Bunfly PC-S2

Bunfly Dog Hair Vacuum Grooming Kit PC-S2 Instruction Manual

Comprehensive guide for the setup, operation, and maintenance of your Bunfly PC-S2 Pet Grooming Vacuum.

1. INTRODUCTION

The Bunfly PC-S2 Dog Hair Vacuum Grooming Kit is designed to provide a comprehensive solution for pet grooming and household cleaning. This multi-functional device integrates grooming tools with a powerful vacuum system to capture pet hair efficiently.

Image 1.1: Overview of the Bunfly Dog Hair Vacuum Grooming Kit and its included accessories.

1.1 Package Contents

Your Bunfly PC-S2 kit includes the following components:

- Main Vacuum Unit with 3.5L Dust Cup

2. SAFETY INFORMATION

Warning:

The thermal protection of the motor is set to 105 degrees Celsius. Ensure the pet's hair is dry before use and monitor the machine's heat dissipation to prolong its lifespan. This product is intended for pet grooming and cleaning pet hair. Use only as directed.

3. SETUP AND ASSEMBLY

Follow these steps to assemble your Bunfly PC-S2 Grooming Kit:

1. Unpack all components from the packaging.
2. Connect the flexible hose to the main vacuum unit's suction port. Ensure it clicks securely into place.
3. Select the desired grooming tool (e.g., grooming brush, clippers) and attach it to the end of the flexible hose. The attachments are designed for easy interchangeability.
4. Ensure the dust cup is properly seated and locked onto the main unit.
5. Plug the power cord into a suitable electrical outlet.

Image 3.1: The 5.2ft premium hose provides ample reach for comfortable grooming.

4. OPERATING INSTRUCTIONS

4.1 General Operation

Before starting, ensure your pet is calm and comfortable. It is recommended to introduce the device slowly, especially for pets sensitive to noise. Start on the lowest suction setting.

- Press the power button to turn on the unit.
- Adjust the suction power as needed. The device features low noise technology (as low as 50dB) to minimize pet anxiety.
- Gently apply the chosen grooming tool to your pet's coat.

