- Press and hold the BUTTON2 change to default mode.

Figure 2: Product Contents. This image displays the complete set of items included in the package: the light stick, a strap, a dust bag, five photo cards, and the user manual.

SETUP

Battery Installation

The light stick requires 3 AAA batteries (not included). Please purchase them separately.

1. Locate the battery compartment at the bottom of the light stick.

2. Open the battery compartment cover.
3. Insert 3 AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

Note: Batteries will last approximately 3 hours. Always use genuine AAA batteries.

OPERATING INSTRUCTIONS

Figure 3: Light Stick Buttons. This diagram illustrates the location and basic functions of Button 1 (Turn ON/OFF, Default Mode) and Button 2 (Control: Color Shaking, Bluetooth, Concert Mode).

1. Turn ON / OFF

- Press and hold Button 1 to turn the light stick on.
- When the power is on, the light stick will enter Default Mode.
- Press and hold Button 1 again to turn the light stick off.

2. Default Mode

- Press Button 1 to change the light color. The color sequence is: White → Green → Pink → Blue → Orange → Yellow.
- Press Button 2 to change the flashing speed. The light will flash in the order of: long blink → blink → flicker → OFF.
- Press and hold Button 2 to switch to Color Shaking Mode.

3. Color Shaking Mode

- When the power is on, press and hold Button 2 to enter Color Shaking Mode.
- The light color will change when you shake the light stick. The color sequence is: White → Green → Pink → Blue → Orange → Yellow.
- Press and hold Button 2 again to return to Default Mode.

4. Bluetooth Mode

- Turn on the Bluetooth mode on your smartphone.
- Press and hold both Button 1 and Button 2 on the light stick simultaneously.
- The light will flicker in blue as it attempts to pair with your smartphone via Bluetooth.
- Once paired, the light stick's color will change according to the settings in the official app.
- Press and hold both Button 1 and Button 2 again to return to Default Mode.
- **Important:** *More information on the OFFICIAL LIGHT STICK app for Bluetooth mode will follow.*
- **Note:** *When in Bluetooth mode, you may experience sporadic disconnection with your smartphone.*
- **Compatibility:** *Supports Bluetooth 4.2 or higher.*

5. Concert Mode

- Enter your seat number via the OFFICIAL LIGHT STICK app or visit the pairing booth at the venue to use the concert mode during the concert.
- Turn on the light stick after pairing, and it will automatically enter concert mode.
- **Note:** *Some concerts do not have a pairing process. Please refer to the guidelines for each concert.*
- **Important:** *When in concert mode, you will not be able to control the buttons. This is not a defect.*
- **Troubleshooting Pairing:** *If you have trouble pairing the light stick with your smartphone, please visit the pairing booth at the concert venue.*

4. BLUETOOTH MODE

- Turn on the Bluetooth mode on your smartphone. Then press and hold both buttons of the light stick.
- The light will flicker in blue as it tries to pair with your smartphone via Bluetooth.
- Once they are paired, the light stick's color will change to the color set by the app.
- Press and hold both buttons to change to default mode.
- * More information on the OFFICIAL LIGHT STICK app for the Bluetooth mode will follow.

5. CONCERT MODE

- Enter your seat number via the OFFICIAL LIGHT STICK app or visit the pairing booth at the venue to use the concert mode during the concert.
- Turn on the light stick after pairing, and you will enter the concert mode.
- Some concerts do not have a pairing process. Please refer to the guidelines for each concert.
- * When you are in concert mode, you will not be able to control the buttons. Please note that this is not a defect.
- * If you have trouble pairing the light stick with the smartphone, please visit the pairing booth at the concert venue.
- * When you are in Bluetooth mode, you will not be able to control the buttons. Please note that this is not a defect.
- * When you are in Bluetooth mode, you may experience sporadic disconnection with your smartphone.
- * Supports Bluetooth 4.2 or higher.

- * **Includes a light stick, a dust bag, a strap, and a user guide.**
- * **AAA batteries not included. You must purchase them separately.**
- * **Batteries will last approximately 3 hours.**

Figure 4: Basic Operation Instructions. This image details how to turn the light stick on/off, operate in default mode (changing colors and flashing speeds), and activate color shaking mode.

MAINTENANCE AND PRECAUTIONS

- Avoid high temperatures or humidity. Store at room temperature.
- Do not allow the LED light to shine directly in the eyes.
- Be careful not to drop or apply excessive damage, as it may affect the LED color.
- Do not swallow parts or put them in the mouth.
- Always use genuine AAA batteries.

TROUBLESHOOTING

- **Light stick not turning on:** Ensure batteries are inserted correctly with proper polarity and are not depleted. Replace with new genuine AAA batteries if necessary.
- **Light stick not pairing via Bluetooth:** Ensure Bluetooth is enabled on your smartphone. Try restarting both the light stick and your smartphone. If at a concert, visit the pairing booth.
- **Light stick color not changing:** Ensure you are in Default Mode or Color Shaking Mode. If in Concert Mode or Bluetooth Mode (after pairing), button control is disabled.
- **Sporadic disconnection in Bluetooth mode:** This can occur and is not considered a defect. Ensure your smartphone is within close range and there are no major interferences.
