# Games Workshop Warhammer 40,000 Starter Set Instruction Manual

Your guide to assembling, painting, and playing with your Warhammer 40,000 Starter Set.

## INTRODUCTION

---

Welcome to the Warhammer 40,000 universe! This Starter Set provides a comprehensive entry point into the hobby of collecting, building, painting, and playing with Citadel miniatures. It contains everything necessary to begin your journey, featuring two distinct forces: the valiant Space Marines and the ravenous Tyranids.

## COMPONENTS OVERVIEW

---

Figure 1: Complete contents of the Warhammer 40,000 Starter Set.

Your Warhammer 40,000 Starter Set includes the following:

- **38 Push-Fit Citadel Miniatures:** These include Space Marines and Tyranids, forming two balanced forces ready for battle.
- **Warhammer 40,000 Handbook:** A comprehensive guide containing basic rules, lore, and assembly instructions.
- **Gaming Mat:** A durable mat to define your battlefield.
- **Dice:** Essential for resolving actions and combat in the game.
- **Reference Sheets:** Quick-reference cards for unit statistics and game mechanics.
- **Range Rulers:** Tools for accurately measuring distances during gameplay.

## SETUP & ASSEMBLY

### Unpacking Your Set

Carefully open the product box and remove all components. It is recommended to keep the box for storage of your miniatures and game accessories.

### Assembling Your Miniatures

The miniatures included in this set are 'push-fit', meaning they can be assembled without glue. Simply detach the parts from their sprues and fit them together as indicated in the included handbook. For a more permanent and durable bond, you may choose to use plastic glue (sold separately).

## Preparing the Battlefield

Unfold the gaming mat and place it on a flat surface. This mat provides the designated play area for your battles. Use the included range rulers to measure movement and weapon ranges during gameplay.

## PAINTING YOUR MINIATURES

---

While not strictly necessary for gameplay, painting your miniatures is a core part of the Warhammer hobby. The included handbook provides basic guidance and inspiration for painting your Space Marines and Tyranids. You will need Citadel paints and brushes (sold separately) to bring your models to life with your chosen color schemes.

## BASIC GAMEPLAY RULES

---

The Warhammer 40,000 Handbook is your primary resource for learning the game. It covers fundamental concepts such as:

- **Movement Phase:** How to maneuver your units across the battlefield.
- **Shooting Phase:** Engaging enemy units with ranged weapons.
- **Charge Phase:** Initiating close-quarters combat.
- **Fight Phase:** Resolving melee engagements.
- **Morale Phase:** Testing the resolve of your units under fire.

The handbook also includes several training scenarios to help you gradually learn the rules and strategies of Warhammer 40,000.

## FACTION OVERVIEW

---

### Space Marines

The Space Marines are genetically engineered super-soldiers, the elite fighting force of the Imperium of Man. They are heavily armored and equipped with powerful weaponry, serving as humanity's last line of defense against the myriad threats of the galaxy. In this set, they represent a resilient and hard-hitting force.

### Tyranids

The Tyranids are a ravenous alien race, driven by an insatiable hunger to consume all biomass in the galaxy. They attack in vast swarms of bio-engineered creatures, overwhelming their foes with sheer numbers and brutal close combat. In this set, the Tyranids offer a fast and aggressive playstyle.
