2. SAFETY INFORMATION

- Ensure all components are securely fastened before use.
- Keep children and pets away from the desk during height adjustment.
- Do not overload the desk beyond its specified weight capacity (60 kg).
- Avoid placing liquids directly on the control panel or near electrical components.
- In case of malfunction, disconnect power immediately and consult the troubleshooting section or contact customer support.

- The motor system includes anti-collision and overheat protection features.

3. ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the parts list in the included manual.
2. **Assemble the Crossbar:** Connect the two halves of the crossbar (B9) using the provided screws (a) and Allen key (f). Ensure they are securely joined.
3. **Attach Lifting Columns:** Secure the lifting columns (B1, B2) to the assembled crossbar (B9) using screws (a).
4. **Install Side Brackets:** Attach the side brackets (B8) to the lifting columns (B1, B2) using screws (a).
5. **Mount Feet:** Secure the feet (B7) to the bottom of the lifting columns (B1, B2) using screws (b).
6. **Assemble Tabletop Sections:** Connect the tabletop sections (B3, B4, B5, B6) using the wooden dowels (e) and metal plates (B14, B15) with screws (c). Ensure a seamless fit.
7. **Attach Tabletop to Frame:** Carefully place the assembled tabletop onto the desk frame. Align the pre-drilled holes and secure the tabletop to the frame using screws (d).
8. **Connect Drive Rod:** Insert the drive rod (B10) between the two lifting columns, connecting it to the motor mechanism.
9. **Install Control Panel:** Mount the control panel (B16) to the underside of the desk using screws (d). Connect the control panel cable to the motor.
10. **Connect Power:** Plug the power adapter (B17) into the control unit and then into a power outlet.
11. **Cable Management:** Use the provided cable clips (g) and cable pass-through (B13) to organize cables neatly under the desk. Attach the headphone hook (B12) if desired.

4. OPERATING INSTRUCTIONS

4.1 Control Panel Functions

Multi-Function Intelligent Keypad

Image 4.1: The multi-function intelligent keypad with LED display and various controls.

- **LED Display:** Shows the current desk height in centimeters.
- **Up/Down Buttons (+/-):** Press and hold to adjust the desk height continuously. Release to stop at the desired height.
- **Memory Presets (1, 2):**
 - a. Adjust the desk to your desired sitting or standing height.

- b. Press the "M" button, then press "1" or "2" within 3 seconds to save the current height.
- c. To recall a saved height, simply press the corresponding "1" or "2" button.

- **Sedentary Reminders (Clock Icon):** Activate this feature to receive reminders to change your posture. The desk will prompt you to switch between sitting and standing after a set interval.
- **USB Charging Port:** Located on the side of the control panel, this port allows convenient charging of your electronic devices.

4.2 Height Adjustment and Ergonomics

The desk's height is continuously adjustable from 73 cm (sitting) to 118 cm (standing), promoting a healthy work routine by allowing you to alternate between postures.

Image 4.2: The desk supports a wide height range from 73 cm to 118 cm for ergonomic use.

5. MAINTENANCE

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid harsh chemicals that may damage the laminate finish.
- **Inspecting Connections:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Cable Management:** Regularly check and reorganize cables to prevent tangles and damage.
- **Motor Care:** The motor is designed for durability. Avoid obstructing its movement during height adjustments.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Desk does not move.	Power cable disconnected, motor error, or overload.	Check power connections. Reduce weight on the desk. Reset the system (refer to specific reset instructions in the full manual if available).
Desk moves unevenly or makes unusual noises.	Loose connections, uneven load, or obstruction.	Ensure all screws are tight. Distribute weight evenly. Check for obstructions under the desk.
Control panel not responding.	Loose cable connection to control panel, power issue.	Check the control panel cable connection. Verify power supply.
Anti-collision feature triggers frequently.	Obstruction in the desk's path.	Ensure there are no objects in the desk's path during adjustment.

If problems persist after attempting these solutions, please contact JUMMICO customer support.
