## 6. TROUBLESHOOTING

If you encounter issues with your iWALK Amour Air Duo2 earbuds, try the following solutions:

- **Earbuds not pairing:** Ensure both earbuds are charged. Place them back in the case, close the lid, wait a few seconds, then open and remove them to re-initiate pairing mode. Check your device's Bluetooth settings and forget/remove previous pairings before attempting to reconnect.
- **No sound from one earbud:** Ensure both earbuds are charged. Try placing both back in the case and taking

them out again. Sometimes, a factory reset (refer to specific product instructions if available) can resolve this.

- **Charging issues:** Check the charging cable and power adapter. Ensure the charging contacts on both the earbuds and the case are clean and free of debris. For wireless charging, ensure the case is correctly positioned on the charging pad.
- **Poor sound quality:** Ensure the earbuds are properly seated in your ears and you are using the correct size ear tips for a good seal. Check the audio source device for any issues.
- **Earbuds not connecting to device:** Ensure Bluetooth is enabled on your device and the earbuds are within range. Try restarting your device and the earbuds.
