

## Hoppediz Buckle

# Hoppediz Buckle Baby Carrier User Manual

Model: Buckle

## 1. INTRODUCTION AND OVERVIEW

The Hoppediz Buckle Baby Carrier is designed for versatile use from birth, functioning as a front, back, and hip carrier. It is engineered to support the ergonomic M-position, which is crucial for promoting healthy hip development in infants. The carrier features an adjustable back panel for optimal support and special buckles on the strap to minimize pressure on the wearer's back. As your child grows and begins to sit independently, additional buckles allow for further adjustments while maintaining a sleek and discreet design. The optimized weight distribution system helps to alleviate strain on the shoulders, ensuring comfort for the parent.

A unique aspect of this carrier is the removable lower buckle, specifically designed for newborns, which can be detached when no longer needed. With an adjustable strap extending up to 160 cm, the Hoppediz Buckle offers flexibility to accommodate various body types. Crafted from high-quality 100% organic cotton, every component of the carrier undergoes rigorous safety testing to ensure the well-being of your child. Each package includes detailed instructions to guide you through its use.

## 2. SAFETY INFORMATION

Your child's safety is paramount. Please adhere to the following guidelines:

- **Weight Range:** The Hoppediz Buckle Baby Carrier is suitable for infants weighing from 3.5 kg (7.7 lbs) up to 20 kg (44 lbs). Do not use the carrier outside of this recommended weight range.
- **Ergonomic M-Position:** Always ensure your baby is seated in the ergonomic M-position, with their knees higher than their bottom, to promote healthy hip development.
- **Optimal Back Support:** The adjustable back panel is designed to provide optimal support for your baby's back. Ensure it is properly adjusted for your child's size.

- **Secure Buckles:** Before each use, double-check that all buckles and straps are securely fastened and properly adjusted to prevent accidental falls.
- **Airway Clearance:** Always ensure your baby's face is visible and their airway is clear. Regularly check for proper breathing.
- **Read Instructions:** Refer to the detailed instructions included in the product packaging for comprehensive safety guidelines and proper usage techniques.

### 3. SETUP AND ADJUSTMENTS

The Hoppediz Buckle Baby Carrier is highly adjustable to ensure a comfortable and secure fit for both parent and child. Familiarize yourself with the carrier's components and adjustment points:

Detailed diagram of the Hoppediz Buckle Baby Carrier, illustrating key components such as padded shoulder straps, adjustable hood, back panel dimensions, waist circumference range (65-160 cm), padded leg cutouts, and flexible bridge width adjustment for newborns.

#### Adjusting for Newborns (3.5 kg+)

- **Lower Buckle:** For newborns, ensure the lower buckle is in place. This feature helps create a smaller, more supportive seat for very young infants.

- **Bridge Width:** The bridge width (Stegbreite) is flexibly adjustable using the tunnel drawstrings and hook-and-loop fasteners. Adjust it so that the fabric supports your baby from knee-to-knee, ensuring the ergonomic M-position.
- **Back Panel:** The back panel is adjustable in length and width to provide optimal support as your baby grows. For newborns, ensure the back panel supports their head and neck.

## Adjusting for Older Infants and Toddlers

- **Removable Lower Buckle:** Once your baby can sit independently and no longer requires the extra support, the lower buckle can be removed.
- **Waist Strap:** The waist strap is adjustable up to 160 cm (63 inches) to fit various parent waist circumferences. Secure the main buckle around your waist or hips.
- **Shoulder Straps:** The padded shoulder straps are ergonomically cut for comfort. Use the shortening buckles (Verkürzungsschnalle) to adjust the length of the straps for a snug fit.
- **Hood:** The hood is partially retractable and rollable (teilraffbare und aufrollbare Kapuze). It can be individually attached to the shoulder straps using hooks for head support or sun protection.
- **Concealed Buckle:** A concealed buckle (Verdeckte Schnalle) is available for carrying older children, allowing for different weight distribution.

## 4. OPERATING INSTRUCTIONS (CARRYING POSITIONS)

The Hoppediz Buckle Baby Carrier offers multiple carrying positions to suit your needs and your baby's developmental stage.

BAUCHTRAGE

RÜCKENTRAGE

Illustrative diagram demonstrating various carrying positions for the Hoppediz Buckle Baby Carrier, including front carry (Bauchtrage) and back carry (Rückentrage), emphasizing the versatility of the carrier.

### Front Carry (Bauchtrage)

Ideal for newborns and younger infants, allowing for close contact and easy monitoring. Ensure the baby is positioned centrally on your chest, with their legs in the ergonomic M-position and the carrier fabric supporting them from knee-to-knee. Adjust shoulder straps for comfort and proper weight distribution.

### **Back Carry (Rückentrage)**

Suitable for older infants and toddlers who have good head and neck control. This position allows the parent more freedom of movement and is often preferred for longer periods of carrying. Carefully transfer your baby to your back, ensuring they are securely seated and the carrier is properly adjusted. The optimized weight distribution helps relieve the shoulders.

### **Hip Carry (Fascia da Fianco)**

This position is excellent for babies who like to observe their surroundings and for quick ups and downs. Position the carrier on your hip, ensuring your baby is secure and comfortable, with their legs in the M-position.

## **5. CARE AND MAINTENANCE**

To ensure the longevity and hygiene of your Hoppediz Buckle Baby Carrier, follow these care instructions:

- **Material:** The carrier is made from 100% cotton.
- **Washing:** The carrier is machine washable. It is recommended to wash it on a gentle cycle with mild detergent.
- **Drying:** Air dry the carrier. Avoid tumble drying as it may damage the fabric or buckles.
- **Storage:** When not in use, store the carrier in the included storage bag in a clean, dry place away from direct sunlight.

## 6. TROUBLESHOOTING

This manual provides general guidance for the Hoppediz Buckle Baby Carrier. Should you encounter any specific issues or require further assistance, please refer to the comprehensive instructions provided with your product packaging or contact Hoppediz customer support directly.

## 7. SPECIFICATIONS
