FLYHIT TW-ST1912

FLYHIT Large Towel Warmer User Manual

Model: TW-ST1912

INTRODUCTION

Thank you for choosing the FLYHIT Large Towel Warmer. This manual provides essential information for the safe and efficient operation of your new appliance. Please read all instructions carefully before use and retain this manual for future reference.

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before using this appliance.
- This appliance is for household use only. Do not use outdoors.
- Ensure the appliance is placed on a stable, flat, heat-resistant surface.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Unplug from outlet when not in use and before cleaning. Allow to cool before handling.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Do not use attachments not recommended by the manufacturer.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then

remove plug from wall outlet.

- **Caution:** The bucket body indicator light signifies a hot surface. It is unsafe to touch the interior of the device when this light is on.
- **Material Compatibility:** Safely heat cotton materials. Do not heat chemical fiber towels, clothing, or any materials that are not heat-resistant. Do not use to dry wet towels or other damp items.

Safe Usage

Automatic Overheat Protection

1. Fire-Resistant and Eco
2. Three-Layer Temp Control
3. Interior Insulation Layer

Be sure to use dry towels; loosely pile one towel into the Towel & Blanket Warmer. Tightly rolled or folded towels will take longer to heat thoroughly.

The 450W heating element ensures even warming, bringing your towels to a cozy temperature within 25 minutes.

Image: Visual guide illustrating materials suitable for heating (cotton, velvet, linen) and those to avoid (synthetic fibers, nylon, wet towels).

SETUP AND INITIAL USE

1. Unpack the towel warmer and all its components.
2. Place the towel warmer on a dry, flat, and stable surface in your bathroom or desired location. Ensure it is away from water sources.
3. Ensure the power cord is easily accessible and not obstructed.
4. For first-time use, it is recommended to run an empty cycle to eliminate any manufacturing odors. Plug in the unit, press the WORK button, and let it run for 30 minutes.

OPERATING INSTRUCTIONS

Heating Towels:

1. Ensure the towel warmer is plugged into a standard electrical outlet.

2. Place dry, cotton towels, bathrobes, or blankets into the warmer bucket. The warmer can accommodate up to two 40" x 70" oversized towels or approximately five medium-sized bath towels. For optimal heating, loosely pile items inside. Tightly rolled or folded towels may take longer to heat thoroughly.
3. Close the lid securely.
4. Press the **WORK** button to start the heating process. The 450W heating element will begin warming the contents.
5. The built-in timer defaults to 30 minutes upon startup. The indicator light will illuminate once the 30-minute insulation mode is activated.

FAST & EVEN HEATING

Image: An internal view of the towel warmer, illustrating the heating process with rolled towels inside.

Setting the Timer:

- After pressing the **WORK** button, you can adjust the preservation time using the **TIMER** button.
- Press the **TIMER** button repeatedly to cycle through available times: 0.5 hours, 1 hour, 2 hours, or 4 hours.
- The selected time will be indicated by the corresponding light.
- The warmer will maintain the warm temperature for the set duration.

0.5-4 hour timer

Heating Time: 0.5/ 1/ 2/ 4Hour

Image: The towel warmer displaying its timer settings, allowing users to select heating durations from 0.5 to 4 hours.

Fragrance Function:

- The warmer includes a slot for an aromatherapy board (not included).
- Insert your preferred aromatherapy board into the designated slot under the lid to infuse your towels with a pleasant scent during warming.

20L Large Capacity

Image: A detailed view of the towel warmer's lid, highlighting the integrated slot for an aromatherapy board, with an inset showing a person experiencing a pleasant fragrance.

Automatic Shut-Off:

- The towel warmer features a triple-layer temperature control mechanism.
- It will automatically shut off if the internal bucket temperature becomes too high, preventing overheating.

CARE AND MAINTENANCE

- Always unplug the appliance and allow it to cool completely before cleaning.
- Wipe the exterior of the warmer with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- Do not immerse the warmer in water or any other liquid.
- The interior of the bucket can be wiped clean with a damp cloth. Ensure it is completely dry before next use.
- Store the towel warmer in a dry place when not in use.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--------------------------------|--|---|
| Warmer does not turn on. | Not plugged in; power outlet malfunction; unit not properly connected. | Ensure the power cord is securely plugged into a working outlet. Check the circuit breaker. |
| Towels are not warm enough. | Too many towels; towels folded too tightly; insufficient heating time. | Reduce the number of towels. Loosely pile towels. Increase heating time using the timer function. Ensure only dry, cotton materials are used. |
| Warmer shuts off unexpectedly. | Overheating protection activated. | Allow the unit to cool down. Ensure proper ventilation around the unit. Do not overfill. |
