## 1. INTRODUCTION

---

Welcome to the anyloop Smart Watch user manual. This guide provides essential information for setting up, operating, and maintaining your new smart watch. Please read this manual thoroughly to ensure optimal performance and longevity of your device.

## 2. WHAT'S IN THE BOX

---

Verify that all items are present in your package:

- anyloop Smart Watch
- Charge Cable
- Microphone (integrated)
- Audio (integrated)
- User Manual

The anyloop Smart Watch and its included charging cable, as found in the product packaging.

### 3. PRODUCT OVERVIEW

---

#### 3.1 Display

The anyloop Smart Watch features a vibrant 1.96-inch AMOLED display with a 410x502 retina resolution and 350 nits brightness, ensuring clear visibility even in direct sunlight.

## EIGHT REASONS TO CHOOSE anyloopW8

The watch features an ultra-large AMOLED display for a superior visual experience.

### 3.2 Design

The watch is designed with a high-quality metal curved body, providing a premium and durable feel. The sleek design ensures comfort during wear.

Your browser does not support the video tag. This video provides an overview of the anyloop Smart Watch, highlighting its features and design. It shows the watch's display, various functions, and its sleek metal case.

## 4. SETUP

### 4.1 Initial Charging

Before first use, fully charge your smart watch. Connect the included charging cable to the watch and a power source. A 10-minute charge can provide up to one day of battery life, and a full charge typically lasts up to 7 days with everyday use.

The watch display indicates a full battery charge, ready for extended use.

### 4.2 App Installation & Pairing

Download the **OnWear Pro** application from your smartphone's app store. The app is compatible with Android 6.0+ and iOS 12.0+ devices. Follow the in-app instructions to pair your smart watch via Bluetooth for full

functionality and data synchronization.

## 5. OPERATING INSTRUCTIONS

### 5.1 Bluetooth Calls & Notifications

Once paired with your smartphone, the smart watch allows you to answer and make calls directly from your wrist. You will also receive notifications for SMS messages and various applications such as Text, Facebook, WhatsApp, Instagram, X, Telegram, Tiktok, and Skype.

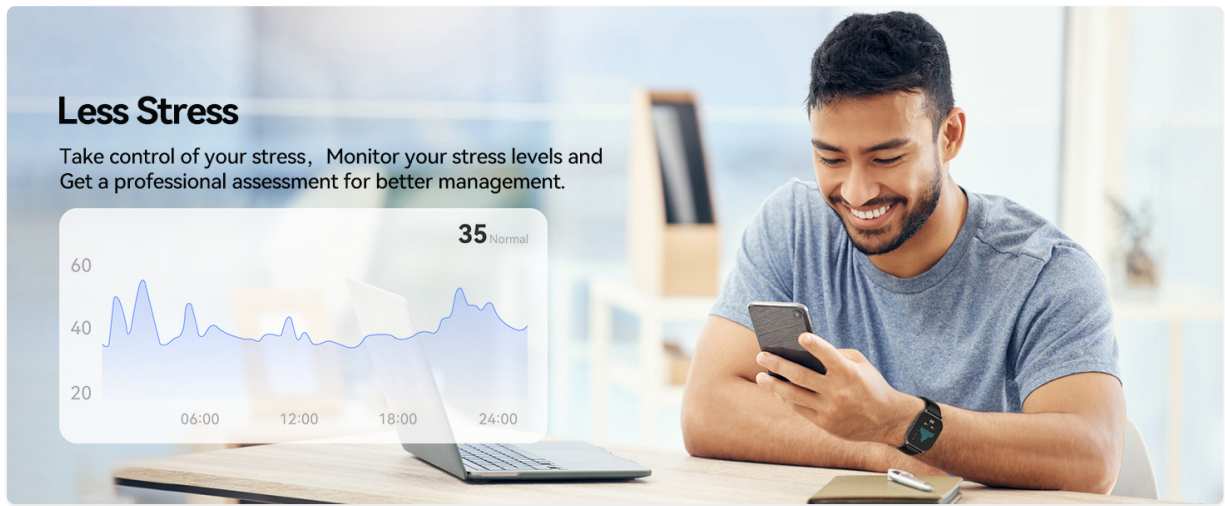

The smartwatch enables on-wrist Bluetooth calls and message notifications.

The watch supports Bluetooth phone calls, allowing you to answer, make calls, and access contacts.

## Less Stress

Take control of your stress, Monitor your stress levels and Get a professional assessment for better management.

Receive message notifications from popular apps directly on your wrist.

