onerbl AS095-101

onerbl 15V AC/DC Adapter for AirSep Caire AS095 Freestyle 3 Portable Oxygen Concentrator - User Manual

Model: AS095-101

1. Introduction

Thank you for choosing the onerbl 15V AC/DC Adapter. This high-quality replacement power supply is designed to provide reliable and efficient power to your AirSep Caire AS095 and Freestyle 3 Portable Oxygen Concentrators. This manual provides essential information for the safe and effective use of your new adapter, including setup, operation, and maintenance guidelines. Please read this manual thoroughly before use and retain it for future reference.

2. Safety Instructions

To ensure safe operation and prevent damage to the adapter or connected devices, please observe the following safety precautions:

- **Compatibility:** Only use this adapter with compatible devices, specifically AirSep Caire AS095 and Freestyle 3 Portable Oxygen Concentrators, requiring 15VDC 4A 60W power. Using it with incompatible devices may cause damage.
- **Power Source:** Connect the adapter only to an AC power outlet within the specified input range of 100-240V, 50/60Hz.
- **Protection Features:** This adapter is equipped with built-in **Over Voltage Protection**, **Over Heat Protection**, and **Short Circuit Protection** to safeguard your devices.
- **Environmental Conditions:** Do not expose the adapter to water, moisture, high temperatures, or direct sunlight. Use in a well-ventilated area.
- **Handling:** Avoid dropping or subjecting the adapter to strong impacts. Do not attempt to open or modify the adapter.
- **Cable Care:** Ensure power cords are not pinched, walked on, or otherwise damaged. Replace damaged cords immediately.
- **Unplugging:** Always grasp the plug, not the cord, when disconnecting from the power outlet.

3. Product Overview

The onerbl 15V AC/DC Adapter is a reliable power solution featuring a durable design and multiple safety protections. It includes the main adapter unit and a detachable power cord.

Image 3.1: The onerbl 15V AC/DC Adapter, showing the main unit and connected cables.

