KRUX KRX0138

KRUX Qara 60% White Mechanical Keyboard User Manual

Model: KRX0138

1. INTRODUCTION

Thank you for choosing the KRUX Qara 60% White Mechanical Keyboard. This manual provides essential information for setting up, operating, and maintaining your new keyboard. Please read this manual thoroughly before use to ensure optimal performance and longevity of your device.

2. PRODUCT OVERVIEW

The KRUX Qara 60% White is a compact mechanical keyboard designed for efficiency and performance. It features durable Outemu Red mechanical switches and customizable zone RGB backlight.

2.1 Key Features

- Mechanical Outemu Switches: Provides a smooth and responsive typing experience.
- Tournament Size (60% Layout): Compact design saves desk space while retaining essential keys.
- Comfort and Smoothness: Engineered for comfortable and fluid keystrokes.
- Keyboard Height Adjustment: Allows for ergonomic positioning.
- Zone RGB Backlight: Customizable lighting zones for enhanced aesthetics and visibility.

2.2 Product Components

Figure 2.2: Angled view of the KRUX Qara 60% White Mechanical Keyboard, highlighting the white keycaps and the subtle RGB backlighting along the bottom edge.

Figure 2.3: Rear view of the KRUX Qara 60% White Mechanical Keyboard, showing the product label with model number KRX0138 and adjustable feet.

3. SETUP

1. **Unpack the Keyboard:** Carefully remove the KRUX Qara 60% keyboard from its packaging. Ensure all components are present.

2. **Connect to Computer:** Locate the USB-A cable attached to the keyboard. Insert the USB-A connector into an available USB port on your computer (desktop or laptop).

3. **Driver Installation:** The keyboard is plug-and-play. Your operating system (Windows, macOS, Linux) should automatically detect and install the necessary drivers. No manual driver installation is typically required.

4. **Adjust Height:** Flip the keyboard over and extend the adjustable feet on the back if you prefer an angled typing position.

5. **Initial Test:** Open a text editor or web browser and type to confirm the keyboard is functioning correctly.

4. OPERATING INSTRUCTIONS

4.1 Basic Operation

The KRUX Qara 60% keyboard operates like a standard keyboard. Due to its compact 60% layout, some functions are accessed via function (Fn) key combinations.

4.2 Function Key Combinations (Fn)

To access secondary functions printed on the keycaps, press and hold the **Fn** key (located near the bottom right) and then press the desired key.

- **Fn + [Number Row]:** Accesses F1-F12 functions. For example, Fn + 1 = F1.
- **Fn + [P, {, }]:** Media controls (Play/Pause, Previous Track, Next Track).
- **Fn + [K, L, ;]:** Volume controls (Mute, Volume Down, Volume Up).

- **Fn + [U, I, O]:** Navigation keys (Print Screen, Scroll Lock, Pause).
- **Fn + [J, K, L]:** Home, End, Page Up, Page Down.
- **Fn + [Arrow Keys]:** Specific arrow key functions may be integrated depending on the layout.

4.3 Backlight Control

The KRUX Qara 60% features Zone RGB Backlight. Use the following Fn key combinations to control the lighting:

- **Fn + [Key with Sun Icon]:** Cycle through different backlight modes/effects.
- **Fn + [Key with Brightness Up/Down Icon]:** Adjust backlight brightness levels.
- **Fn + [Key with Arrow Icons]:** Adjust backlight speed or direction for dynamic effects.

5. MAINTENANCE

- **Cleaning:**
  - Disconnect the keyboard from your computer before cleaning.
  - Use a can of compressed air to remove dust and debris from between the keycaps.
  - Wipe the keycaps and keyboard surface with a soft, slightly damp, lint-free cloth. Avoid excessive moisture.
  - Do not use harsh chemicals, abrasive cleaners, or solvents.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Handling:** Avoid dropping the keyboard or exposing it to liquids, as this can cause permanent damage.

6. TROUBLESHOOTING
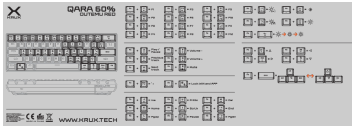

- **Keyboard Not Responding:**

- Ensure the USB cable is securely connected to both the keyboard and the computer.
- Try connecting the keyboard to a different USB port on your computer.
- Restart your computer.
- Test the keyboard on another computer if possible to rule out a computer-specific issue.

- **Backlight Not Working or Incorrect:**

  - Ensure the backlight is not turned off or set to the lowest brightness level using the Fn key combinations.
  - If a specific lighting software is available (check KRUX website), ensure it is installed and configured correctly.

- **Keys Not Registering or Double-Typing:**

  - Clean the affected key(s) as described in the Maintenance section.
  - Ensure no debris is lodged under the keycap or switch.
  - If the issue persists, it may indicate a hardware fault.