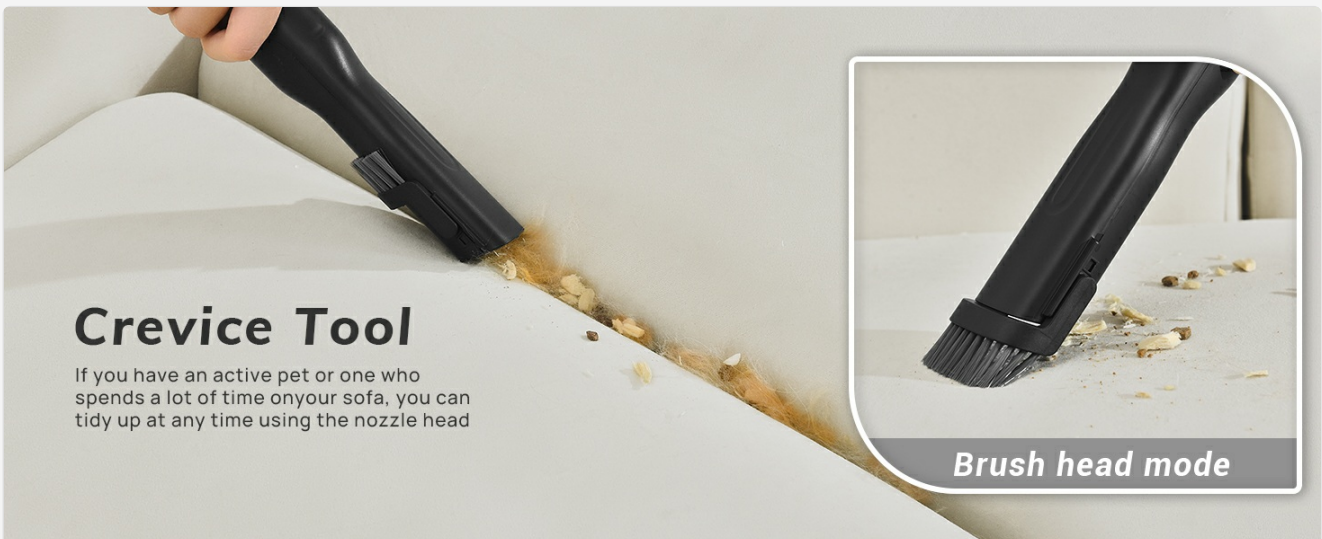

Image 4.1: The Bunfly PC-S2 operates at approximately 50dB, designed to be less startling for pets.

4.2 Using Grooming Tools

The kit includes various tools for different grooming needs:

- **Grooming Brush:** Ideal for removing loose hair and detangling. The vacuum suction captures shed hair directly.
- **Electric Clippers:** Attach the desired guide comb (3mm, 6mm, 9mm, 12mm, 18mm, 24mm) for precise hair

length. The vacuum helps pull hair for an even cut.

- **Local Blade Attachment:** Use for trimming smaller, sensitive areas like paws.
- **Nail Grinding Attachment:** For safely and gently grinding pet nails.
- **Hair Remover Roller:** For cleaning pet hair from furniture, clothing, and other surfaces.
- **Crevice Tool:** Designed for cleaning dust and pet hair from tight spaces, corners, and upholstery.

5. MAINTENANCE

5.1 Emptying the Dust Cup

The Bunfly PC-S2 features a 3.5-liter dust cup, reducing the frequency of emptying. To empty:

1. Ensure the unit is turned off and unplugged.
2. Locate the quick-release button on the dust cup.
3. Press the button to unlock and remove the dust cup from the main unit.
4. Position the dust cup over a waste bin and open its lid to dispose of collected hair and debris.
5. Close the lid and reattach the dust cup to the main unit, ensuring it locks securely.

Larger Capacity

Wind repeatedly circulate to compress hair, 3.5L Large-capacity Collecting Bin for One-time & No-touch Emptying

Image 5.1: The 3.5L large-capacity dust cup minimizes emptying frequency.

A comparison between an integrated pet grooming machine and traditional home grooming tools. On the left, a woman in a yellow shirt and brown pants is kneeling on a rug, grooming a golden retriever with a black grooming machine. On the right, a woman in a white shirt and grey skirt is kneeling on a rug, grooming a golden retriever with a traditional comb and brush. A large white circle with 'VS' in black text is in the center. Below the images are two text boxes: 'Integrated pet grooming machine' and 'Traditional home grooming tools'.

Integrated pet grooming machine
Make Grooming at Home Easy, Save Money and Effort

VS

Traditional home grooming tools
Create a lot of mess and distress for you and your pet.

Image 5.2: One-click unlock feature for touch-free dust cup emptying.

5.2 Cleaning Filters and Tools

- Regularly clean the internal filters of the vacuum unit to maintain optimal suction performance. Refer to the filter compartment for removal and cleaning instructions.
- After each use, remove any hair or debris from the grooming tools using the provided cleaning brush.
- For clippers, apply a small amount of lubricating oil (included) to the blades to ensure smooth operation and longevity.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Unit not plugged in; power outlet malfunction; power button not pressed.	Ensure the power cord is securely plugged into a working outlet. Press the power button.
Low suction power	Dust cup full; filters clogged; hose or attachment blocked.	Empty the dust cup. Clean or replace filters. Check hose and attachments for blockages.
Clippers not cutting effectively	Blades dull or dirty; insufficient lubrication; hair is wet.	Clean blades and apply lubricating oil. Ensure pet's hair is dry.
Pet is anxious about noise	Initial exposure to the device.	Start on the lowest suction setting. Introduce the device gradually. Offer treats and positive reinforcement.
