1. PRODUCT OVERVIEW

The Generic Vintage T9 Electric Cordless Hair Clipper Trimmer is designed for precise hair cutting and beard trimming. It features a powerful motor, a T-shaped cutter head, and a cordless design for ease of use. This manual provides instructions for safe and effective operation, maintenance, and care of your device.

Image 1.1: The Vintage T9 Hair Clipper Trimmer shown with its included accessories: USB charging cable, cleaning brush, and four limit combs (1.5mm, 2mm, 3mm, 4mm). The clipper features a bronze finish with an engraved dragon pattern.

2. IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance to prevent injury or damage.

- Keep the appliance away from water sources. Do not submerge the trimmer in water or use it near bathtubs, showers, basins, or other vessels containing water.
- Exercise caution when using the sharp blade and powerful motor. Avoid direct contact with skin during operation, especially in sensitive areas.
- Follow all electrical safety precautions when charging the device via USB. Ensure the charging cable and adapter are in good condition.

- Do not use the trimmer if the blades are damaged or broken, as this may cause injury.
- Keep out of reach of children.
- Do not attempt to disassemble or repair the appliance yourself. Contact qualified personnel for service.

3. SETUP AND INITIAL USE

3.1 Charging the Trimmer

Before first use, fully charge the trimmer. The device is equipped with a 1200mAh Li-battery. A full charge takes approximately 2 hours and provides over 180 minutes of operating time.

1. Connect the USB charging cable to the trimmer's charging port.
2. Plug the other end of the USB cable into a compatible USB charger (e.g., computer USB port, wall adapter).
3. The charging indicator light (if present) will illuminate to show charging is in progress.
4. Once fully charged, disconnect the cable.

3.2 Attaching Guide Combs

The trimmer comes with four limit combs (1.5mm, 2mm, 3mm, 4mm) to achieve different hair lengths. Ensure the trimmer is turned off before attaching or removing combs.

Comb Installation Method

Align the tip of comb head with the trimmer head

Press the tail buckle down

Fixed limit comb

Comb Removal Method

Hold the limit comb and the body

Pull the tail button up

Remove limit comb

Image 3.1: Visual guide demonstrating the installation and removal of guide combs. To install, align the comb tip with the trimmer head and press the tail buckle down until it clicks. To remove, hold the comb and body, pull the tail button up, and detach the comb.

- **Installation:** Align the tip of the desired comb head with the trimmer head. Press the tail buckle down firmly until the comb is securely fixed.
- **Removal:** Hold the limit comb and the trimmer body. Pull the tail button up and gently remove the comb.

4. OPERATING INSTRUCTIONS

4.1 Basic Operation

1. Ensure the trimmer is fully charged.
2. Attach the appropriate guide comb for your desired hair length, or use without a comb for close trimming/detailing.
3. Press the power button to turn the trimmer on.
4. Begin trimming hair, moving the clipper against the direction of hair growth for best results.
5. Press the power button again to turn the trimmer off after use.

4.2 Trimming Tips

- For an even cut, always move the trimmer slowly and steadily.
- Start with a longer guide comb if you are unsure of the desired length, and then switch to a shorter one if needed.
- Keep the blades clean during use by occasionally brushing away loose hairs.
- For beard trimming, trim against the grain for a closer cut, or with the grain for a longer, more natural look.

5. CARE AND MAINTENANCE

5.1 Cleaning the Blades

Regular cleaning ensures optimal performance and extends the life of your trimmer. The trimmer features a waterproof head, allowing for easy rinsing.

1. Turn off the trimmer and disconnect it from any charging cable.
2. Remove any attached guide comb.
3. Use the included cleaning brush to brush away loose hairs from the blades and the trimmer head.
4. Rinse the blade head under running water. Do not submerge the entire trimmer body.
5. Allow the blades to air dry completely before reattaching combs or storing the trimmer.

