### JOBY JB01862-BWW

## JOBY Beamo Reel Creator Kit Instruction Manual

Model: JB01862-BWW

### 1. INTRODUCTION AND OVERVIEW

The JOBY Beamo Reel Creator Kit (Model JB01862-BWW) is an integrated solution designed for content creators utilizing smartphones or compact mirrorless cameras. This kit provides essential tools for stable video capture, clear audio recording, and adjustable lighting. It includes a flexible tripod, a smartphone mount, a vlogging microphone, and an LED light.

## 2. PRODUCT COMPONENTS

The Beamo Reel Creator Kit includes the following components:

- **PodZilla Medium Mobile Tripod:** A flexible tripod with bendable legs for versatile positioning.
- **GripTight 360 Phone Mount:** A mount designed to securely hold smartphones and allow for 360-degree rotation.
- **Wavo Mobile Vlogging Microphone:** A compact microphone for enhanced audio capture, compatible with phones and cameras.
- **Beamo Reel LED Light:** An LED light with adjustable brightness and color temperature, featuring a built-in diffuser.
- **Cold Shoe Mount:** For attaching the LED light or microphone to compatible devices.
- **TRS & TRRS Cables:** For connecting the microphone to various devices.
- **Charging Cable:** For the Beamo Reel LED Light.

### 3. SETUP INSTRUCTIONS

- 1. Attach Phone Mount to Tripod:** Secure the GripTight 360 Phone Mount to the top of the PodZilla tripod. Ensure it is tightened to prevent wobbling.
- 2. Insert Smartphone:** Gently expand the phone mount and place your smartphone securely within its grips. The mount allows for both vertical and horizontal orientation.
- 3. Mount Wavo Mobile Microphone:** The microphone can be attached to the cold shoe adapter on the phone mount or directly to a camera with a cold shoe. Connect the appropriate TRS or TRRS cable from the microphone to your recording device's audio input.
- 4. Mount Beamo Reel LED Light:** The LED light can be attached to an available cold shoe slot on the phone mount or camera. Alternatively, it can be used handheld or placed on a flat surface.
- 5. Positioning the Tripod:** Adjust the flexible legs of the PodZilla tripod to achieve the desired height and angle. The legs can be wrapped around objects for secure placement or used as a stable stand on flat surfaces.

## 4. OPERATING INSTRUCTIONS

#### 4.1. Flexible Tripod (PodZilla)

- **Grip It:** Hold the tripod legs together for a comfortable handheld grip.
- **Wrap It:** Bend the flexible legs to securely wrap around poles, branches, or other objects for unique mounting angles.
- **Stand It:** Position the legs to create a stable stand on any flat or uneven surface.
- **Phone Mount Rotation:** The GripTight 360 Phone Mount allows for easy rotation between portrait and landscape modes for diverse content creation.

*Image 4.1: The flexible tripod wrapped around a pole for stable mounting.*

#### 4.2. Wavo Mobile Microphone

- **Connection:** Use the provided TRS cable for cameras or the TRRS cable for smartphones. Ensure the cable is fully inserted into both the microphone and the recording device's audio input.
- **Audio Quality:** The Wavo Mobile microphone is designed to capture clear, crisp audio, enhancing the overall quality of your recordings.

#### 4.3. Beamo Reel LED Light

- **Power On/Off:** Control the light by twisting the rim of the light.
- **Brightness Adjustment:** Continue twisting the rim to adjust the brightness level. This allows for easy control from the front while recording.
- **Color Temperature Selection:** Press the dedicated button to toggle between three color temperature options: warm white (3200K), daylight white (4800K), and cool white (6500K).
- **Built-in Diffuser:** The integrated diffuser provides soft, even lighting, reducing harsh shadows.
- **Battery Life:** The light offers up to 7 hours of operation at 50% brightness. Recharge using the provided charging cable.

*Image 4.2: The Beamo Reel LED light offers three distinct color temperature settings.*

## 5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the tripod, microphone, and LED light. Avoid abrasive cleaners or solvents.
- **Storage:** Store the kit in a cool, dry place away from direct sunlight and extreme temperatures.

- **Battery Care:** For optimal battery life, fully charge the Beamo Reel LED Light before first use and periodically if not used for extended periods.

## 6. TROUBLESHOOTING

- **No Audio from Microphone:** Ensure the correct TRS/TRRS cable is used and fully connected. Check your device's audio input settings.
- **LED Light Not Turning On:** Verify the battery is charged. Connect the charging cable and allow sufficient time for charging. Ensure the rim is twisted correctly to power on.
- **Unstable Tripod:** Ensure the flexible legs are properly positioned and gripping the surface or object. Tighten all connections, especially the phone mount to the tripod.

## 7. SPECIFICATIONS

Feature	Detail
Brand	JOBY
Model Number	JB01862-BWW
Manufacturer	JOBY
Package Dimensions	28.19 x 19 x 5.89 cm
Item Weight	680 g
Batteries	1 Lithium Ion battery (included)
Battery Life (LED Light)	Up to 7 hours (at 50% brightness)
Connectivity Technology	USB
Hardware Interface	USB
Compatible Shoe Mount Type	Cold Shoe
