› User Manual: TORRAS Magnetic Slim Fit Case for iPhone 15

TORRAS iPhone 15 6.1 inch

User Manual: TORRAS Magnetic Slim Fit Case for iPhone 15

Model: iPhone 15 6.1 inch

PRODUCT OVERVIEW

The TORRAS Magnetic Slim Fit Case is designed specifically for the iPhone 15 (6.1-inch screen with 2 cameras). This ultra-thin case provides robust protection while maintaining the phone's sleek profile. It features strong integrated magnets for enhanced MagSafe compatibility and efficient wireless charging.

SETUP AND INSTALLATION

To install the TORRAS Magnetic Slim Fit Case on your iPhone 15, follow these steps:

1. Ensure your iPhone 15 is clean and free of dust or debris.
2. Align the top edge of your iPhone with the top edge of the case, ensuring the camera cutouts match.
3. Gently press the phone into the case, starting from the top corners, then working your way down to snap the bottom corners into place.
4. Verify that all edges of the phone are securely seated within the case and that all buttons are accessible and functional.

To remove the case, gently peel back one of the top corners near the camera module and carefully work your way around the edges until the phone can be lifted out.

OPERATING FEATURES

MagSafe Compatibility and Magnetic Strength

The TORRAS Slim Fit Case is equipped with 38 N56 super-strong magnets, providing a magnetic strength of 19N. This is significantly stronger than standard magnetic cases (typically 8N), ensuring a secure attachment to all MagSafe accessories. The embedded magnetic ring is designed for durability and will not fall off or crack.

Figure 2: Illustration of the superior magnetic strength (19N) and ultra-thin profile (0.03 inch) of the TORRAS case compared to standard magnetic cases.

This enhanced magnetic array allows for incredibly faster wireless charging speeds with Qi-certified 20W chargers and ensures a strong, reliable hold with various MagSafe accessories, including leather wallets, wireless charging stands, power banks, and in-

car mounts.

Ultra-Thin Design and Grip

Weighing only 23g and measuring 0.03 inches in thickness, this case is designed to be barely noticeable, preserving the original slim feel of your iPhone 15. Its pocket-friendly design ensures no added bulk.

Protection Features

The case offers sturdy daily protection with a raised 1.0mm lip for screen protection (including an extra 0.15mm design on the four corners for 2023 models) and a 1.2mm camera protection lip. It incorporates an X-shock 4.0 design in all four corners for enhanced shock absorption. The material used is an upgraded 150%-flexibility Bayer Material, known for its high strength and impact resistance.

Sturdy Protection for Daily Drop

Resist Impact with 360° All-Round DE Bayer Material by improving its Flexibility to **150%**

MAINTENANCE AND CARE

To ensure the longevity and appearance of your TORRAS Magnetic Slim Fit Case, follow these maintenance guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth. For stubborn smudges, a small amount of mild soap can be used, followed by wiping with a clean, damp cloth and drying thoroughly. Avoid harsh chemicals or abrasive cleaners, as these can damage the case's finish.
- **Avoid Extreme Temperatures:** Do not expose the case to extreme heat or cold, as this may affect the material's integrity and the magnetic properties.

- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

If you encounter any issues with your TORRAS Magnetic Slim Fit Case, please refer to the following common solutions:

- **Case does not fit my iPhone:** Ensure you have the correct model. This case is specifically designed for the iPhone 15 (6.1-inch screen with 2 cameras). Please double-check your phone model before purchasing.
- **MagSafe accessories do not attach securely:** Verify that the MagSafe accessory is properly aligned with the magnetic ring on the case. Ensure there are no foreign objects or debris between the case and the accessory that might interfere with the magnetic connection. The case features strong N56 magnets (19N), so a weak connection is unlikely unless obstructed.
- **Wireless charging is slow or not working:** Ensure your wireless charger is Qi-certified and properly aligned with the phone's charging coil through the case. The case is designed for optimal wireless charging, but charger quality and alignment are crucial.
- **Case appears dirty or smudged:** Follow the cleaning instructions in the "Maintenance and Care" section. The case's nano-coating is designed to resist fingerprints and smudges, but regular cleaning is recommended.

If these solutions do not resolve your issue, please contact TORRAS customer support for further assistance.

SPECIFICATIONS

Product Dimensions	2.99 x 1.73 x 0.5 inches