## 5.2 Watch Face Customization

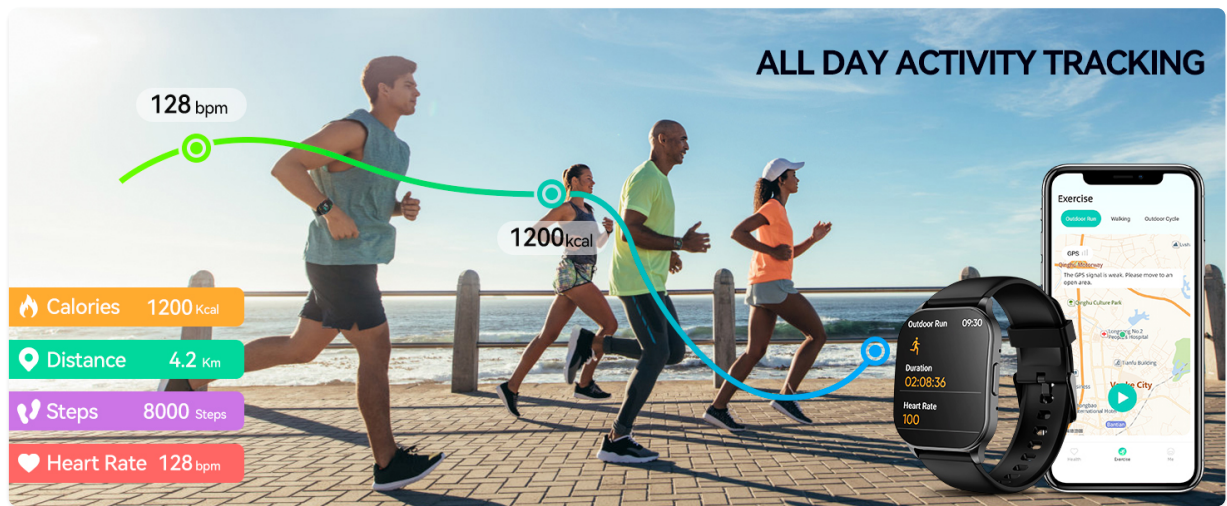

Personalize your smart watch with over 100 watch faces available through the OnWear Pro app. You can also use your own photos to create custom watch faces.

Choose from over 100 built-in watch faces or customize your own style dial via the OnWear Pro app.

## 6. HEALTH TRACKING FEATURES

The anyloop Smart Watch utilizes high-performance optical sensors and a curved watch body for accurate health monitoring.

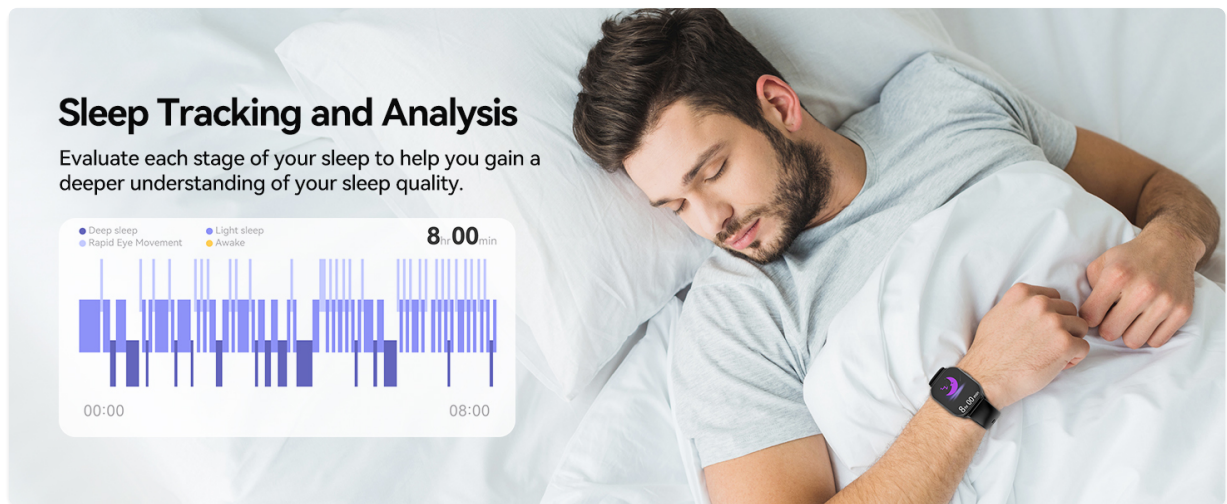

## ALL DAY ACTIVITY TRACKING

- Calories 1200 Kcal
- Distance 4.2 Km
- Steps 8000 Steps
- Heart Rate 128 bpm

The smartwatch provides all-round health management, including 24H Heart Rate, Stress Level Monitoring, SpO2 Monitoring, and Sleep Quality Tracking.

### 6.1 Heart Rate Monitoring

Monitor your heart rate 24/7. The watch provides real-time data and can notify you of irregular rhythms.

