

JOYROOM JR-WQW01

JOYROOM Portable Wireless Charger User Manual

Model: JR-WQW01

Brand: JOYROOM

INTRODUCTION

This manual provides essential information for the safe and efficient operation of your JOYROOM Portable 2000mAh Wireless Charger. Please read thoroughly before use to ensure optimal performance and longevity of your device. This compact and versatile charger is designed to keep your Apple Watch powered up wherever you go.

Key features include a robust 2000mAh battery capacity, magnetic auto-alignment for effortless charging, a precise digital battery level display, and a convenient keychain design for ultimate portability.

WHAT'S IN THE BOX

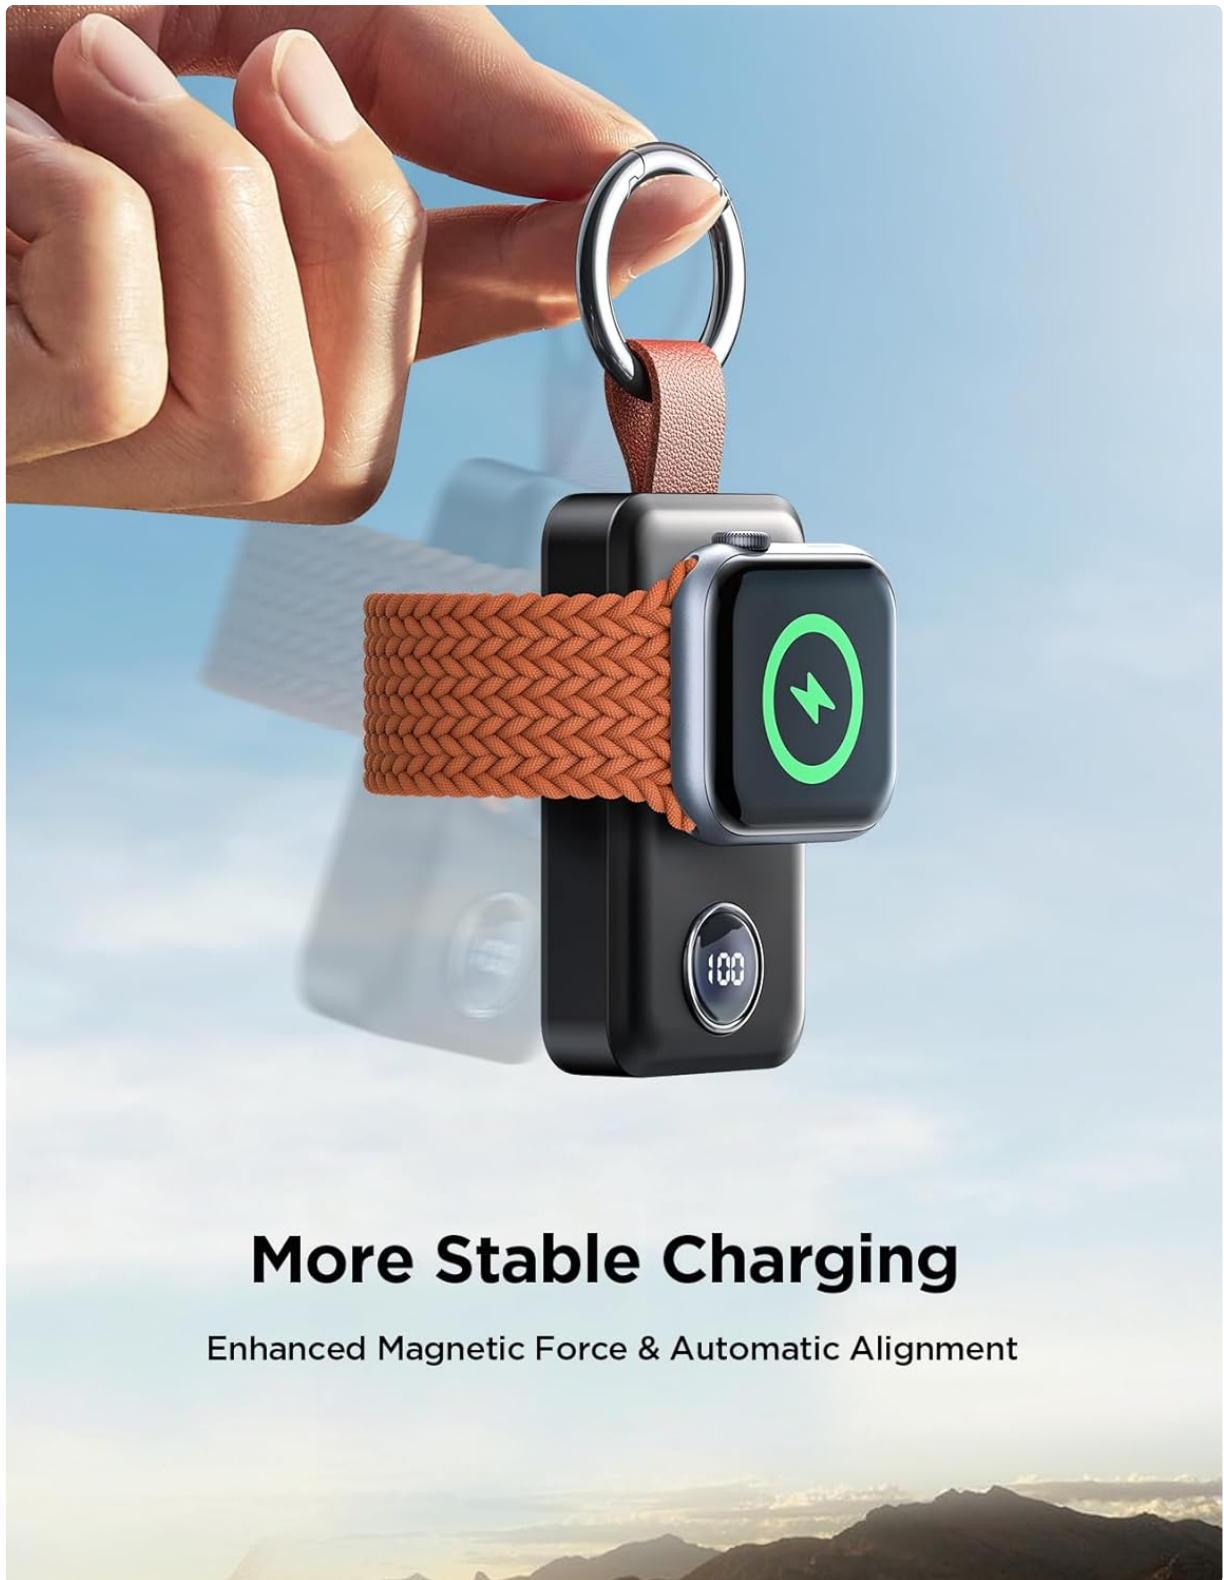

Please verify that all items are present in your package:

- 1x JOYROOM Portable Wireless Charger
- 1x 3.3ft USB-C Charging Cable
- 1x User Manual

PRODUCT FEATURES

Effortless Magnetic Charging

The charger features a built-in magnetic suction module that ensures your Apple Watch effortlessly auto-aligns and stays stable during charging. It can fully charge Apple Watch Series 10/9/8/7/6/5/4/3/2/SE in approximately 1.5-2 hours, and Apple Watch Ultra 2/Ultra in about 2.5-3 hours, optimizing charging speed without compromising stability.

More Stable Charging

Enhanced Magnetic Force & Automatic Alignment

Image: The portable charger with an Apple Watch attached, illustrating the stable magnetic connection during charging.

True 2000mAh Battery Capacity

Equipped with a 2000mAh battery, this portable wireless charger can fully charge your standard Apple Watch (Series 2-10/SE) 3-4 times, or your Apple Watch Ultra/Ultra 2 up to 2 times. This extended capacity ensures you have power when you need it most, reducing battery anxiety during travel or daily use.

Double the number of charging times

Accurate Battery Level Display

Image: An internal view diagram of the charger highlighting its 2000mAh battery and indicating the number of full charges it provides for different Apple Watch models.

Precise Battery Level Display

Unlike chargers with simple indicator lights, the JOYROOM wireless iWatch charger features a precise digital display that shows the exact remaining battery percentage. This allows for accurate planning of your charging schedule and ensures you are always aware of the charger's power status.

SETUP

Charging the Portable Charger

1. Connect the included 3.3ft USB-C charging cable to the USB-C port on the portable charger.
