

PATPET P collar 628A

PATPET Dog Training Collar User Manual

Model: P collar 628A

1. INTRODUCTION

The PATPET Dog Training Collar is designed to assist in effective and humane dog training for pets weighing between 5 to 100 lbs. This collar features three safe training modes: beep, vibration, and static, allowing for tailored correction based on your dog's needs. Its waterproof design and long-range control make it suitable for various training environments.

2. SAFETY INFORMATION

To ensure the safety and well-being of your pet, please adhere to the following guidelines:

- Do not keep the collar on your dog for over **2 hours a day**.
- Use the collar only for **short training sessions (10-15 min)**.
- Make sure you can fit **1 finger between the collar and the dog's neck** to ensure proper fit and comfort.

- Do not attach a leash to the training collar.
- Cover contact points with **silicone caps** to make it softer and prevent irritation.
- The remote control is **IPX5 water-resistant**, but it **cannot be soaked in water**. The receiver is **IPX7 waterproof**.
- The security keyboard lock feature helps prevent accidental activation, reducing unintended corrections.

3. PACKAGE CONTENTS

Upon opening your PATPET Dog Training Collar package, you should find the following items:

- 1 x Training Collar Receiver
- 1 x Remote Control Transmitter
- 1 x Adjustable Nylon Collar Belt
- 1 x Dual-Port Charging Cable
- Silicone Contact Point Caps (pre-installed or included separately)

4. SETUP

4.1 Charging the Devices

Before initial use, fully charge both the collar receiver and the remote control. Use the provided dual-port charging cable to charge both units simultaneously. A full charge typically takes approximately 2 hours.

4.2 Fitting the Collar

The adjustable nylon collar belt is designed to fit neck sizes from 7 to 23 inches, accommodating dogs from approximately 5 to 100 lbs. Ensure the collar is snug but not too tight; you should be able to fit one finger comfortably between the collar and your dog's neck. The receiver unit is lightweight, weighing only 1.4 oz, minimizing burden on smaller dogs.

Adjustable for All Size Dogs

 5-100lbs

4.3 Turning On/Off

- **Collar Receiver:** Press and hold the power button on the receiver until the indicator light turns green to turn it on. To turn off, press and hold the power button until the light turns red and the collar vibrates.
- **Remote Control:** Use the lock/unlock button on the side of the remote to activate or deactivate the screen and controls. The screen will display battery life and current settings when unlocked.

5. OPERATING INSTRUCTIONS

The PATPET Dog Training Collar offers three distinct training modes: Beep, Vibration, and Static. These modes can be adjusted to various intensity levels to suit your dog's temperament and training requirements.

5.1 Training Modes and Levels

- **Beep Mode:** Provides an audible tone.
- **Vibration Mode:** Offers 1-8 adjustable levels of vibration.
- **Static Mode:** Provides 0-32 adjustable levels of static correction.

5.2 Adjusting Levels and Activating Modes

To adjust the level of Shock or Vibration:

1. Press the **'Press' button** on the remote's dial to toggle between Shock and Vibration modes.
2. Once the desired mode is selected, turn the **dial** to adjust the intensity level. This prevents accidental changes to the correction level.

To activate a mode, press the corresponding button on the remote:

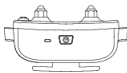

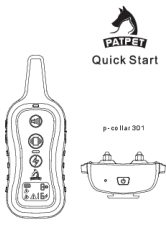

- **Beep:** Press the Tone button.
- **Vibration:** Press the Vibration button.
- **Static:** Press the Static button.