### Sleep Tracking and Analysis

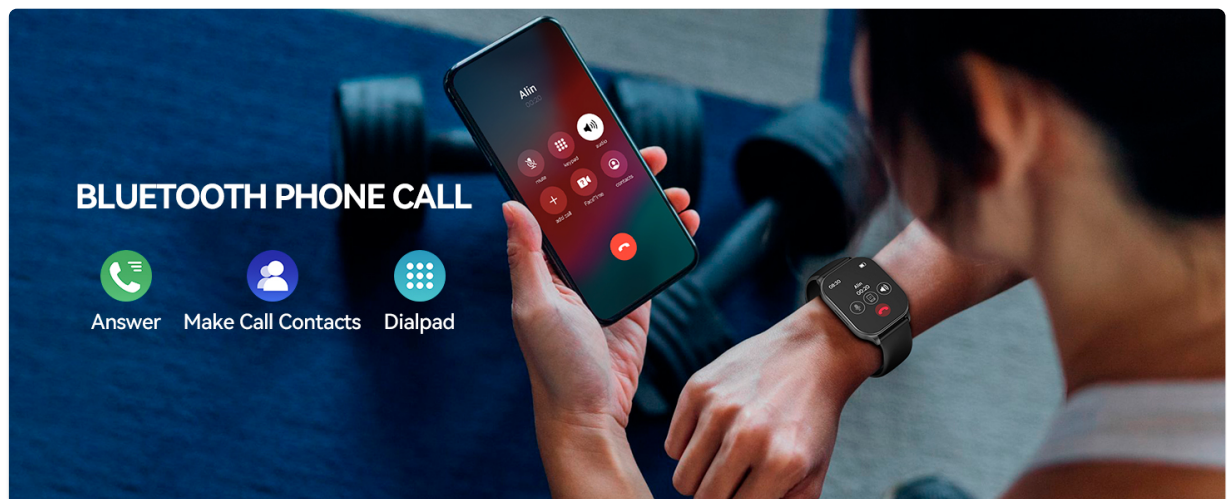

Evaluate each stage of your sleep to help you gain a deeper understanding of your sleep quality.

All-day heart rate monitoring provides insights into your cardiovascular health.

### 6.2 Blood Oxygen (SpO2) Monitoring

Get real-time measurements of your blood oxygen levels to help you stay healthy and active.

### BLUETOOTH PHONE CALL

- Answer
- Make Call Contacts
- Dialpad

The watch provides real-time blood oxygen measurements for health insights.

## 6.3 Sleep Quality Tracking

The watch evaluates each stage of your sleep (deep sleep, light sleep, REM, awake) to provide a detailed understanding of your sleep quality.

### MESSAGE NOTIFICATION

Easy access to APP and SMS notifications on the wrist

Detailed sleep tracking and analysis helps you understand and improve your sleep quality.

## 6.4 Stress Monitoring

Monitor your stress levels and receive professional assessments for better management.

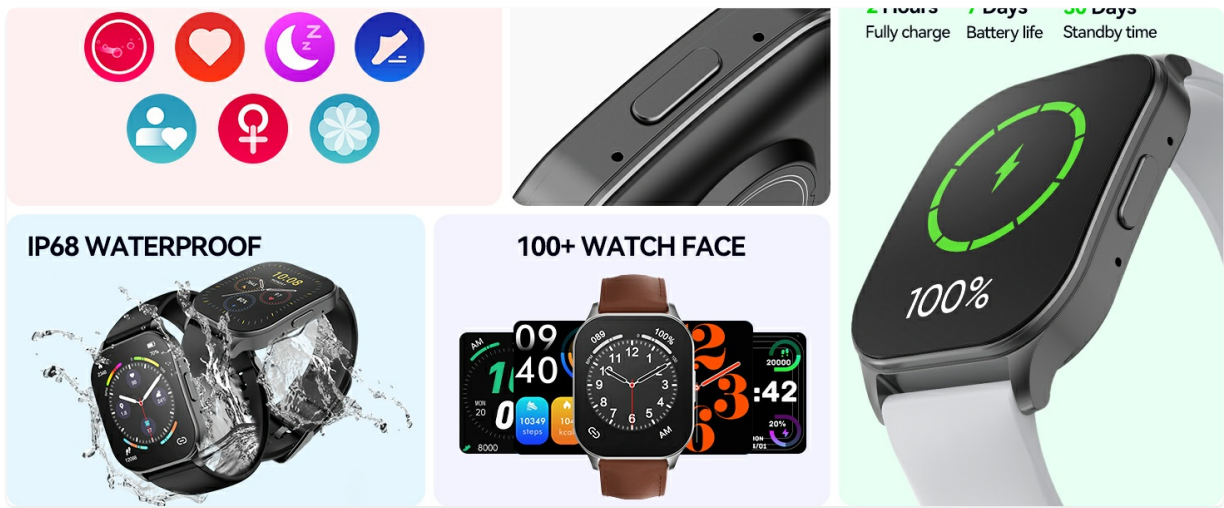

100+

Built in watch faces in OnWear Pro app  
22mm Detachable watch band  
Customize your style dial.

