WORKPRO W139018

WORKPRO Rechargeable Pen Light Instruction Manual

Model: W139018

PRODUCT OVERVIEW

The WORKPRO Rechargeable Pen Light is an ultra-compact and lightweight EDC (Everyday Carry) flashlight designed for various lighting needs. It features a powerful LED, multiple lighting modes, and convenient USB-C recharging. Its durable construction and versatile clip make it an essential tool for both professional and personal use.

WHAT'S IN THE BOX

- 2 x WORKPRO Mini Rechargeable Pen Lights
- 2 x Type-C USB Charging Cables

SETUP

Initial Charging

Before first use, fully charge your WORKPRO Pen Light. The device features a Type-C charging port for fast and convenient recharging.

1. Locate the charging port by twisting the body of the flashlight to reveal the USB-C input.
2. Connect one end of the provided Type-C USB charging cable to the flashlight's port.
3. Connect the other end of the cable to any standard USB power source (Max 5V 0.5A), such as a power bank, car charger,

laptop, or phone charger.

4. The charging indicator light will show the charging status. A full charge typically takes approximately 1 hour.

OPERATING INSTRUCTIONS

Power On/Off and Mode Selection

The WORKPRO Pen Light features a tail switch for easy operation and offers four distinct lighting modes:

- **High:** 300 lumens, 196ft beam distance, approximately 1 hour runtime.
- **Medium:** 150 lumens, 164ft beam distance, approximately 2.5 hours runtime.
- **Low:** 20 lumens, 65ft beam distance, approximately 6.5 hours runtime.
- **Strobe:** For emergency signaling.

To cycle through the modes, press the tail switch repeatedly. The flashlight has a memory function, automatically restoring the last used mode when turned back on.

To turn off the flashlight directly from any mode, press and hold the tail switch for more than two seconds.

Using the Dual-Direction Clip

The pen light is equipped with an upgraded dual-direction pocket clip, offering versatile hands-free convenience. You can easily attach it to:

- A hat brim for headlamp-like functionality.
- Thicker pants pockets.
- Backpack straps.
- Shirt pockets.

DUAL-DIRECTION CLIP

Easy to be attached to hat brim or pocket, backpack strap, free your hands.

MAINTENANCE

Durable Construction

The WORKPRO Pen Light is constructed from aircraft-grade aluminum, ensuring resistance to wear and tear, drops, and bumps. It is designed for longevity and reliable performance in various conditions.

- **Drop Resistant:** Tested for 1-meter (3 FT) impact resistance.
- **Water Resistant:** Rated IPX4 for resistance against splashing water from any direction. This means it can withstand light rain or splashes but should not be submerged in water.

PREMIUM MATERIAL

MADE OF PREMIUM AVIATION-GRADE ALUMINUM ALLOY

DROP RESISTANT **WATER RESISTANT**
& DURABLE

Cleaning and Storage

- Wipe the flashlight with a clean, dry cloth to remove dirt or debris.
- Avoid using abrasive cleaners or solvents that could damage the finish or internal components.
- Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- For long-term storage, it is recommended to charge the battery periodically to maintain its health.

TROUBLESHOOTING

Common Issues and Solutions

- **Flashlight does not turn on:**
 - Ensure the battery is charged. Connect the flashlight to a USB power source using the provided Type-C cable and check the charging indicator.
 - Verify the tail switch is functioning correctly. Press firmly to ensure proper contact.

- **Light is dim or flickers:**

- The battery level may be low. Recharge the flashlight fully.
- Ensure the head and tail cap are securely tightened. Loose connections can affect performance.

- **Charging indicator not working:**

- Check the USB-C cable for damage and try a different cable if necessary.
- Ensure the USB power source is active and providing power.
- Verify the charging port is clean and free of debris.

If you encounter issues not listed here or if the problem persists, please contact WORKPRO customer support for assistance.
