SUNKTA BW1846B

SUNKTA BW1846B Smartwatch User Manual

Model: BW1846B

INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your SUNKTA BW1846B Smartwatch. Please read this manual carefully to ensure proper use and to maximize the performance of your device.

A: En primer lugar, asegúrate de conectar nuestro smartwatch a través de la App "FitCloudPro".

- 

1 Enciende el Bluetooth de tu teléfono
- 

2 Abre "Google Play" o "App Store".
- 

3 Busca la App "FitCloudPro" y descárgatela.
- 

4 Abre la aplicación, haz clic en "Dispositivos", busca el K-52 y emparejalo.

B: Conecta el audio Bluetooth en el smartwatch para utilizar la función responder/llamar. (Bluetooth de un toque)

- 

1 Abre el smartwatch, desplázate por el menú y abre el icono de la función "Llamar".
- 

2 Abra "Ajustes" y vaya a la pantalla "Bluetooth";
- 

3 Busca K-52 y haz clic en conectar
- 

4 Después de la conexión con éxito, usted puede contestar / hacer llamadas con su smartwatch en cualquier momento

Image: The SUNKTA BW1846B Smartwatch, designed for outdoor use with a long-lasting 400mAh battery, energy-saving mode, Bluetooth One Touch, split screen, two watch straps, and a 30-second screen-on time. It boasts military-grade quality for extreme adventures.

SETUP GUIDE

1. Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge typically takes 1-2 hours.

Image: The magnetic charging cable, two interchangeable straps (one metal, one silicone), and the smartwatch packaging. The image highlights the 400mAh battery capacity, 1-2 hour charging time, 15-20 day standby time, and 5-10 day usage duration.

2. Installing the Straps

Your smartwatch comes with two straps: a metal strap and a silicone strap. Choose your preferred strap and attach it to the watch body. For the metal strap, use the provided link adjustment tool to achieve a comfortable fit on your wrist.

- **Metal Strap:** Use the included jeweler's vice to remove or add links until the strap fits securely but comfortably.
- **Silicone Strap:** Easily attach and detach using the quick-release pins.

3. App Download and Initial Connection

To unlock all features, download and install the "FitCloudPro" app on your smartphone.

1. **Enable Bluetooth:** Turn on Bluetooth on your smartphone.
2. **Download App:** Search for "FitCloudPro" in the Google Play Store (for Android) or Apple App Store (for iOS) and download it.
3. **Open App & Grant Permissions:** Launch the "FitCloudPro" app and grant all necessary permissions for optimal functionality.
4. **Connect Device:** In the app, navigate to the "Device" section, search for your smartwatch (e.g., "K-52"), and pair it.

Image: A four-step guide illustrating how to connect the smartwatch to the "FitCloudPro" app. Steps include enabling phone Bluetooth, downloading the app, opening the app and granting permissions, and finally pairing the device in the app's device section.

4. Bluetooth Audio Connection for Calls

After the initial app connection, establish a separate Bluetooth audio connection for call functionality.

1. **On Smartwatch:** Open the smartwatch menu, scroll, and tap the "Call" icon to activate Bluetooth audio.
2. **On Smartphone:** Go to your phone's Bluetooth settings.
3. **Connect Audio:** Find "K-52" (or similar device name) in the list of available devices and tap to connect.
4. **Confirm Connection:** Once connected, you can answer/make calls directly from your smartwatch.

Image: A four-step guide demonstrating how to connect the smartwatch for Bluetooth calls. Steps include activating the call function on the smartwatch, accessing phone Bluetooth settings, connecting to the smartwatch's audio profile (e.g., "K-52"), and confirming the ability to make/receive calls.

OPERATING INSTRUCTIONS

1. Basic Navigation

- **Power On/Off:** Press and hold the power button (usually the top right button).
- **Screen On/Off:** Press the power button briefly or raise your wrist (if enabled).
- **Back:** The bottom right button typically functions as a 'back' button.
- **Swipe Gestures:**
 - **Swipe Left/Right:** Access various widgets or quick functions.
 - **Swipe Up/Down:** Access notifications or quick settings.
 - **Tap:** Select an item or open an application.
 - **Long Press:** On the watch face, long-press to change the watch face.

2. Bluetooth Calls and Notifications

Once connected via Bluetooth audio, you can manage calls and receive notifications directly on your smartwatch.

- **Making Calls:** Use the dial pad on the watch or access your synced contacts to make calls.
- **Receiving Calls:** Answer or reject incoming calls directly from the watch screen.
- **Notifications:** Receive alerts for text messages, social media apps (Facebook, WhatsApp, LinkedIn, Instagram, Twitter, etc.), and other app notifications via vibration. *Note: You cannot reply to messages directly from the watch.*
- **Music Playback:** Control music playing on your phone through the smartwatch.

The image also depicts various social media icons (Twitter, WhatsApp, Instagram, Facebook, LinkedIn) indicating message notification capabilities. A smartphone screen shows an incoming call being handled by the smartwatch.