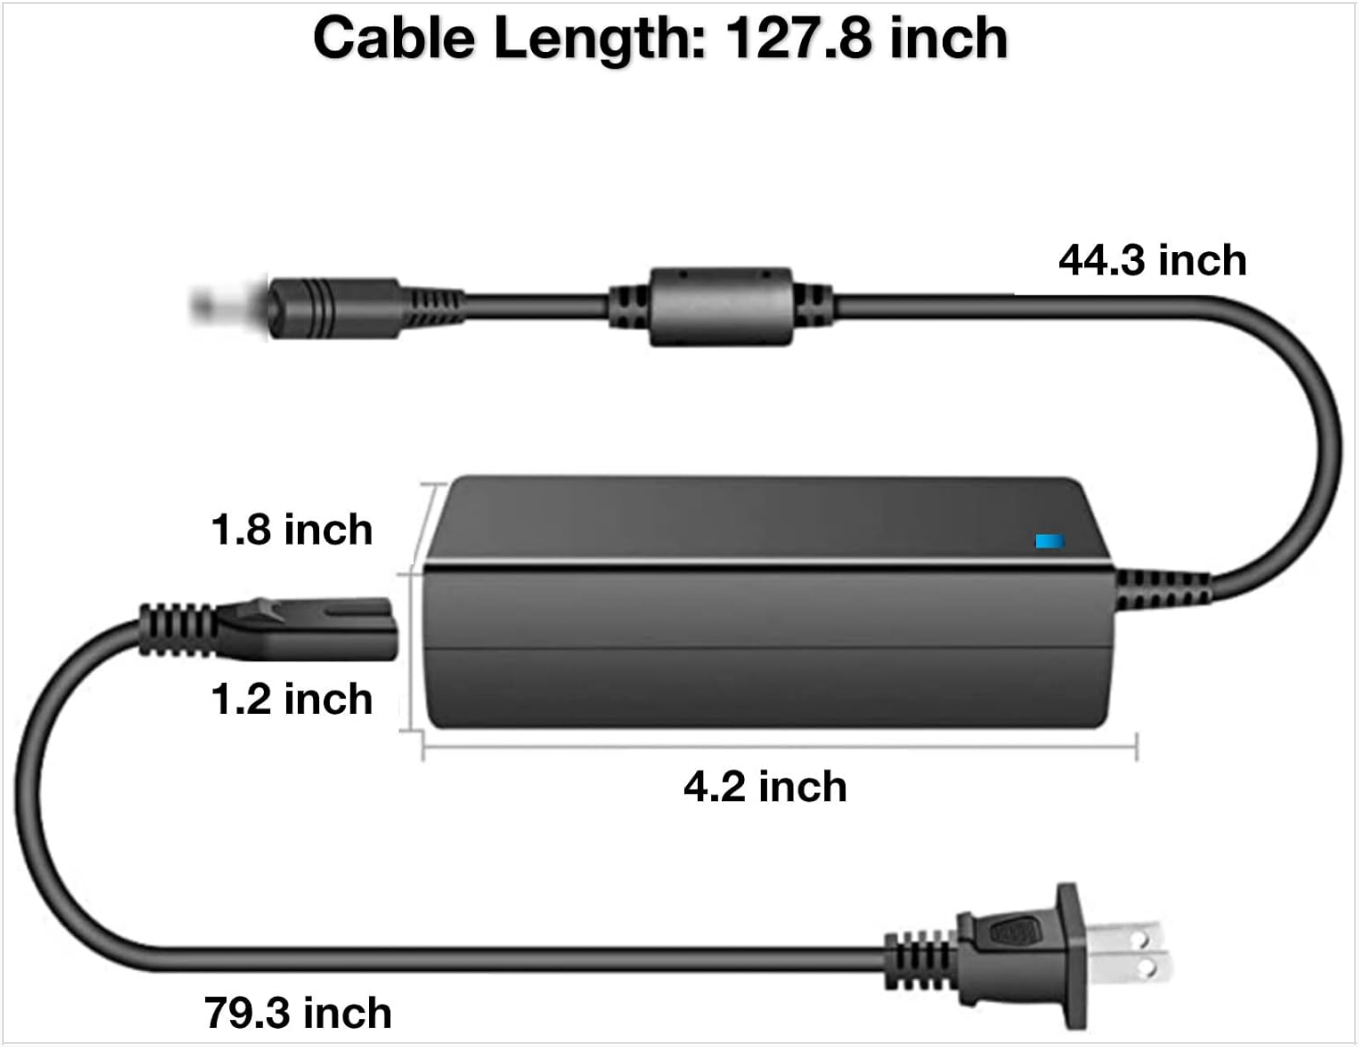

Image 3.2: Detailed view of the adapter and cables with approximate dimensions. The total cable length is approximately 127.8 inches, comprising a 44.3-inch output cable and a 79.3-inch input cable. The adapter unit measures approximately 4.2 inches in length.

Image 3.3: The detachable AC input power cord, featuring a Type A plug for wall outlets and a C7 connector for the adapter unit.

Image 3.4: Illustration highlighting the adapter's smart chip technology, providing multiple layers of protection including short-circuit, over-voltage, and over-current safeguards for electrical safety.

Image 3.5: Depiction of the adapter's quality control and durable design, emphasizing the use of copper wire and a PVC jacket for enhanced longevity and safety.