The watch helps you take control of your stress by monitoring levels and providing assessments.

## 7. SPORTS MODES

The smart watch supports over 100 sports modes, including Running, Walking, Hiking, Badminton, Basketball, Boating, Climbing, Cycling, Fitness, Football, Swimming, and Yoga. Use the OnWear Pro app to select and track your preferred activities, monitoring steps, distances, and calories burned.

The smartwatch functions as an all-day activity tracker, monitoring various sports and daily metrics.

Access over 100 sport modes through the app to optimize your training.

## 8. WATER RESISTANCE

The anyloop Smart Watch has an IP68 waterproof rating, making it suitable for activities like swimming, washing hands, and use in the rain. It is **not** recommended for use in hot water environments or for diving.

The IP68 waterproof rating ensures the smartwatch can withstand water exposure during daily activities.

## 9. BATTERY LIFE AND CHARGING

The smart watch offers up to 7 days of battery life with typical daily use. It supports fast charging, allowing for approximately one day of use after just 10 minutes of charging. Ensure the watch is fully charged before its first use to maximize battery performance.

## 11. MAINTENANCE

---

To ensure the longevity and optimal performance of your anyloop Smart Watch, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the watch screen and strap with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the watch in a cool, dry place when not in use. Avoid direct sunlight and extreme temperatures.
- **Avoid Impact:** While durable, avoid dropping the watch or subjecting it to strong impacts.
- **Charging:** Use only the provided charging cable. Do not expose the watch to fire or corrosive liquids during charging.

## 12. TROUBLESHOOTING

---

If you encounter issues with your smart watch, refer to the following common problems and solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 10 minutes.
- **Cannot pair with phone:** Ensure Bluetooth is enabled on your phone and the watch. Restart both devices and try pairing again through the OnWear Pro app.
- **Notifications not received:** Check app permissions on your phone to ensure the OnWear Pro app has

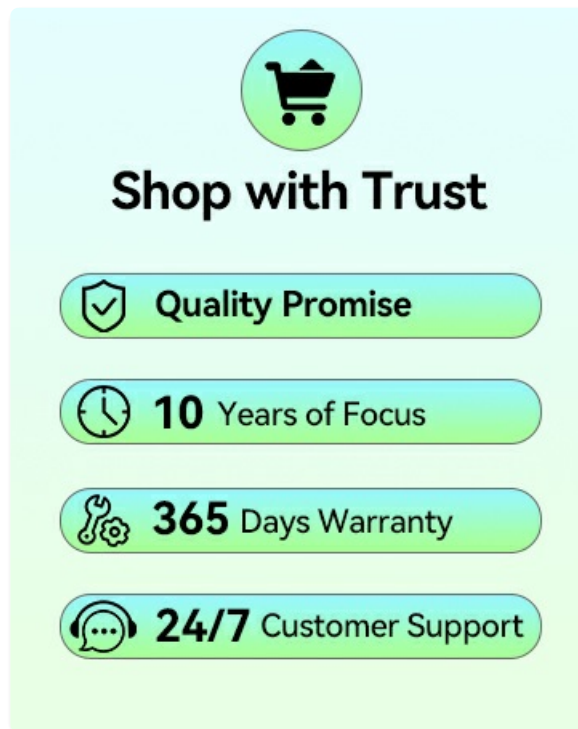

access to notifications. Verify that notifications are enabled within the watch settings.

- **Inaccurate step count:** Ensure the watch is worn snugly on your wrist. Calibrate the activity tracker in the OnWear Pro app if available.
- **Screen not waking on tap:** Check the watch settings for 'Raise to Wake' or 'Tap to Wake' features and ensure they are enabled. Alternatively, use the side button to wake the screen.
- **Watch shutting down unexpectedly:** Ensure the battery is sufficiently charged. If the issue persists, contact customer support.

## 13. WARRANTY AND SUPPORT

---

Your anyloop Smart Watch comes with a **1-year warranty**. We also provide **24/7 lifetime technical support** for any issues or questions you may have. Please feel free to reach out to our customer service team for assistance.

The graphic features a light blue background with a shopping cart icon in a circle at the top. Below it, the text "Shop with Trust" is centered. Four rounded rectangular buttons are stacked vertically, each with an icon and text: a shield icon for "Quality Promise", a clock icon for "10 Years of Focus", a gear icon for "365 Days Warranty", and a speech bubble icon for "24/7 Customer Support".

anyloop's commitment to quality, experience, warranty, and customer support.
