WiMiUS Q2

WiMiUS Q2 Mini Projector User Manual

Model: Q2

INTRODUCTION

Thank you for choosing the WiMiUS Q2 Mini Projector. This compact and versatile device is designed to provide an immersive viewing experience anywhere. Featuring advanced DLP technology, a built-in rechargeable battery, and an integrated Android TV system, the Q2 offers superior clarity, portability, and smart connectivity for all your entertainment and presentation needs.

Please read this manual thoroughly before using the projector to ensure proper operation and to maximize its lifespan.

PRODUCT OVERVIEW

The WiMiUS Q2 Mini Projector is a compact and lightweight device, designed for portability. It features a durable silver casing with a prominent lens and a control dial on the front. Ventilation grilles are located on the sides to ensure proper heat dissipation. The projector comes with an integrated adjustable stand, allowing for flexible positioning and projection angles.

Key Features:

- **DLP Technology:** Provides vivid images and avoids common issues like black spots or yellow screens found in some LCD projectors.
- **Portable Design:** Extremely compact and lightweight, similar in size to an egg, making it ideal for travel and outdoor use.
- **Built-in Rechargeable Battery:** 5000mAh battery offers up to 2.5 hours of playback, functioning also as a power bank.

- **Smart Keystone Correction:** Auto Vertical $\pm 40^\circ$ keystone correction with manual focus for quick image adjustment.
- **Wireless Connectivity:** Supports 5G/2.4G WiFi and Bluetooth 5.2 for seamless connection with various devices.
- **Integrated Android TV System:** Allows direct download and streaming from popular apps like Netflix, YouTube, and Prime Video without external devices.
- **Versatile Projection:** Projection distance from 0.98-9.8 feet, supporting screen sizes up to 300 inches.

SETUP GUIDE

1. Initial Charging

Before first use, fully charge the projector using the provided DC to USB cable and a compatible power adapter. The charging indicator light will show the charging status.

2. Powering On/Off

- **Power On:** Press and hold the power button on the projector or remote control until the device powers on.
- **Power Off:** Press and hold the power button until the shutdown prompt appears, then confirm.

3. Placement and Projection

Position the projector on a stable surface. The integrated 360° adjustable stand allows you to project onto walls, ceilings, or screens at various angles. The optimal projection distance ranges from 0.98 to 9.8 feet.

The WiMiUS Q2 Mini Projector is shown in an outdoor setting, projecting a movie onto a screen at dusk. Two individuals are seated comfortably, enjoying the projected content, highlighting the projector's suitability for outdoor entertainment and its ability to create a mobile theater experience.

4. Focus and Keystone Correction

- **Manual Focus:** Adjust the focus ring near the lens until the image is sharp and clear.
- **Auto Vertical Keystone:** The projector automatically corrects vertical distortion up to $\pm 40^\circ$.
- **Manual Keystone (if needed):** Use the settings menu to manually adjust horizontal or other keystone parameters for optimal image geometry.

5. Network Connection (WiFi)

1. Go to *Settings* on the projector's main interface.

2. Select *Network & Internet*.
3. Turn on *Wi-Fi* and select your desired network from the list.
4. Enter the Wi-Fi password and connect.

6. Bluetooth Pairing

1. Go to *Settings* on the projector's main interface.
2. Select *Connected Devices* or *Bluetooth*.
3. Turn on *Bluetooth*.
4. Select your Bluetooth device (e.g., speaker, headphones) from the available devices list to pair.

OPERATING INSTRUCTIONS

1. Navigating the Android TV System

The Q2 projector runs on an integrated Android TV system. Use the remote control to navigate the interface. The remote features a touch screen function for improved user experience.

- Use the directional pad to move between icons and options.
- Press the *OK* button to select.
- Press the *Back* button to return to the previous screen.
- Press the *Home* button to return to the main Android TV interface.

2. Downloading Applications

Access the Google Play Store directly from the Android TV interface to download streaming apps such as Netflix, YouTube, Prime Video, and more. Ensure the projector is connected to Wi-Fi.

3. Connecting External Devices

- **HDMI:** Connect devices like laptops, gaming consoles, or Blu-ray players using an HDMI cable. Select the HDMI input source from the projector's input menu.
- **USB:** Insert a USB drive to play media files (photos, videos, audio). Select the USB input source from the projector's input menu.

4. Screen Mirroring (Eshare Function)

The Q2 supports screen mirroring for iOS and Android devices via the Eshare function. Ensure both your device and the projector are connected to the same Wi-Fi network.

1. Open the Eshare application on the projector.
2. On your mobile device, enable screen mirroring (e.g., AirPlay for iOS, Cast for Android).
3. Select the projector from the list of available devices.

Note: Due to copyright restrictions, some streaming services (e.g., Hulu, Netflix) may not allow direct screen mirroring of their content.

5. Audio Output

The projector has a built-in 360° speaker. For enhanced audio, connect external speakers or headphones via Bluetooth as described in the Setup Guide.

MAINTENANCE

1. Cleaning the Lens

Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Do not use abrasive cleaners or excessive force, as this can scratch the lens.

2. Battery Care

- To prolong battery life, avoid fully discharging the battery frequently.
- If storing the projector for an extended period, charge the battery to approximately 50% before storage.
- Recharge the battery every 3-6 months during long-term storage.

3. General Cleaning and Storage

- Wipe the exterior of the projector with a soft, dry cloth.
- Store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.
- Protect the projector from dust and moisture when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No image or blurry image	Incorrect focus; incorrect keystone; input source not selected; cable not connected properly.	Adjust the manual focus ring. Check auto keystone or adjust manually. Ensure the correct input source (HDMI, USB, Android TV) is selected. Verify all cables are securely connected.
No sound	Volume too low; external audio device not connected or paired; mute function active.	Increase the volume. Ensure Bluetooth speakers are correctly paired or HDMI audio is enabled. Check if the projector is muted.
Remote control not responding	Low battery in remote; obstruction between remote and projector; remote too far or not pointed correctly.	Replace remote batteries. Ensure no obstructions. Point the remote directly at the projector's IR receiver. Ensure you are within effective range.
Wi-Fi connection issues or slow app performance	Weak Wi-Fi signal; network congestion; app cache issues.	Ensure the projector is within range of your Wi-Fi router. Restart your router and the projector. Clear the cache for problematic apps in Android TV settings. Consider using a wired connection if possible for critical applications.
Screen mirroring not working	Not on same Wi-Fi network; Eshare app not open; copyright restrictions.	Verify both devices are on the same Wi-Fi network. Open the Eshare app on the projector. Be aware that some copyrighted content cannot be mirrored.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Product Dimensions	13.78 x 11.81 x 1.18 inches
Item Weight	14.4 ounces
Model Number	Q2
Display Technology	DLP
Native Resolution	540P (1080P Support)
Brightness	150 ANSI Lumens
Connectivity	Bluetooth 5.2, Wi-Fi (5G/2.4G), USB, HDMI
Special Features	Wireless, Portable, Built-in Wi-Fi, Android TV System, Auto Vertical Keystone, 360° Adjustable Stand
Battery Capacity	5000mAh
