6. MAINTENANCE AND CARE

Regular maintenance will help preserve the appearance and structural integrity of your bed frame.

- **Cleaning Upholstery:** For the velvet upholstered headboard and frame, gently vacuum with an upholstery attachment to remove dust. For spills, blot immediately with a clean, dry cloth. - **Frame Cleaning:** Wipe metal and wooden parts with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Check Connections:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they are tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** Keep the bed frame away from areas with high humidity or direct exposure to liquids to prevent damage to the wood and upholstery.
