4. SETUP

Follow these steps for the initial setup of your Gezoon 14-inch Laptop:

1. **Charge the Laptop:** Connect the power adapter to the DC port on the laptop and plug it into a power outlet. Allow the laptop to charge for at least 30 minutes before first use.
2. **Power On:** Open the laptop lid and press the power button located on the top right of the keyboard.
3. **Windows 11 Pro Setup:** Follow the on-screen instructions to complete the Windows 11 Pro setup. This will include selecting your region, language, connecting to a Wi-Fi network, and creating a user account.
4. **Updates:** After initial setup, it is recommended to check for and install any available Windows updates to ensure optimal performance and security.

5. OPERATING INSTRUCTIONS

This section covers basic operation of your Gezoon laptop.

5.1 Keyboard and Touchpad Usage

- **Keyboard:** The full-size keyboard provides a comfortable typing experience. Familiarize yourself with the function keys (Fn) for quick access to settings like volume, brightness, and Wi-Fi.
- **Touchpad:** The large trackpad supports multi-touch gestures for navigation. Refer to Windows 11 settings for customizing touchpad gestures.

5.2 Connecting Peripherals

Utilize the various ports to connect external devices:

- **USB Devices:** Plug USB drives, mice, or keyboards into the USB 3.0 Type-A ports.
- **External Display:** Connect an external monitor or TV using the HDMI 1.4 port.
- **Headphones/Microphone:** Use the 3.5mm combo audio jack for headphones or an external microphone.
- **Memory Cards:** Insert a TF card into the dedicated slot for expanded storage.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your laptop.

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and exterior. Avoid harsh chemicals.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Store the laptop in a cool, dry place.
- **Software Updates:** Regularly check for and install operating system and driver updates to maintain security and performance.
- **Ventilation:** Ensure the laptop's vents are not obstructed to prevent overheating.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your Gezoon laptop.

7.1 Laptop Not Charging

If your laptop is not charging, consider the following steps:

- 1. Check the power adapter and cable for any visible damage.
- 2. Try using a different power outlet.
- 3. If possible, use another compatible power adapter to see if the laptop charges and powers on.
- 4. Perform a power reset by pressing and holding the power button for 20-30 seconds to drain any residual power, then reconnect the power adapter and try to power on.

7.2 Touchpad Not Working

If the touchpad is unresponsive, try these solutions:

- 1. Press the **Fn + ESC** keys simultaneously to unlock the touchpad.
- 2. Restart the laptop.
- 3. Check Device Manager in Windows for any touchpad driver issues. Reinstall or update drivers if necessary.

7.3 Slow Startup or Performance Issues

For slow startup or general performance issues:

- 1. Ensure all Windows updates are installed.
- 2. Close unnecessary background applications.
- 3. Run a disk cleanup and defragmentation (for HDD, not necessary for SSD).
- 4. Consider booting into Safe Mode to determine if a software or driver issue is causing the problem.
