Umatoll B402

Umatoll Baby Balance Bike

INSTRUCTION MANUAL

1. Introduction

Thank you for choosing the Umatoll Baby Balance Bike. This manual provides essential information for the safe assembly, operation, and maintenance of your new balance bike. Designed for toddlers aged 12-24 months, this bike helps develop balance, coordination, and confidence in a fun and safe way.

2. Safety Information

Your child's safety is our top priority. Please read and follow all safety guidelines carefully.

- **Adult Supervision Required:** Always ensure an adult supervises the child during use.
- **Steering Limiter:** The bike features a 135° steering limiter to effectively prevent overturning, enhancing stability and safety.
- **No Sharp Parts:** The design ensures there are no sharp edges or components that could harm your baby.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 55 lbs (25 kg).
- **Appropriate Surfaces:** Use on flat, clear surfaces, both indoors and outdoors. Avoid uneven terrain, stairs, or inclines.
- **Protective Gear:** Consider using a helmet and other protective gear, especially when riding outdoors.

3. Setup

The Umatoll Baby Balance Bike is designed for tool-free installation, making assembly quick and easy.

1. **Unpack Components:** Carefully remove all parts from the packaging. You should have the main frame, handlebar assembly, and the removable basket.
2. **Attach Handlebar:** Insert the handlebar stem into the opening at the front of the main frame. Push down firmly until it clicks securely into place.
3. **Attach Basket:** Slide the removable basket onto the designated slot on the handlebar stem. Ensure it is snug.
4. **Check Connections:** Verify that all connections are secure before allowing your child to use the bike.

4. Operating Instructions

Using the balance bike is intuitive and helps children learn fundamental motor skills.

4.1 Riding the Bike

Encourage your child to sit on the seat with their feet flat on the ground. They can then push off with their feet to propel the bike forward, learning to balance as they glide. The lightweight aluminum frame (3.3 lbs) makes it easy for toddlers to maneuver.

No sharp parts

safe for your baby

Figure 5: The bike's lightweight design (3.3 lbs) allows for easy handling.

4.2 Adjustable Seat

The seat offers 3 adjustable positions to accommodate your child's growth from 12 to 24 months. To adjust, locate the button underneath the seat, press it, and slide the seat to the desired position. Ensure you hear a "click" to confirm the seat is successfully fixed.

Adjustable Seat

4.3 Removable Basket

The front of the bike features a removable basket, perfect for your child to carry small toys or snacks during their adventures.

Removable Basket

4.4 Indoor and Outdoor Use

The EVA wheels are designed to be quiet and non-slip, making the bike suitable for both indoor and outdoor use without damaging floors.

Easy to carry

Light to 3.3 lbs

Figure 8: Quiet, non-slip wheels for versatile use.

5. Maintenance

Regular maintenance will ensure the longevity and safe operation of your Umatoll Baby Balance Bike.

- **Cleaning:** Wipe the bike clean with a damp cloth and mild soap as needed. Avoid harsh chemicals.
- **Wheel Inspection:** Periodically check the EVA wheels for any signs of wear or damage. Ensure they are free of debris.
- **Joints and Connections:** Regularly inspect all joints and connections to ensure they remain secure.
- **Storage:** Store the bike in a dry place away from direct sunlight and extreme temperatures to prevent material degradation.

6. Troubleshooting

If you encounter any issues with your balance bike, refer to the following common solutions:

Problem	Possible Cause	Solution
Bike does not roll smoothly.	Debris in wheels or worn wheels.	Check wheels for hair or debris and remove. Inspect for damage.
Seat slides or is not secure.	Seat not fully engaged after adjustment.	Press the adjustment button and push the seat firmly until you hear a "click".
Child is not engaging with the bike.	Seat height is incorrect or child needs encouragement.	Adjust seat height so child's feet are flat on the ground. Encourage and demonstrate use.

7. Specifications

- **Model Name:** B402
- **Bike Type:** Baby Balance Bike
- **Age Range:** 12-24 Months (Toddler)
- **Color:** White
- **Wheel Size:** 6 Inches
