SETUP

Hot Wheels 1:64 scale vehicles are ready for play directly out of the packaging. No assembly is required for the vehicles themselves. If using with Hot Wheels track sets (sold separately), please refer to the specific track set's instructions for assembly and setup.

OPERATING INSTRUCTIONS

These Hot Wheels cars are designed for push-around play and racing on compatible Hot Wheels tracks. To operate:

1. **Individual Play:** Simply push the car along any smooth surface to engage in imaginative play.
2. **Track Play:** Place the cars on a Hot Wheels track (sold separately) and use launchers or gravity to send them racing. Ensure the track is properly assembled and stable before use.
3. **Collection and Display:** These die-cast cars are also suitable for display. Arrange them on shelves or in display cases to showcase your collection.

MAINTENANCE

To ensure the longevity and appearance of your Hot Wheels cars:

- **Cleaning:** Wipe the cars with a soft, dry cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the paint or plastic components.
- **Storage:** Store cars in a cool, dry place away from direct sunlight and extreme temperatures. Keeping them in a storage case or container can prevent scratches and damage.
- **Inspection:** Periodically check the wheels and axles for any debris or damage that might affect rolling performance.

TROUBLESHOOTING

Most issues with Hot Wheels cars are minor and easily resolved:

- **Car Not Rolling Smoothly:** Check the wheels for any trapped debris (e.g., hair, lint). Gently remove any obstructions. Ensure the axles are not bent.
- **Paint Chipping/Wear:** This is normal with extensive play. To minimize, avoid rough surfaces and impacts.
- **Track Compatibility:** Ensure you are using genuine Hot Wheels tracks for optimal performance. Other brands may not fit correctly or provide the intended racing experience.
