## FEELNEEDY FN-W04

# FEELNEEDY FN-W04 Pet Water Fountain Filter Unit Instruction Manual

Model: FN-W04

## 1. INTRODUCTION

Thank you for choosing the FEELNEEDY FN-W04 Pet Water Fountain Filter Unit. This product is designed to provide your pets with clean and fresh flowing water, promoting their health and hydration. This filter unit is specifically designed for use with the FEELNEEDY FN-W04 automatic pet water dispenser. Please read this manual carefully before use to ensure proper installation and maintenance.

## 2. PRODUCT CONTENTS

Each package of the FEELNEEDY FN-W04 Filter Unit includes the following items:

- 6 x Filter Units
- 6 x Pump Sponges

These components are essential for maintaining the water quality and the proper functioning of your pet water fountain.

### 3. SETUP AND INSTALLATION

Follow these steps to prepare and install a new filter unit:

1. **Prepare the Filter:** Remove a new filter unit from its packaging.
2. **Soak the Filter:** Place the filter in a bowl of clean water and soak it for 3 to 5 minutes. This helps to activate the filter material and remove any loose carbon particles.

#### FEELNEEDYを選ぶ理由?

##### 安全な材料

厳格な材料選択し、我が家族に有害な材料を一切拒否するとともに、耐久性があり安全な素材を選択します。

##### 優良商品協力メーカー

すべてのペット用品は専任の製品開発チームによって開発され、出荷前に製品は厳格な製品品質テストを受けています。

##### プロのカスタマーサポート

ご不明な点がございましたら、[support@feelneedy.com](mailto:support@feelneedy.com)までメールでお問い合わせください。飼い主の満足は私たちの最大の追求です

3. **Rinse the Filter:** Rinse the soaked filter thoroughly under clean running water. This ensures any remaining loose particles are washed away.

Image: A hand rinsing the filter unit under a faucet.

4. **Fill Water Tank:** Fill the water tank of your FEELNEEDY FN-W04 pet water fountain with clean water. It is recommended to fill it approximately 2/3 full.
5. **Install Filter and Spout:** Place the prepared filter into the designated filter tray on the water fountain's top cover. Then, attach the spout component.
6. **Assemble and Connect Power:** Assemble the top cover onto the water tank. Ensure all components are securely in place. Finally, connect the power cord to an electrical outlet. The fountain should begin operating, providing fresh water for your pet.

## 4. OPERATING INSTRUCTIONS

Once assembled and powered on, the FEELNEEDY FN-W04 pet water fountain will continuously circulate and filter water, providing a fresh drinking source for your pets. The multi-layer filtration system ensures that pet hair, impurities, and odors are removed, improving water quality.

### Water Level Indicator

The fountain features a gentle light indicator. When the water level is sufficient, the light will be violet. If the water level becomes too low, the light will turn red, indicating that water needs to be refilled. The pump will also stop functioning to prevent damage when the water level is critically low.

Image: The water fountain displaying a red light, signaling a low water level and the need for a refill.

## Quiet Operation

The water fountain is designed for quiet operation, typically below 20dB, ensuring it does not disturb your pets or your household.

## 5. MAINTENANCE

### Filter and Pump Sponge Replacement

It is recommended to replace the filter unit and pump sponge every 30 days to ensure optimal water quality and fountain performance. The actual replacement frequency may vary based on the number of pets using the fountain and their drinking habits.

### Cleaning the Fountain

Regular cleaning of the water fountain and its components (tank, pump, spout) is crucial to prevent mineral buildup and maintain hygiene. Disassemble the fountain, clean all parts with mild soap and water, and rinse thoroughly before reassembling.

## 6. TROUBLESHOOTING

- **Water not flowing or weak flow:**
  - Check the water level. If the indicator light is red, refill the water tank.
  - Ensure the pump is properly installed and not clogged with debris or pet hair. Clean the pump if necessary.
  - Verify that the power cord is securely connected.
- **Loud pump noise:**
  - Mineral buildup can cause increased pump noise. Disassemble and thoroughly clean the pump.
  - Ensure the water level is adequate, as low water can cause the pump to run louder.
- **Water splashing out:**
  - Ensure all fountain components are correctly assembled and seated properly.
  - Avoid overfilling the water tank.

## 7. SPECIFICATIONS

<b>Brand</b>	FEELNEEDY
<b>Product Model Number</b>	FN-W04 (Filter Unit)
<b>Compatibility</b>	FEELNEEDY FN-W04 Pet Water Fountain
<b>Contents</b>	6 Filter Units, 6 Pump Sponges
<b>Recommended Filter Replacement</b>	Every 30 days
