

URBN UPC411_CO1

URBN 4-in-1 Quad Cable Instruction Manual

Model: UPC411_CO1

INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your URBN 4-in-1 Quad Cable. This versatile cable is designed to simplify your charging and data transfer needs across a wide range of devices, including smartphones, tablets, and laptops.

PRODUCT OVERVIEW

The URBN 4-in-1 Quad Cable features a unique design that integrates multiple connector types into a single, durable cable. It supports up to 100W Power Delivery (PD) for fast charging and high-speed data transfer. The cable is Apple MFi certified, ensuring compatibility and safety with Apple devices.

- **Quad Design:** Combines USB-A, Type-C, and Lightning connectors.
- **100W Power Delivery:** Enables rapid charging for compatible devices.
- **Apple MFi Certified:** Guarantees compatibility and optimal performance with Apple products.
- **High-Speed Data Transfer:** Supports data transfer rates up to 480 Mbps.
- **Intelligent E-Marker Chip:** Optimizes current flow for efficient and safe charging.
- **Durable Construction:** Features premium copper wiring and a flat nylon braided exterior for tangle-free use and enhanced longevity.

SETUP

1. **Identify Connectors:** The cable features a USB-A connector, a Type-C connector, and a Lightning connector. The Type-C and Lightning connectors are integrated into a single end, allowing for various combinations.
2. **Connect to Power Source:**
 - For USB-A input: Plug the USB-A end of the cable into a compatible USB wall adapter, power bank, or computer port.
 - For Type-C input: Plug the Type-C end of the cable into a compatible Type-C wall adapter, power bank, or computer port.
3. **Connect to Device:**
 - For Lightning devices (e.g., iPhone, iPad): Connect the Lightning connector to your device's charging port.
 - For Type-C devices (e.g., Android phones, laptops): Connect the Type-C connector to your device's charging port.
4. Ensure all connections are secure.

OPERATING INSTRUCTIONS

Charging Devices

Once the cable is properly connected to a power source and your device, charging will begin automatically. The intelligent E-Marker chip will regulate the current to optimize charging speed and safety for your specific device.

- For optimal fast charging, use a power adapter that supports Power Delivery (PD) and matches the wattage requirements of your device, up to 100W.
- The cable supports various combinations: USB-A to Lightning, USB-A to Type-C, Type-C to Lightning, and Type-C to Type-C.

Data Transfer

To transfer data, connect the cable between your device and a computer or other data-enabled port. Ensure both devices are powered on and configured for data transfer. The cable supports data transfer speeds up to 480 Megabytes Per Second.

Image: Details the internal components like the E-Mark chip and copper cable, emphasizing high-speed data transfer at 480 Mbps.

MAINTENANCE

- **Cleaning:** Gently wipe the cable and connectors with a dry, soft cloth. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. The flat, braided design helps prevent tangling.
- **Handling:** Avoid sharp bends or excessive force when connecting or disconnecting the cable. Always pull from the connector head, not the cable itself.

