FTVOGUE GT-SS135

FTVOGUE Smart Power Socket (Model GT-SS135 / LSPA2) User Manual

Your guide to setting up and operating your FTVOGUE Smart Power Socket.

1. PRODUCT OVERVIEW

The FTVOGUE Smart Power Socket (Model GT-SS135 / LSPA2) is a versatile smart plug designed to provide remote control and timer functions for your electronic devices. It features a UK plug type, two USB ports, and is compatible with various smart home ecosystems.

Image 1.1: Front view of the FTVOGUE Smart Power Socket, showing the UK plug type, two USB charging ports, and the power button.

2. SAFETY INFORMATION

- Ensure the socket is used within its rated voltage (100-240VAC) and current (10A) limits to prevent damage or hazards.
- Do not disassemble or modify the device.
- Keep away from water and high humidity environments.
- Avoid plugging in appliances that exceed the maximum load of 16A.

3. SETUP GUIDE

3.1 Initial Connection

1. Plug the FTVOGUE Smart Power Socket into a standard UK wall outlet.

2. Ensure the power indicator light on the socket is illuminated.

WiFi Smart Plug

Effectively prevent from heating due to excessive power consumption

Image 3.1: The smart plug connected to a wall socket, demonstrating its compact design suitable for various locations.

3.2 Connecting to Wi-Fi and Smart Home Systems

The smart socket requires a 2.4GHz Wi-Fi network for remote control functionality. Follow these steps to connect:

1. Download the compatible smart home application (e.g., Smart Life, Tuya Smart) on your smartphone.
2. Register or log in to your account within the application.
3. Press and hold the power button on the smart socket until the indicator light blinks rapidly, indicating pairing mode.
4. In the app, select "Add Device" or the "+" icon, then choose "Electrical Outlet" or "Smart Plug".
5. Follow the on-screen instructions to connect the plug to your 2.4GHz Wi-Fi network.
6. Once connected, you can rename the device for easier control.

The FTVOGUE Smart Power Socket supports integration with popular voice assistants:

- For Alexa and Echo dot
- Google Homepage
- IFTTT Roqi
- iPhone-Siri

Refer to the respective voice assistant's app for instructions on linking your smart home account.

4. OPERATING INSTRUCTIONS

4.1 Manual Control

Press the power button on the front of the smart socket to manually turn the connected device on or off.

4.2 Remote Control via App

Once connected to your smart home app, you can:

- **Turn On/Off:** Toggle the power of the connected device from anywhere with an internet connection.
- **Set Schedules/Timers:** Program the socket to turn on or off at specific times or after a set duration.
- **Create Scenes:** Group the smart socket with other smart devices to automate actions based on conditions (e.g., "Good Morning" scene turns on the coffee maker).

WIFI realize remote socket switch

No distance limit

Cover living room, bedroom,
bathroom, balcony

Image 4.1: The smart plug enables remote control of connected devices from any location with Wi-Fi access.

4.3 Voice Control

After linking your smart home account to a voice assistant, use voice commands to control the smart socket. Examples:

- "Alexa, turn on the living room lamp."
- "Hey Google, turn off the fan."

4.4 USB Charging Ports

The two integrated USB ports can be used to charge compatible devices. These ports are typically always on when the plug is powered, independent of the main socket's on/off state.

5. MAINTENANCE

- Clean the smart socket with a dry, soft cloth. Do not use liquid cleaners.
- Ensure the plug is disconnected from the power outlet before cleaning.
- Regularly check for any signs of damage to the casing or plug pins.

6. TROUBLESHOOTING

- **Device not powering on:**
 - Check if the wall outlet is functioning correctly.
 - Ensure the smart socket is fully inserted into the wall outlet.
- **Cannot connect to Wi-Fi:**
 - Verify your Wi-Fi network is 2.4GHz. 5GHz networks are not supported.
 - Ensure the smart socket is within range of your Wi-Fi router.
 - Confirm you have entered the correct Wi-Fi password.
 - Try resetting the smart socket by unplugging it for 10 seconds and plugging it back in, then re-attempt pairing.
 - Ensure the indicator light is blinking rapidly for pairing mode. If not, press and hold the power button until it does.
- **Remote control not working:**
 - Check your internet connection on your smartphone and home Wi-Fi network.
 - Ensure the smart socket is still connected to your Wi-Fi network (check indicator light status in the app).
 - Restart the smart home application.
- **Voice control issues:**
 - Confirm the smart home account is correctly linked to your voice assistant.
 - Ensure the device name in the smart home app is recognized by the voice assistant.
 - Try re-syncing devices in your voice assistant's app.

7. SPECIFICATIONS

Feature	Specification
Model	GT-SS135 / LSPA2
Input Voltage	100-240VAC, 50/60Hz
Rated Current	10A (Max. Load: 16A)
Number of Holes	3 (UK Plug Type)
Material	ABS + PC (Fire Rating: 94-V0)
Shell Color	White
Working Temperature	-20°C to +50°C
Wireless Standard	IEEE802.11b/g/n, 2.4GHz
Compatibility	Alexa, Google Home, IFTTT, Siri
Product Dimensions	7.48 x 3.15 x 2.36 inches
Weight	5.82 ounces
