MAINTENANCE AND CARE

Proper care will extend the life of your Fila sandals. Follow these guidelines for cleaning and storage:

- **Cleaning:** Wipe the sandals with a damp cloth and mild soap. Do not submerge in water. For stubborn dirt, a soft brush can be used on the rubber sole.
- **Drying:** Allow sandals to air dry completely away from direct sunlight or heat sources.
- **Storage:** Store in a cool, dry place when not in use. Avoid prolonged exposure to extreme temperatures.
- **Avoid Harsh Chemicals:** Do not use bleach, strong detergents, or abrasive cleaners, as these can damage the materials.

TROUBLESHOOTING

If you encounter any issues with your sandals, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Uncomfortable fit	Incorrect size or initial stiffness.	Ensure you have the correct size. Wear for short periods initially to break them in.
Slippery sole	Wet surface or worn-out tread.	Exercise caution on wet surfaces. If tread is significantly worn, consider replacement.
Odor development	Accumulation of sweat and bacteria.	Clean regularly as per maintenance instructions. Allow to air out after each use.