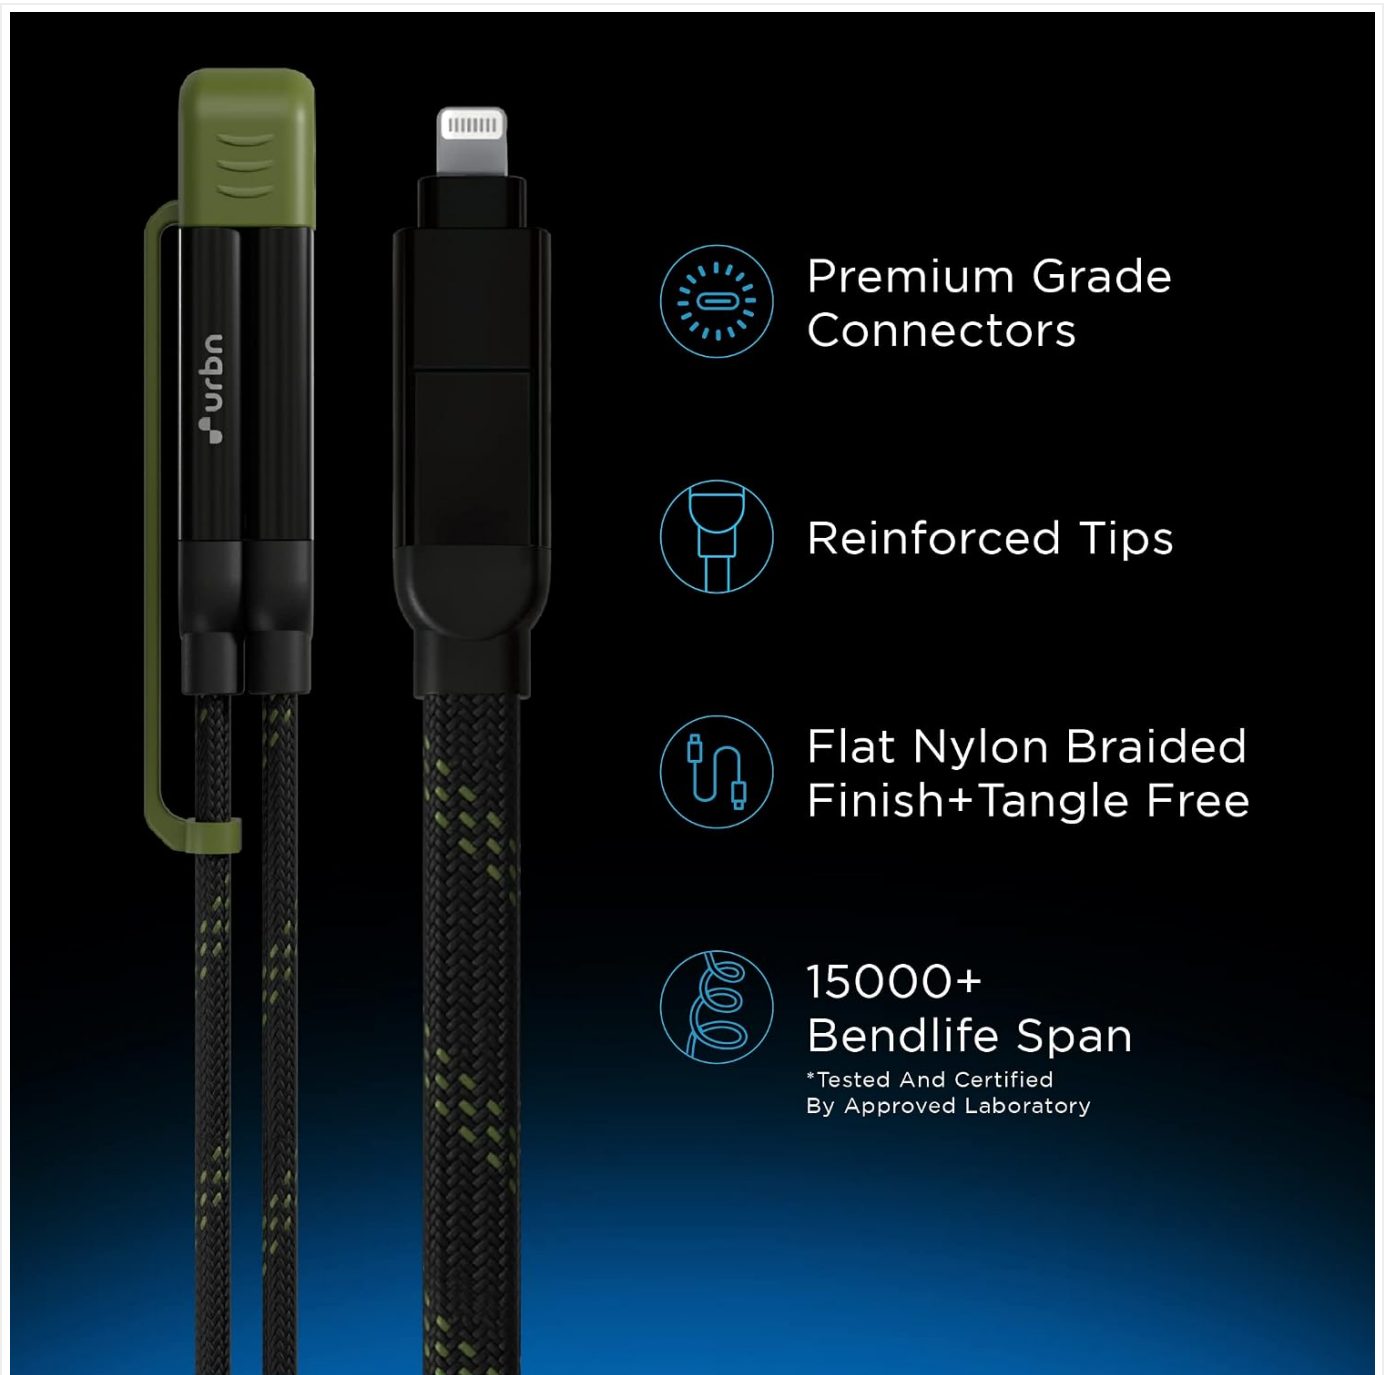

Image: Illustrates the durable construction features of the cable, including reinforced tips and a flat nylon braided finish.

TROUBLESHOOTING

- **Device Not Charging:**

- Ensure the cable is securely connected to both the power source and the device.
- Verify that the power adapter is functioning correctly and provides sufficient power for your device.
- Test the cable with a different device or power source to isolate the issue.
- Check for any debris or damage in the device's charging port or the cable's connectors.

- **Slow Charging:**

- Confirm that your power adapter supports Power Delivery (PD) and provides adequate wattage for fast charging.
- Ensure your device also supports fast charging protocols.

- Avoid using the device heavily while charging, as this can slow down the process.

- **Data Transfer Issues:**

- Ensure both devices are properly configured for data transfer (e.g., selecting "File Transfer" mode on Android devices).
- Check if the computer's USB port is functioning correctly.

SPECIFICATIONS

Feature	Detail
Brand	URBN
Model Name	UPC411_CO1
Model Number	UPC411
Connector Type	Lightning, USB Type C, USB Type A
Cable Type	USB
Compatible Devices	Charging Adapter, Laptop, Power Bank, Smartphone, Speaker
Special Features	Braided, Data Transfer, Fast Charging, Tangle Free
