5. OPERATING INSTRUCTIONS

This versatile set offers three distinct modes of use to adapt to your child's activities.

5.1. Standard Table Mode

In its standard configuration, the table provides a flat, smooth surface suitable for various activities such as eating, drawing, reading, or playing with toys. The white tabletop is easy to clean and provides ample space for children.

5.2. Blackboard Mode

To convert the table to blackboard mode, simply remove the tabletop and flip it over. One side of the tabletop features a chalkboard surface, perfect for creative drawing and writing with chalk. Ensure the chalkboard side is facing upwards and securely placed back into the table frame.

5.3. Toy Box Mode (Storage)

When the tabletop is removed, the table frame reveals a spacious storage compartment underneath. This area is ideal for organizing toys, building blocks, art supplies, or books, helping to keep play areas tidy. The storage space is divided into two compartments for better organization.