2. Plug the other end of the USB-C cable into a compatible USB power adapter (not included) or a computer's USB port.
3. The digital display on the charger will show the charging progress. It is fully charged when the display

reads '100'.

Charging Your Apple Watch

1. Ensure the portable charger has sufficient battery charge.
2. Place your Apple Watch onto the magnetic charging surface of the portable charger. The watch will automatically align.
3. The Apple Watch display will indicate that it is charging. The portable charger's digital display will show its remaining battery percentage.

OPERATING INSTRUCTIONS

Power On/Off

- To power on the charger, press the power button once. The digital display will illuminate.

- To power off the charger, press the power button twice.
- The charger is designed with an automatic shutdown feature. If no device is connected for 30 seconds, the charger will automatically power off to conserve battery.

MAINTENANCE

- Keep the charger clean and dry. Use a soft, dry cloth to wipe the surface.
- Avoid exposing the charger to extreme temperatures, direct sunlight, or high humidity.
- Do not disassemble or attempt to repair the charger yourself. This may void the warranty and cause damage.
- Store the charger in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Charger not powering on	Low battery; Power button not pressed correctly	Recharge the portable charger; Press the power button once to turn on.
Apple Watch not charging	Improper alignment; Charger battery low; Watch not compatible	Ensure Apple Watch is centered on the magnetic surface; Recharge the portable charger; Verify watch model compatibility.
Slow charging	Charger battery low; Environmental factors	Ensure charger is fully charged; Charge in a moderate temperature environment.
Digital display not working	Device malfunction	Try restarting the charger by pressing the power button twice to turn off and then once to turn on. If issue persists, contact customer support.

SPECIFICATIONS

Product Dimensions: 2.84 x 1.61 x 0.61 inches

Item Weight: 2.2 ounces

Model Number: JR-WQW01

Battery: 1 Lithium Polymer battery (included)

Connectivity Technology: Magnetic

Connector Type: USB Type C

Input Voltage: 5 Volts

Amperage: 3 Amps

Color: Black

Manufacturer: Joyroom

Country of Origin: China

Special Features: Travel, Magnetic, Short Circuit Protection, Automatic Off, LED screen