3. Customizing Watch Faces

Personalize your smartwatch by changing the watch face.

- **On Watch:** Long-press the current watch face to access pre-installed options.
- **Via App:** Open the "FitCloudPro" app to browse and download additional watch faces. You can also customize some watch faces with your own photos.

4. Sports Modes and Activity Tracking

The smartwatch offers over 100 sports modes to track your physical activities.

- **On Watch:** Access 20 built-in sports modes directly from the watch.
- **Via App:** In the "FitCloudPro" app, go to "Device" -> "Sports Push" to download and add more than 100 additional sports modes to your watch, including regular sports, dancing, equipment training, combat sports, ball sports, skating, and basic exercises.
- **Tracking Metrics:** Monitor steps, distance, calories burned, and heart rate during your workouts.

PERSONALIZAR la ESFERA del RELOJ

Múltiples Esferas para Elegir

5. Health Monitoring

Monitor your health metrics directly from your wrist.

- **Heart Rate Monitor:** Track your heart rate continuously or on demand.
- **Sleep Monitor:** Analyze your sleep patterns, distinguishing between awake, light, and deep sleep stages.
- **Blood Pressure & Blood Oxygen:** The watch provides estimations for blood pressure and blood oxygen levels.

Note: These features are for reference only and not intended for medical diagnosis or treatment.

Previsión meteorológica

Puedes consultar el tiempo actual en tiempo real con tu smartwatch para hombre. Esto te ayudará a organizar tu agenda y estar preparado para imprevistos.

Bloqueo con código

Equipado con el chip más avanzado, podrás usarlo con mayor confianza. Conviértelo en tu smartwatch personal configurando un código de acceso en tu smartwatch.

Varias funciones

Otras funciones útiles: previsión meteorológica, ajuste del brillo, linterna, entrenamiento respiratorio, cronómetro, alarma, recordatorio de asiento, recordatorio de bebida, buscador de relojes y mucho más.

Image: A person sleeping while wearing the smartwatch, which displays sleep duration and stages (Awake Sleep, Light Sleep, Deep Sleep). Icons for heart rate monitoring and blood pressure monitoring are also shown, indicating comprehensive health tracking capabilities.

6. Other Functions

The smartwatch includes several other useful features:

- **Weather Forecast:** Check real-time weather conditions.
- **Code Lock:** Secure your smartwatch with a personal access code.
- **Flashlight:** Use the screen as a light source.
- **Stopwatch & Alarm:** Standard timekeeping functions.
- **Sedentary Reminder:** Get alerts to move after periods of inactivity.
- **Drink Reminder:** Reminders to stay hydrated.
- **Find Watch:** Locate your smartwatch if misplaced (via the app).

MAINTENANCE

1. Battery Care

To prolong battery life and prevent damage:

- Avoid letting the battery drain completely below 5%.
- It is recommended to recharge the watch when the battery level drops below 20%.
- Use the provided magnetic charging cable.

2. Water Resistance (IP67)

The smartwatch is IP67 water-resistant, meaning it is protected against dust and can withstand immersion in water up to 1 meter for up to 30 minutes.

- It is suitable for daily use, such as washing hands or light rain.
- Avoid wearing it during swimming, diving, or showering with hot water, as steam and high pressure can compromise the seal.

3. Cleaning

Wipe the watch screen and body with a soft, dry cloth. For the silicone strap, you can use a damp cloth. Avoid using harsh chemicals or abrasive materials.

TROUBLESHOOTING

1. Smartwatch Not Connecting to App/Bluetooth

- Ensure Bluetooth is enabled on your phone and the smartwatch.
- Make sure the "FitCloudPro" app has all necessary permissions granted.
- Restart both your phone and the smartwatch.
- Unpair the device from your phone's Bluetooth settings and re-attempt the connection process through the app.
- Check if the smartwatch battery is sufficiently charged.

2. Screen Not Turning On with Wrist Raise

- Check the smartwatch settings to ensure the "Raise to Wake" feature is enabled.
- Ensure the watch is worn snugly on your wrist.
- The feature might be temporarily disabled in power-saving mode or if the battery is very low.

3. Not Receiving Notifications

- Verify that the smartwatch is properly connected to the "FitCloudPro" app.
- Check notification permissions in your phone's settings for the "FitCloudPro" app.
- Ensure notification push is enabled within the "FitCloudPro" app for specific applications (e.g., WhatsApp, Facebook).
- If the app is connected to a computer, notifications may not be pushed to the watch.
- Ensure "Do Not Disturb" mode is not active on either your phone or smartwatch.

4. Inaccurate Health Data

- Ensure the watch is worn correctly, not too loose or too tight, and positioned on the wrist bone.
- Clean the sensor on the back of the watch.
- Environmental factors or movement during measurement can affect accuracy.
- Remember that health monitoring data is for reference only and not for medical use.
