## Safety Information

Your safety is our top priority. This electric blanket is **ETL certified** and equipped with advanced safety features.

- **Intelligent NTC&PTC Heating Wires:** These wires continuously monitor and regulate the temperature in real-time, ensuring a safe and reliable heating experience.
- **Overheat Protection:** The blanket is designed to prevent overheating by automatically reducing power if necessary.
- **Automatic Shut-off:** The blanket automatically shuts off after 8 hours during its first use. For subsequent uses, you can set a timer for 1-10 hours.
- **Important:** Do not fold or bunch the heated blanket during use to avoid localized overheating.

## Product Features

- **Premium & Stylish Design:** Features a tufted cable pattern with thickened 240GSM jacquard long plush sherpa on one side and 220GSM sherpa on the other for exceptional softness and elegance.
- **Enhanced Heating System:** Upgraded and 10% extended heating wires provide a larger heating area,

delivering soothing warmth in just 20 minutes.

- **10 Heat Settings:** Easily adjust the temperature to your preference, with a maximum temperature of 122°F.
- **1-10 Hour Timer Settings:** Customize the automatic shut-off time for added flexibility and energy saving.
- **LCD Controller:** Allows easy monitoring and adjustment of temperature and timer settings.
- **Long Power Cord:** Provides convenience for use in various areas of your home.

## CLOUD-LIKE SOFTNESS

## Maintenance

Keeping your electric heated blanket clean is effortless.

1. **Disconnect Controller:** Always remove the heating controller from the blanket before washing.
2. **Machine Wash:** Machine wash the blanket in cold water on a gentle cycle.
3. **Drying:** After washing, gently stretch the heat blanket back to its original size for optimal performance. Tumble dry on a low-temperature setting. Do not bleach or iron.

### Troubleshooting

If you encounter any issues with your CAROMIO Electric Blanket, please refer to the following general advice:

- **No Heat:** Ensure the controller is securely connected to the blanket and the power cord is firmly plugged

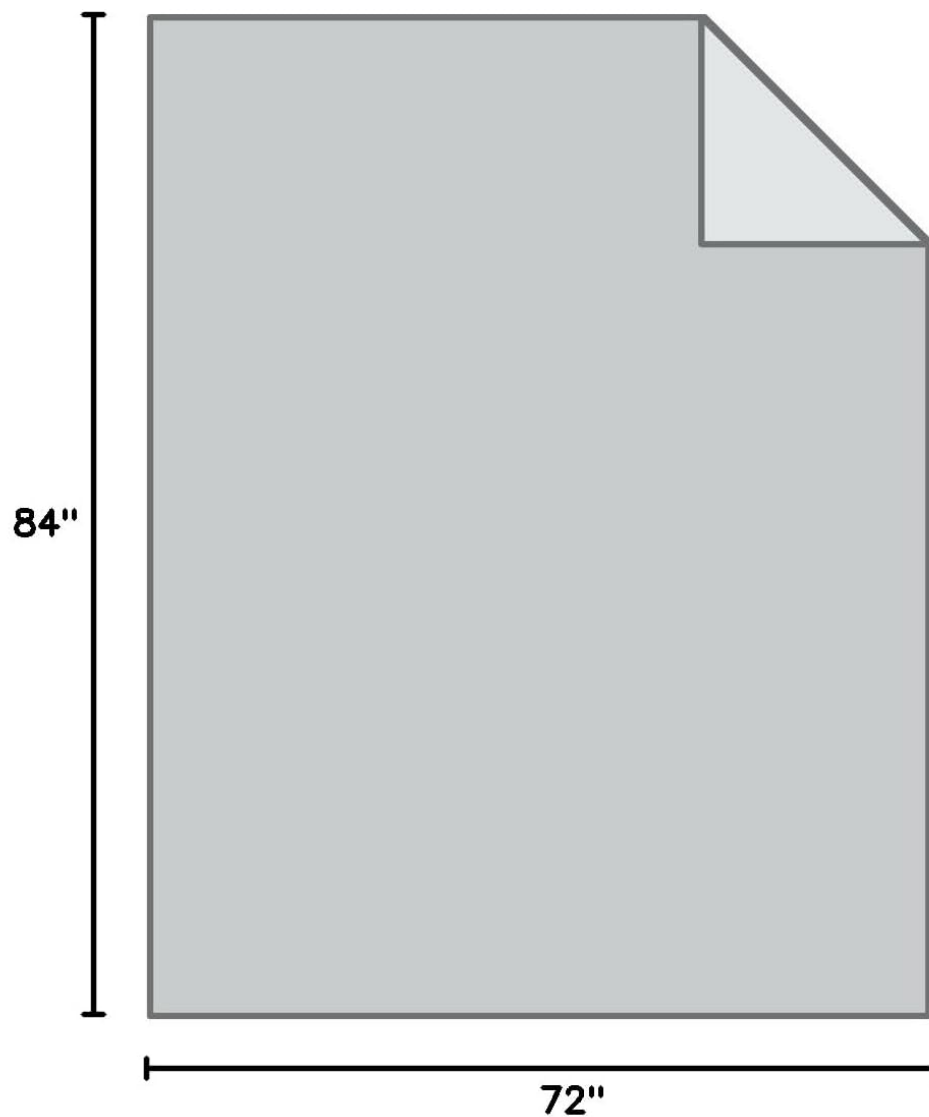

into a working outlet. Check if the automatic shut-off timer has expired.

- **Uneven Heat:** Ensure the blanket is laid flat and not bunched or folded, which can interfere with heat distribution.
- **Controller Display Issues:** Unplug the blanket from the wall outlet for a few minutes, then plug it back in to reset the controller.

For persistent issues, please contact customer support.
