The desk is designed for easy assembly and typically ships in a single package. The motor is often pre-attached to the frame for convenience.

### 3. SETUP INSTRUCTIONS

Follow these steps to assemble your FLEXISPOT standing desk. An installation video may be available on the manufacturer's website for visual guidance.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Desk Frame:** Attach the desk legs to the crossbar. Ensure all connections are secure using the provided screws and tools.
3. **Install Desktop:** Place the desktop onto the assembled frame. Align the pre-drilled holes on the desktop with the mounting points on the frame. Secure the desktop with the appropriate screws.
4. **Connect Control Box and Keypad:** Mount the control box and keypad to the underside of the desktop in the designated locations. Connect the motor cables and keypad cable to the control

box.

5. **Attach Side Hooks:** Install the side storage hooks to the desired locations on the desk frame.
6. **Cable Management:** Use the provided wire management grommets and ties to organize cables for a tidy workspace.
7. **Power Connection:** Connect the power adapter to the control box and then plug it into a wall outlet.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your standing desk.

- **Cleaning:** Wipe the desktop and frame with a soft, damp cloth. Avoid harsh chemicals or

abrasive cleaners that could damage the finish.

- **Check Connections:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary.
- **Cable Management:** Ensure cables are not pinched or tangled, which could affect desk movement or cause damage.
- **Weight Distribution:** Distribute weight evenly across the desktop to prevent strain on the motor and frame.

## 7. TROUBLESHOOTING

If you encounter issues with your FLEXISPOT standing desk, refer to the following common troubleshooting steps:

### Common Issues and Solutions

- **Desk Not Moving:**
  - Check if the power cable is securely plugged into both the desk and the wall outlet.
  - Ensure all cables connecting the motor, control box, and keypad are properly seated.
  - Try resetting the desk by unplugging it for 30 seconds and then plugging it back in.
- **Uneven Movement:**
  - Ensure the desk is on a level surface.
  - Check for any obstructions under or around the desk legs.
  - Verify that all frame components are securely tightened.
- **Error Codes on Display:**
  - Refer to the specific error code in the full user manual (if provided separately) or contact customer support for assistance.
- **Desk Stops During Adjustment:**
  - This may be due to the anti-collision feature. Check for any objects in the desk's path.
  - If the desk is overloaded, remove some weight and try again.

If these steps do not resolve the issue, please contact FLEXISPOT customer support.