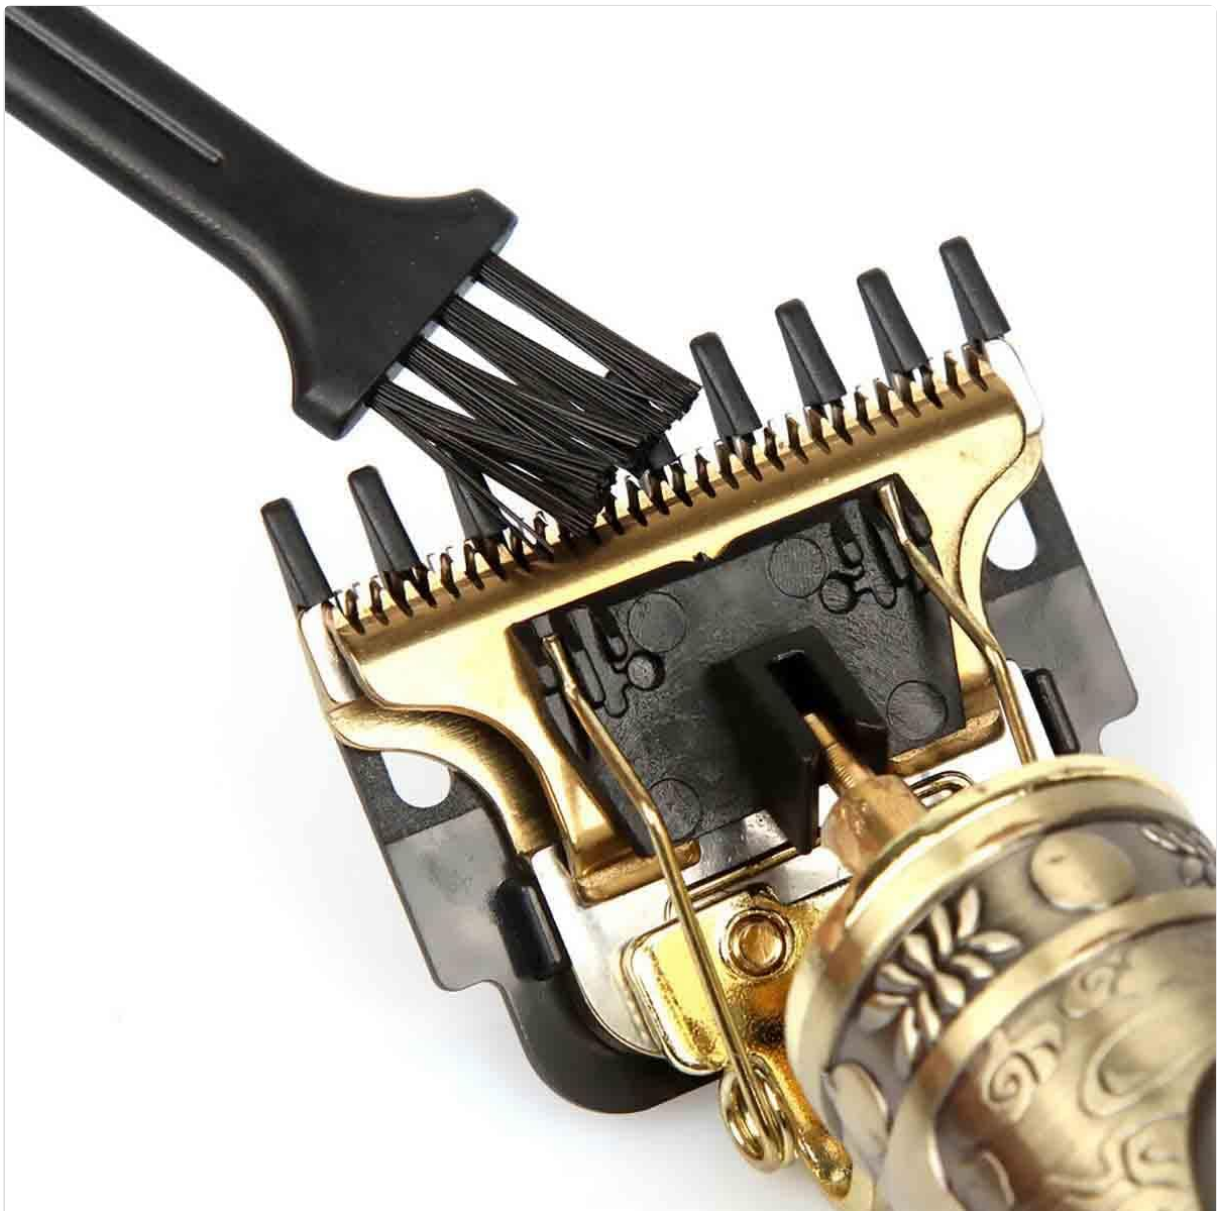

Image 5.1: A cleaning brush being used to remove hair from the trimmer blades, demonstrating proper maintenance.

5.2 Blade Lubrication (Optional)

Although not explicitly mentioned, applying a small drop of clipper oil to the blades periodically can help maintain their sharpness and reduce friction. Apply oil after cleaning and drying the blades, then run the trimmer for a few seconds to distribute the oil.

5.3 Storage

Store the trimmer in a cool, dry place, away from direct sunlight and moisture. Keep it out of reach of children.

6. TROUBLESHOOTING

If you encounter issues with your trimmer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Trimmer does not turn on.	Battery is depleted.	Charge the trimmer for at least 2 hours.
Trimmer pulls hair or cuts poorly.	Blades are dirty or dull.	Clean the blades thoroughly. Consider lubricating the blades. If issues persist, blades may need replacement (contact support).
Trimmer makes unusual noise.	Blades are obstructed or misaligned.	Turn off and clean the blades. Ensure no hair or debris is caught. If noise persists, discontinue use and contact support.
Charging indicator not working.	Faulty USB cable or power source.	Try a different USB cable or power adapter. Ensure connections are secure.

7. PRODUCT SPECIFICATIONS
