Merax 24 IN

Merax 24-Inch Expandable Hard Case Luggage with Spinner Wheels Instruction Manual

Model: 24 IN | Brand: Merax

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Merax 24-inch expandable hard case luggage. Please read these instructions carefully before using your luggage to ensure optimal performance and longevity.

PRODUCT FEATURES

- **Durable ABS Material:** Constructed from lightweight and durable Acrylonitrile Butadiene Styrene (ABS) material, offering strong resistance to stress, high and low temperatures, and impact. Features UV-radiation protection for long-lasting use.
- **Expandable Design:** Provides up to 25% more packing space when needed.
- **Full-Capacity Interior:** Features a fully lined interior with a zippered compartment and garment straps to keep items organized.
- **TSA-Approved Lock:** Integrated combination lock allows customs officials to inspect luggage without damage.
- **Silent Spinner Wheels:** Multi-directional 360-degree spinner wheels ensure smooth and easy maneuverability.
- **Telescoping Handle:** Multi-level adjustable handle for comfortable pulling.
- **Protective Standing Feet:** Designed to prevent scratches and dirt when the suitcase is placed on its side.

SETUP

Setting the TSA Combination Lock

Your luggage comes with a pre-set combination of 0-0-0. To set your personal combination:

1. Ensure the lock is set to the factory default 0-0-0.
2. Locate the small reset button (usually a small hole) on the side of the lock. Use a pen or a pointed object to press and hold this button until you hear a click.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set. Test it by scrambling the numbers and then entering

your new combination to open the lock.

Note: Remember your combination. There is no master key for personal combinations.

FUNCTIONAL INTERIOR DESIGN

**Zippered
Compartment**

Durable Zipper

Mesh Pocket

Garment Strap

Adjusting the Telescoping Handle

The telescoping handle can be adjusted to multiple heights for comfortable pulling. Press the button located on the top of the handle to extend or retract it. Ensure it clicks into place at your desired height.

OPERATING YOUR LUGGAGE

Packing and Expanding

To maximize packing space, utilize the internal zippered compartments and garment straps. If additional space is required, unzip the expansion zipper located around the perimeter of the suitcase. This will increase the depth of the main compartment.

Maneuvering with Spinner Wheels

The 360-degree spinner wheels allow for effortless movement in any direction. Push or pull the luggage alongside you or in front of you. For optimal control, keep the luggage upright and allow the wheels to glide smoothly.

MAINTENANCE

Cleaning the Hard Shell

To clean the ABS hard shell, wipe with a damp cloth and mild soap. Avoid abrasive cleaners or solvents, as these can damage the surface and UV protection. Dry thoroughly after cleaning.

Wheel and Zipper Care

Regularly check the spinner wheels for debris and clean as needed. For smooth zipper operation, occasionally apply a silicone-based lubricant or wax to the zipper teeth.

TROUBLESHOOTING

- **Stuck Telescoping Handle:** If the handle is difficult to extend or retract, ensure the release button is fully pressed. Avoid forcing the handle. Check for any obstructions in the handle mechanism.
- **Stiff Wheels:** Clean any dirt or debris from around the wheels. If they remain stiff, a small amount of silicone spray lubricant can be applied to the wheel axles.
- **Lock Issues:** If the TSA lock is not opening with your combination, double-check that you have entered the correct

sequence. If you forget your combination, contact Merax customer support for assistance.

- **Zipper Malfunction:** If a zipper is stuck, try gently moving the slider back and forth. Ensure no fabric is caught in the teeth. Applying a small amount of lubricant can help.

SPECIFICATIONS

Feature	Detail
Size	24 IN
Item Dimensions L x W x H	18.9"L x 11.4"W x 29.5"H
Capacity	44 Liters
Item Weight	6 Pounds
