Xtrike Me GW-610

Xtrike Me GW-610 Gaming Mouse User Manual

Model: GW-610

INTRODUCTION

Thank you for choosing the Xtrike Me GW-610 Gaming Mouse. This manual provides detailed instructions for setting up, operating, and maintaining your new gaming mouse. The GW-610 offers both wired and 2.4G wireless connectivity, customizable RGB lighting, and a high-precision optical sensor with adjustable DPI settings, designed for an enhanced gaming experience.

PACKAGE CONTENTS

- Xtrike Me GW-610 Gaming Mouse
- USB Type-C to USB-A Cable (1.5m)
- 2.4G USB Receiver (usually stored inside the mouse)
- User Manual (this document)

SETUP INSTRUCTIONS

1. Wired Connection

1. Connect the USB Type-C end of the provided cable to the mouse.
2. Connect the USB-A end of the cable to an available USB port on your computer.
3. The mouse will be automatically detected and ready for use.

2. Wireless (2.4G) Connection

1. Locate the 2.4G USB receiver, usually stored in a compartment on the underside of the mouse.
2. Remove the receiver and plug it into an available USB port on your computer.
3. Turn on the mouse using the power switch located on the underside.
4. The mouse will automatically connect to the receiver.

OPERATING INSTRUCTIONS

Button Functions (7 Buttons)

- **Left Click Button:** Standard primary click function.

- **Right Click Button:** Standard secondary click function.
- **Scroll Wheel:** Scrolls up/down, and acts as a middle click button.
- **DPI Cycle Button:** Changes the mouse sensitivity (DPI) through preset levels.
- **Forward Button:** Navigates forward in web browsers or file explorers.
- **Backward Button:** Navigates backward in web browsers or file explorers.
- **RGB Lighting Control Button:** (Specific function may vary, often cycles through lighting modes or turns lights on/off. Refer to software if available for full customization.)

DPI Adjustment

Press the DPI cycle button (usually located behind the scroll wheel) to switch between the following sensitivity levels:

- 800 DPI
- 1600 DPI (Default)
- 2400 DPI
- 3200 DPI
- 4800 DPI
- 8000 DPI

Each DPI level may be indicated by a change in the mouse's LED color or a brief flash.

RGB Lighting Control

The mouse features multi-color RGB lighting effects. Use the dedicated RGB lighting control button (if present, or a combination of buttons) to cycle through different lighting modes or to turn the lighting on/off. The lighting effects include a flowing light pattern.

CHARGING THE MOUSE

When using the mouse in wireless mode, it is powered by a built-in 500mAh lithium-ion battery. To charge the mouse:

1. Connect the USB Type-C end of the provided cable to the mouse.
2. Connect the USB-A end of the cable to a powered USB port on your computer or a USB wall adapter.
3. The charging indicator (if present) will show the charging status.
4. A full charge takes approximately 3 hours.

The mouse can be used in wired mode while charging. A full charge provides approximately 20 hours of use with RGB lighting on, or 100 hours with RGB lighting off.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the mouse. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the mouse in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or twisting the USB cable excessively to prevent damage.

TROUBLESHOOTING

Issue	Possible Solution
Mouse not responding (Wired)	<ul style="list-style-type: none"> • Ensure the USB cable is securely connected to both the mouse and the computer. • Try a different USB port on your computer. • Test the mouse on another computer to rule out a computer-specific issue.
Mouse not responding (Wireless)	<ul style="list-style-type: none"> • Ensure the 2.4G USB receiver is securely plugged into a USB port. • Verify the mouse is turned on using the power switch. • Check the mouse battery level and charge if necessary. • Ensure the mouse is within the 10-meter operating range of the receiver. • Try a different USB port for the receiver.
DPI not changing	<ul style="list-style-type: none"> • Press the DPI cycle button firmly. • Ensure the mouse is powered on and connected.
RGB lighting not working	<ul style="list-style-type: none"> • Ensure the mouse has sufficient battery charge (if wireless). • Press the RGB lighting control button to cycle through modes or turn it on.

SPECIFICATIONS
