1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your IRONCK Kitchen Pantry Storage Cabinet, Model HK-PA-01. Designed for versatility, this freestanding cupboard features barn doors, a drawer, and adjustable shelves, making it suitable for various rooms including dining rooms, living rooms, and laundry areas. Please read this manual thoroughly before assembly and use to ensure proper installation and safe operation.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Always assemble the cabinet carefully, following the provided instructions step-by-step.
- Do not overload shelves to prevent tipping. Distribute weight evenly.
- Secure the cabinet to the wall using the provided anti-topple wall attachments for added stability, especially in households with children or pets.
- Always use appropriate safety gear (e.g., gloves, eye protection) when assembling the cabinet.

- Keep small parts and packaging materials away from children to prevent choking hazards.
- Ensure all screws and fasteners are tightened securely before use. Periodically check and re-tighten as needed.
- Do not climb on or hang from the cabinet.

3. ASSEMBLY INSTRUCTIONS

The IRONCK Kitchen Pantry Storage Cabinet is designed for straightforward assembly. It is recommended to have two people for assembly, especially when lifting and positioning larger sections. All necessary hardware and detailed instructions are included.

3.1 Package Contents

Before beginning, verify that all parts and hardware are present. Refer to the included parts list in your package. Typical components include:

- MDF board panels (sides, top, bottom, shelves, doors, drawer components)
- Hardware (screws, dowels, cam locks, hinges, drawer slides, handles, door knobs, magnetic catches, anti-topple kit)
- Adjustable plate rack and door-hung storage boxes (accessories)

3.2 Step-by-Step Assembly

Follow the numbered diagrams and instructions provided in your product's physical manual. Key steps generally involve:

1. **Prepare the Workspace:** Clear a spacious area and lay out all components. Identify each part by its label.
2. **Assemble the Base:** Connect the bottom panel to the side panels using the specified hardware.
3. **Install Back Panels:** Secure the back panels to the main frame.
4. **Assemble Drawer:** Construct the drawer box and attach the drawer slides.
5. **Install Drawer into Frame:** Carefully slide the assembled drawer into its designated slot.
6. **Attach Shelves:** Insert shelf pins into the desired height holes and place the adjustable shelves. The fixed shelf should be installed as per instructions.
7. **Attach Doors:** Mount the hinges to the doors and then attach the doors to the cabinet frame. Ensure magnetic catches are aligned for proper closure.
8. **Install Handles and Knobs:** Attach the drawer handles and door knobs.
9. **Secure to Wall:** Use the provided anti-topple kit to anchor the cabinet to a wall stud. This is crucial for safety.