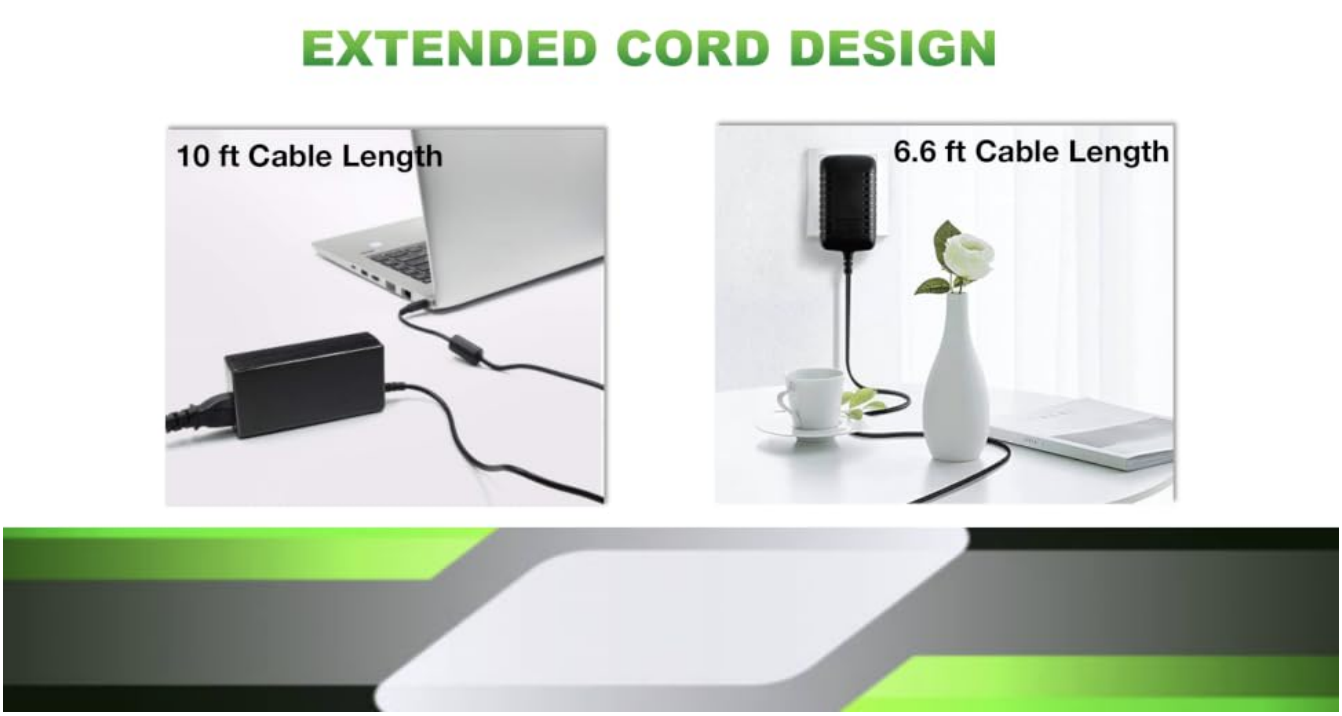

Image 3.6: Examples illustrating the extended cord design, showing the flexibility and reach provided by the adapter's cable length for various setups.

Image 3.7: Visual representation of the adapter's wide range of applications, including compatibility with various electronic devices beyond oxygen concentrators, such as routers, cameras, and LED strips.

4. Setup

Follow these steps to set up your onerbl AC/DC Adapter:

1. **Connect the AC Power Cord:** Insert the C7 connector end of the detachable AC power cord into the input port on the main adapter unit.
2. **Connect to Device:** Plug the DC output connector of the adapter into the power input port of your AirSep Caire AS095 or Freestyle 3 Portable Oxygen Concentrator. Ensure a firm connection.
3. **Connect to Wall Outlet:** Plug the Type A plug of the AC power cord into a standard wall outlet (AC 100-240V, 50/60Hz).
4. **Verify Connection:** Once connected, the adapter's indicator light (if present) should illuminate, indicating it is receiving power.

Image 4.1: The onerbl adapter properly connected to a wall outlet and a device, ready for operation.

5. Operating Instructions

Once the adapter is properly set up, it will automatically begin powering or charging your compatible device. No additional user interaction is typically required for basic operation.

- **Powering Devices:** The adapter provides continuous 15VDC power to your oxygen concentrator when plugged into a live AC outlet.

- **Charging Batteries:** If your oxygen concentrator has a rechargeable battery, the adapter will charge it while simultaneously powering the device. Refer to your concentrator's manual for specific charging indicators.
- **Disconnection:** To disconnect, first unplug the adapter from the wall outlet, then disconnect it from your device.

6. Specifications

Feature	Specification
Brand	onerbl
Model Number	AS095-101
Input Voltage	AC 100-240V, 50/60Hz (Worldwide AC Input)
Output Voltage	15V DC
Output Current	4A
Output Power	60W
Plug Type	Type A (US Standard)
Cable Length (Total)	Approx. 127.8 inches (3.25 meters)
Protections	Over Voltage Protection, Over Heat Protection, Short Circuit Protection
Condition	Brand New, High Quality Replacement

7. Troubleshooting

If you encounter issues with your adapter, try the following steps:

- **No Power Output:**
  - Ensure the AC power cord is securely connected to both the adapter and the wall outlet.
  - Verify that the wall outlet is functional by plugging in another device.
  - Check that the DC output connector is firmly plugged into your oxygen concentrator.
- **Device Not Charging/Powering:**
  - Confirm that your device (AirSep Caire AS095 or Freestyle 3) is compatible with 15VDC 4A 60W power.
  - Inspect the adapter's cables and connectors for any visible damage.
  - If the adapter feels excessively hot, disconnect it immediately and allow it to cool down in a well-ventilated area.
- **Intermittent Power:**
  - Check for loose connections at both the wall outlet and the device.
  - Avoid bending or stressing the cables, especially near the connectors.

If these steps do not resolve the issue, discontinue use and contact customer support.

8. Maintenance

Proper care and maintenance will extend the life of your adapter:

- **Cleaning:** Disconnect the adapter from all power sources and devices before cleaning. Use a soft, dry cloth to wipe

the exterior. Do not use liquid cleaners or solvents.

- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use. Avoid tightly coiling the cables to prevent damage.
- **Inspection:** Periodically inspect the adapter and cables for any signs of wear, cuts, or damage. If damage is found, discontinue use.

9. Warranty and Support

This product is designed for reliability and performance. For specific warranty details, please refer to the information provided at the point of purchase or contact the seller directly. Generally, products are eligible for a refund or replacement within 30 days of purchase, subject to the seller's return policy.

Optional protection plans, such as 2-Year, 3-Year, or Complete Protect plans, may be available for extended coverage. Please consult the seller or product listing for details on purchasing these plans.

For technical support or inquiries, please contact the onerbl customer service team through the platform where the product was purchased.
