LEVOIT LVAC-200 White

LEVOIT LVAC-200 Cordless Vacuum Cleaner User Manual

Model: LVAC-200 White

1. PRODUCT OVERVIEW

The LEVOIT LVAC-200 Cordless Vacuum Cleaner is designed for efficient and convenient daily cleaning. Featuring a tangle-resistant design, powerful suction, and a lightweight build, it is versatile for various surfaces including carpets, hard floors, and pet hair. The vacuum incorporates a 5-stage filtration system for cleaner air emissions.

Figure 1: LEVOIT LVAC-200 Cordless Vacuum Cleaner and its components.

2. SETUP

2.1 Included Components

- 1 x Vacuum Body
- 1 x Long Stick
- 1 x Short Stick
- 1 x Vacuum Head
- 1 x 2-in-1 Crevice Tool
- 1 x 2-in-1 Pet Tool
- 1 x Wall Mount

- 2 x Screws
- 2 x Wall Anchors
- 1 x Charger
- 1 x User Manual

2.2 Assembly

1. **Attach the Long Stick:** Insert the long stick into the main vacuum body until it clicks securely into place.
2. **Attach the Vacuum Head:** Connect the vacuum head to the other end of the long stick, ensuring it locks firmly.
3. **Install Wall Mount (Optional):** Use the provided screws and wall anchors to securely mount the wall mount in a convenient location for storage and charging.

2.3 Initial Charging

Before first use, fully charge the vacuum's battery. The battery can be charged while attached to the vacuum or separately. Connect the charger to the battery. The battery indicator lights will show charging progress and turn off when fully charged. Ensure the charging environment is between 24.8°F (-4°C) and 104°F (40°C) for optimal charging.

3. OPERATING INSTRUCTIONS

3.1 Power Modes and Runtime

The LVAC-200 offers three power modes to suit different cleaning needs:

- **Eco Mode:** Provides up to 50 minutes of runtime, ideal for light cleaning and extended use with the crevice or pet tool.
- **Standard Mode:** Offers approximately 30 minutes of runtime with the vacuum head, suitable for daily cleaning tasks.
- **Turbo Mode:** Delivers maximum suction for tough messes, with a runtime of approximately 12 minutes.

Note: Runtimes are based on testing at room temperature and may vary based on power mode, battery conditions, floor type, and attachments used.

Uninterrupted Cleaning Do More on a Single Charge

12-50
Mins*

* Tested in Eco Mode with attachments. Using Crevice/Pet Tool: 50 mins on Eco Mode, 12 mins on Turbo Mode.
Actual runtime may vary based on power mode, battery conditions, floor type, and/or attachments used.

Figure 2: The LVAC-200 offers flexible runtime for various cleaning tasks.

3.2 Versatile Cleaning

The LVAC-200 is designed for comprehensive cleaning across various surfaces and areas:

- **Floors and Low Pile Carpets:** The main vacuum head is effective on both hard floors and low pile carpets. It features 3 LED lights to illuminate dust and debris.
- **Under Furniture:** The vacuum can lie 180° flat, allowing easy access to clean under furniture.
- **Furniture and Upholstery:** Use the 2-in-1 pet tool or crevice tool for cleaning sofas, chairs, and other upholstered surfaces.
- **Car Interiors:** The compact design and specialized tools make it suitable for cleaning car interiors.

Important Note: This vacuum is designed for dry messes only and should not be used to clean up wet spills or liquids.

4. MAINTENANCE

4.1 Dustbin Emptying

The large dustbin can be emptied with a single click, making disposal quick and hygienic. Regularly empty the dustbin to maintain optimal suction performance.

Easy From Start to Finish

Lightweight

One-Touch Emptying

180° Flat

4.2 Filter Cleaning and Replacement

The LVAC-200 features a 5-stage filtration system. For optimal performance, it is recommended to clean the filters regularly and replace them every three months.

- **Cleaning:** The filters and dustbin components are washable and reusable. Rinse them with water and ensure they are completely dry before reassembling.
- **Replacement:** Genuine replacement filters are available from LEVOIT. Search for "Levoit Ivac-200 filter" to ensure authenticity.

Figure 7: Look for the Levoit Certified Genuine Badge for authentic replacement parts.

4.3 Anti-Tangle Brush

The LVAC-200 features an anti-tangle brush designed to prevent hair from wrapping around the roller,

reducing the need for manual untangling and making cleaning faster and more stress-free.

Save Time with Anti-Hair Wrap

The hair cleaning MVP in tackling tangles
and kicking costs.

5. TROUBLESHOOTING

If you encounter any issues with your LEVOIT LVAC-200, refer to the following common troubleshooting steps:

Problem	Solution
---------	----------

Problem	Solution
Suction power low or not picking up debris	<p>Step 1: Check the battery level. Charge if low.</p> <p>Step 2: Ensure filters are properly installed.</p> <p>Step 3: Remove vacuum head and check for clogs.</p> <p>Step 4: Inspect vacuum stick for blockages.</p> <p>Step 5: Check dust bin air inlet for blockages.</p> <p>Step 6: If filters haven't been cleaned for a long time, follow manual instructions to clean them.</p> <p>Step 7: If issues persist, record a video and contact Customer Service.</p>
Vacuum won't turn on	<p>Step 1: Ensure power button is pressed briefly (not held down).</p> <p>Step 2: If only one battery indicator light flashes white, the battery is low and needs charging.</p> <p>Step 3: Check if battery pack is damaged, loose, or installed incorrectly.</p> <p>Step 4: If battery indicator lights flash red or vacuum is unresponsive, record a video and contact Customer Service.</p>
Battery won't charge (indicator lights flash red or don't light up)	<p>Step 1: Ensure you are using the original charger (black with Levoit logo).</p> <p>Step 2: Check charger and cable for damage.</p> <p>Step 3: Ensure environmental temperature is not below 24.8°F (-4°C). If it is, let the device return to room temperature before charging.</p> <p>Step 4: If battery is overheating, remove it and place in a room-temperature environment to cool down.</p> <p>Step 5: If issues persist, record a video and contact Customer Service.</p>
Vacuum turns off automatically after short use	<p>Step 1: Check for muffled suction sounds or if the dust bin cover is open.</p> <p>Step 2: If you hear these sounds, inspect the vacuum head, stick, and body for blockages. Make sure the dust bin cover is fully closed.</p> <p>Step 3: If the issue persists, record a video and contact Customer Service.</p>