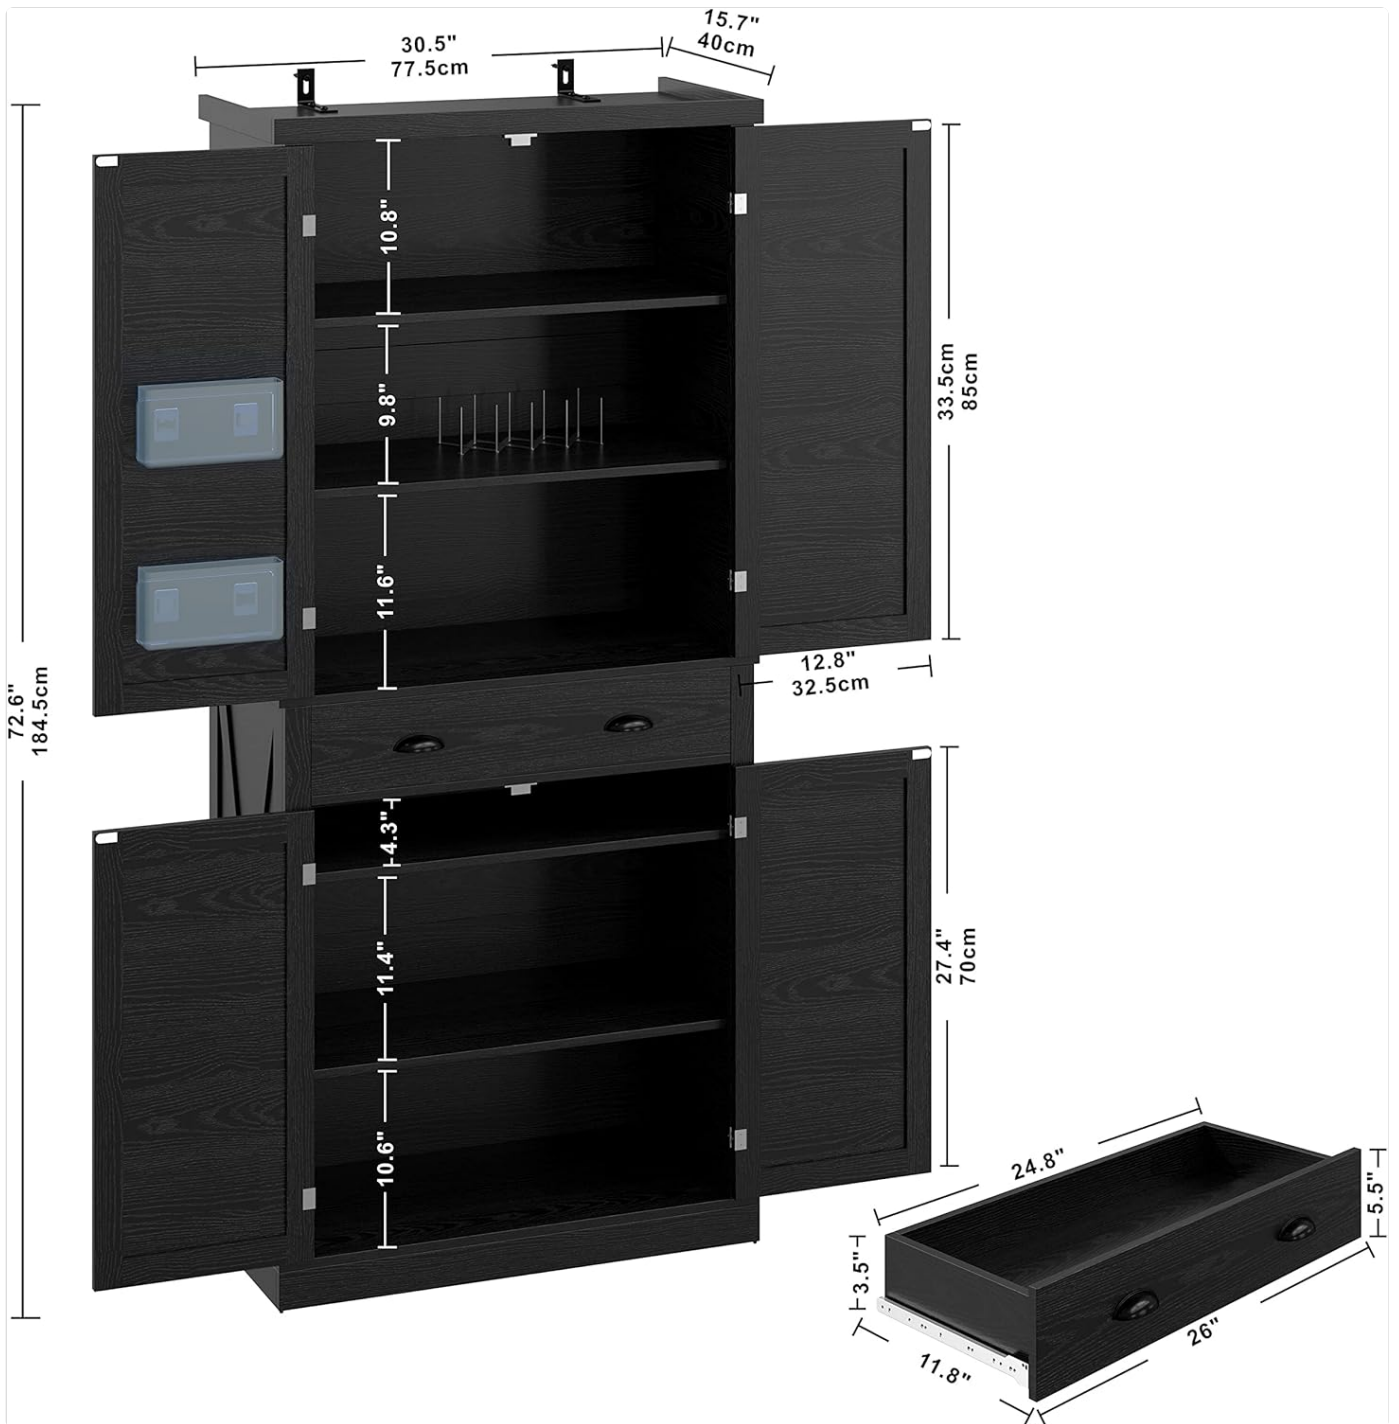

Figure 3: Dimensional overview of the cabinet, showing height, width, and depth, along with internal shelf and drawer measurements.

4. OPERATING INSTRUCTIONS

4.1 Opening and Closing Doors

The cabinet doors are equipped with magnetic catches. To open, gently pull the door knobs. To close, push the doors firmly until the magnets engage, holding them securely shut.

4.2 Adjusting Shelves

The cabinet features adjustable shelves to accommodate items of various heights. To adjust a shelf:

1. Empty the shelf of all contents.
2. Carefully lift the shelf to remove it from its current pins.
3. Relocate the shelf pins to the desired height holes on the side panels. Ensure pins are level and fully inserted.

4. Place the shelf onto the new pins, ensuring it is stable before loading items.

Figure 4: Visual guide for adjusting shelf heights within the cabinet.

4.3 Using the Drawer

The central drawer operates on smooth sliding mechanisms. Pull the handles to open the drawer and push it back in until it is flush with the cabinet front to close. This drawer is ideal for storing smaller items or utensils.

Figure 5: Detail of the smooth-gliding drawer, suitable for various kitchen items.

4.4 Utilizing Accessories

The cabinet includes door-hung storage boxes and a foldable tray divider for enhanced organization. The door-hung boxes can be attached to the inside of the doors to hold small items like spices or utensils. The tray divider can be placed on any shelf to organize plates or cutting boards vertically.

Figure 6: Interior organization with adjustable shelves, door-hung bins, and a plate divider.

5. MAINTENANCE

Proper care will extend the life and appearance of your cabinet.

