Keep away from water and high humidity.
- Do not disassemble or modify the adapter.
- Always turn off the power before plugging in or unplugging.

5. SETUP & OPERATING INSTRUCTIONS

Step-by-Step Guide

1. **Identify the correct plug type:** Ensure the destination country uses a Type I outlet.
2. **Verify device voltage:** Confirm your device supports 100V-250V.
3. **Plug in the adapter:** Insert the TESSAN Type I adapter into the wall outlet.
4. **Connect your devices:** Plug your devices into the available AC outlets (Type B), USB-A ports, or USB-C port.
5. **Power on:** Turn on the wall outlet power if applicable.

Charging Multiple Devices

The 4-sided design allows for simultaneous charging of up to 7 devices (4 AC, 2 USB-A, 1 USB-C) without blocking adjacent outlets.

6. SPECIFICATIONS

Feature	Detail
Model	TS-161-AU-C
Input Voltage	100-250V AC, 50/60Hz
Max Load	10A
Max Power	2500W
USB-A Output	5V/2.4A Max per port

Total DC Output	35W
Dimensions	3.15 x 2.24 x 2.35 inches
Item Weight	4.01 ounces
Plug Type	Type I (Australia/New Zealand/China)
AC Outlets	4 (US Type B)

7. TROUBLESHOOTING

Device Not Charging?

- **Check Power:** Ensure the wall outlet has power.
- **Verify Adapter Connection:** Make sure the adapter is firmly plugged into the wall.
- **Inspect Device Cable:** Try a different charging cable to rule out cable issues.
- **Confirm Device Compatibility:** Double-check that your device's voltage is compatible (100V-250V). This adapter is not a voltage converter.
- **Overload Check:** Ensure the total power consumption of connected devices does not exceed 2500W.