- **Cleaning:** Wipe down the cabinet surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Hardware:** Periodically check all screws, hinges, and drawer slides to ensure they are tight. Re-tighten as necessary to maintain stability and smooth operation.
- **Environmental Conditions:** Avoid placing the cabinet in direct sunlight or near heat sources, as this can cause fading or warping. Maintain a stable humidity level to prevent material expansion or contraction.

6. TROUBLESHOOTING

If you encounter any issues with your cabinet, refer to the following common solutions:

- **Doors Not Aligning/Closing Properly:**

- Check that all hinges are securely fastened and not loose.
- Ensure the magnetic catches are properly installed and aligned with the door plates.
- Verify that the cabinet itself is level on the floor. Adjust feet if necessary.

- **Drawer Sticking or Not Sliding Smoothly:**

- Confirm that the drawer slides are correctly installed and lubricated if needed.
- Check for any obstructions within the drawer tracks.
- Ensure the drawer box is assembled squarely.

- **Cabinet Feels Unstable:**

- Ensure all assembly screws are fully tightened.
- Verify that the cabinet is placed on a flat, level surface.
- **Crucially, ensure the anti-topple device is correctly installed and anchored to a wall stud.**

- **Missing Parts or Damaged Components:**

- Contact IRONCK customer support with your model number and a description of the issue.

7. SPECIFICATIONS

Brand	IRONCK
Model Name	HK-PA-01
Color	Black
Material	Engineered Wood
Product Dimensions	15.7"D x 30.5"W x 72.6"H
Item Weight	101.2 Pounds
Number of Shelves	4 (3 adjustable, 1 fixed)
Special Features	Barn Doors, Drawer, Adjustable Shelves, Anti-topple device
Mounting Type	Freestanding (with wall attachment recommended)
